OUR CREDENTIALS

- Kaua`i Community College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges.

- Special accreditation for the “Career-Ladder Nursing Program” has been granted by the Hawai`i State Board of Nursing and the National League for Nursing Accrediting Commission.

- Kaua`i Community College is an approved educational institution for education and training under the Veteran’s Educational Assistance Act (G.I. Bill), the Veterans’ Readjustment Act, and the Dependents’ Educational Act.

- This catalog provides general information about Kaua`i Community College, its programs and services, and summarizes those major policies and procedures of relevance to the student. The information contained in this catalog is not necessarily complete. For further information, students should consult with the appropriate unit. This catalog was prepared to provide information and does not constitute a contract. The College reserves the right to, without prior notice, change or delete, supplement or otherwise amend at any time the information, requirements, and policies contained in this catalog or other documents.

- The University of Hawai`i is an Equal Opportunity/Affirmative Action Employer.

Several symbols reflecting College and community values have been associated with Kaua`i Community College. In keeping with being your University on Kaua`i, the College’s official seal is now the same seal used by all the UH campuses.

The College logo, created by Graphic Artist Suesue Okada in 1988, and the 1980 Bumpei Akaji sculpture at the entrance of the campus both place high value on Kaua`i’s natural environment. The logo is symbolic of Kaua`i: "The sun, the winds, the mountain, the ocean — all are important aspects of Kaua`i. This island world colors our being, affects what we become. In the same way, the College fosters our pursuit of knowledge, awareness, and growth, helping us attain serenity and completeness.” The sculpture is associated with the KCC Foundation: “Nani Kaua`i: Ke mau nei ke ea o Kaua`i i Puh i "aina malu” (Beautiful Kaua`i: The spirit of Kaua`i thrives in the peaceful land of Puh i). The KCC Alumni Association uses as its symbol the kukui or candlenut tree whose nut was used by ancient Hawaiians as a candle; thus kukui means light and the tree symbolizes enlightenment and education.

A message from Peggy Cha, Chancellor . . .

Welcome to Kaua‘i Community College! Education is the pathway to your future, and our programs and services are here to help you on that journey. Even if you are unsure about your future, we can help you define your goal, as well. Our counselors and faculty are rich resources of experience and information about careers and the skills, knowledge and abilities you need to succeed.

A community college is the right place to explore both your own interests and what the world has to offer. Our small classes and focus on learning and teaching mean you will have teachers who share your interests and passions and can understand your confusions and uncertainties. Join us at Kaua‘i Community College— your place to start— your place to grow.
MISSION:
Kaua‘i Community College is an open access, post-secondary institution that serves the community of Kaua‘i and beyond. We provide education/training in a caring, student-focused, and intellectually stimulating environment. This education/training contributes to the development of life-long learners who think critically, appreciate diversity, and lead successful, independent, socially responsible, and personally fulfilling lives.

As a respected leader and powerful economic engine on Kaua‘i, we create quality of life for our graduates and community. As an integral part the University of Hawai‘i system, we provide an expansive continuum of opportunities in academic, technical, vocational and cultural programs. We offer open access and solutions for community needs, as well as stepping stones for our diverse local and global student body to achieve their dreams. Our mission is accomplished through:

• Timely and timeless learning, both practical and theoretical, comprehensive and accessible to students of all ages and backgrounds.
• An appreciation for intellectual pursuits which fosters in our students the ability to analyze problems, think critically, and communicate ideas effectively through writing, speech, and/or an artistic medium.
• Creative synergies of curriculum and programs which maximize the use of technology for global reach and adaptability to change.
• Programs and facilities to attract, support and house an international student body.
• Partnerships: campus, community, UH system, state, national and global.
• Active, involved leadership and participation throughout our campus.
• Community leadership and service, institutionally and individually.
• Customized programs and events, which broaden our reach and expand our role for visitors, residents, and students seeking degrees or simply the joy of learning.
• Ongoing assessment and evaluation of services, changing and improving as needed.
• Professional development and support for all employees.

Kaua‘i Community College Goals

1. Access
To provide open access to educational excellence for a diverse student population.

1.1 Outreach: Increase access to and participation in college programs through coordinated and continually improving marketing and recruitment activities.
1.2 Enrollment: Enhance educational success through retention initiatives.
1.3 Placement and Scheduling: Enhance utilization of placement testing and course scheduling processes.
1.4 Support Services for Access: Strengthen support services processes to better meet student needs.

2. Learning & Teaching
To promote excellence in learning and in teaching for transfer, career/technical, remedial/developmental education and life-long learning.

2.1 Articulation: Improve communication and articulation processes with other KCC programs as well as secondary and postsecondary institutions.
2.2 Curriculum: Ensure quality, relevancy and currency of curriculum to meet the needs of our diverse student population and community.
Kaua‘i Community College Goals (continued)

2.3 Remediation/Developmental: Review the college’s current strategies for dealing with remedial students and, based on the findings, modify offerings to meet their needs.
2.4 Student Learning Outcomes: Develop, implement and sustain an assessment process that fosters innovative and continuous improvement of student learning outcomes at the college, program, and course level.
2.5 Academic Support: Support student success through accessible, reliable, and user-focused academic support services.
2.6 Faculty and Staff: Create an environment that attracts, retains, and supports qualified personnel.
2.7 Facilities: Maintain facilities, equipment, and technological infrastructure to support institutional and student needs.
2.8 Financial Resources: Strengthen processes to develop and better utilize fiscal resources.

3. Workforce Development
To provide a trained workforce by offering programs that prepare students for both employment and future career development.

3.1 Articulate educational programs with workforce needs by utilizing input from advisory groups and other relevant sources of information.
3.2 Meet workforce needs, increase students’ rates of certification, licensure, job placement and/or transfer to appropriate baccalaureate programs by providing relevant education and training programs.

4. Personal Development
To provide life-long learning opportunities in the areas of personal and professional development.

4.1 Foster faculty and staff currency of expertise in their areas of responsibility through support of professional development activities.
4.2 Foster personal enrichment of students by providing opportunities that broaden their college experience.

5. Community Development
To contribute to community development and enrichment through campus leadership and collaboration.

5.1 Establish active collaborative arrangements to support community goals and needs.

6. Diversity
To foster global understanding and appreciation for diversity.

6.1 Support diversity and cultural awareness through campus programs.
6.2 Foster global understanding, develop partnerships with communities and organizations both within and beyond Hawai‘i.
Kaua‘i Community College Student Learning Outcomes

Communication: Effectively use language and non-verbal communication consistent with and appropriate to the audience and purpose.

- Reading: Read and comprehend written material critically and effectively at the appropriate program level.
- Writing: Write in a clear and organized fashion, at the appropriate program level, to explain ideas, to express feelings, and to support conclusions, claims, or theses.
- Speaking: Speak in an understandable and organized fashion to explain ideas, to express feelings, and to support conclusions, claims, or theses.
- Listening: Listen actively, respectfully, and critically to the substance of others’ comments.

Cognition: Use critical thinking skills to analyze, synthesize, and evaluate ideas.

- Problem Solving: Identify and analyze real or potential problems and develop, test, and evaluate possible solutions, using the scientific method where appropriate.
- Creative Thinking: Formulate ideas and concepts in addition to using those of others.
- Quantitative Reasoning: Use appropriate program level mathematical concepts and methods to understand, analyze, and explain issues in quantitative terms.
- Application: Apply knowledge and skills to appropriate contexts and transfer knowledge and skills to new and varied situations.
- Resource Management: Identify, organize, and allocate resources effectively.

Information Competency: Conduct, present and use research necessary to achieve educational, professional, and personal objectives.

- Information Literacy: Use print materials, personal communications, observations, and electronic media to locate, retrieve, and evaluate information. Understand the ethical, social and legal issues surrounding the use of information.
- Technological Competency: Apply technology effectively to locate, interpret, organize and present information.

Social Responsibility: Interact with others demonstrating respect toward their opinions, feelings, and values.

- Teamwork: Participate actively in group efforts to seek effective results.
- Respect for Diversity: Display an understanding of and respect for other people and cultures.
- Effective Citizenship: Demonstrate responsibility for being an informed, ethical, and active citizen of Kauai, the nation, and world.

Personal Responsibility: Demonstrate self-management through practices that promote physical, mental, and emotional well-being.

- Ethics and Values: Demonstrate an understanding of ethical issues and a sense of values to make sound judgments and decisions.
- Aesthetic Appreciation: Create or show appreciation for artistic and individual expression.
What’s new at Kaua`i Community College?

**Title III Grant Awarded**

Grant Awarded! In the fall of 2005 Kaua`i Community College was awarded a U.S. Department of Education grant under Title III of the Higher Education Act. The grant is for institutions that enroll large proportions of minority and financially disadvantaged students and particularly serve Native Hawaiian students. It is to be used for improvements in educational quality, management and financial stability. The Kaua`i Community College grant focuses on student success, transition and retention (STAR), where under-prepared students are nurtured in cohorts and supported by teams of counselors, instructors, and academic support specialists.

The proposal was for a total of $1.8 million over 5 years, to give us time to fully develop and test the concepts and transition the project into the college’s structure as the College Success Center.
**We'rrrrre Wireless!**

Kaua‘i Community College is officially a wireless campus! Wireless technology was introduced to the campus to facilitate and increase computer connections by eliminating the need to be located near a hub. A wireless network card placed in a laptop or desktop computer allows maximum mobility for students and maximum flexibility for the campus. Students who have their own computer laptops can now roam the campus and still be connected. For students who have no computers, the library has 9 laptops that it loans out to students and there are various programs that make them available to their majors. Computer services recommends that students who wish to use the network insure that a wireless network card is in their laptop and bring it to the help desk to have the access codes installed. Happy roaming!

**Distance Learning**

Can’t leave Kaua‘i to get your degree? We may have something for you at the University Center.

If you are interested in enhancing your management and business skills the Neighbor Island Master’s in Business Administration (NIMBA) program may be for you. The program is being offered in the January of 2006 and will be delivered via distance learning to the University Center from the College of Business Administration at the University of Hawai‘i. Not quite ready for a Master’s degree? Then the University of Hawai‘i West O‘ahu may be for you. They offer a baccalaureate degree in Business Administration that is delivered almost entirely online.

Want to be a teacher? The University of Hawai‘i Mānoa’s College of Education offers a number of programs via distance learning. Baccalaureate in Elementary Education and Post-Baccalaureate in Secondary Education cohorts are offered yearly and a Master’s in Education in Vocational and Rehabilitation Counseling is currently being offered.

These are just some of the programs that are delivered here, call the University Center today at 245-8330 for more information or visit our website at <kauai.hawaii.edu/uckauai/> for more information.
Linguistics

Are you interested in the development of language? Linguistics is the scientific study of language and its structure. This online course explores the nature of language and introduces questions and concepts concerning a variety of topics in linguistic study: the structure, processing, acquisition, and development of human language; brain functioning; language variation; nonverbal communication; language and culture; and human uses of language. If you are tempted by this fascinating subject, contact the instructor, Patricia McGrath at pmcgrath@hawaii.edu or call your counselor.

New Distance Learning Class - Intermediate Spanish

Want to take Spanish online? Kaua’i Community College has a new mode of delivery for Spanish. Practice your conversational skills by speaking to your classmates through your computer. Refine your language skills through conversation, listening, and instruction in grammar, reading, and writing. Discover the Spanish-speaking world on the Internet; music, history, culture and more. Spanish 201 will be offered in the Fall and Spanish 202 in the Spring. If you are interested, contact the Spanish instructor, Mary Fatora-Tumbaga at fatoratu@hawaii.edu or call your counselor.
Look at our connections!
Articulation agreements with other colleges and universities can help you in reaching your educational goals. Student exchange agreements offer the opportunity to experience other cultures.

*Kaua`i Community College has agreements with the following colleges and universities:*

- Bow Valley Community College, Calgary, Canada
- Brigham Young University in Hawai`i (BYU)
- Chaminade University
- Chiba Keizai College, Chiba, Japan
- Christ Church Polytechnic, New Zealand
- Hawai`i Pacific University (HPU)
- Idaho State University
- Kitty's Cookery and Catering, Ltd., Hong Kong, China
- Nara College of Arts, Nara, Japan
- Normandale Community College, Normandale, Minnesota
- Okinawa Christian Junior College, Okinawa, Japan
- Okinawa Christian College, Okinawa, Japan
- UH Community Colleges
- UH Hilo
- UH Mānoa
- UH West O`ahu
- University of Nevada at Las Vegas (UNLV)
- University of Northern Colorado
- University of the Ryukyus, Okinawa, Japan
- University of Southern Colorado

2005 Outstanding Student Employee of the Year
Derek Del Conte

Kaua`i Community College is proud to present this year’s Outstanding Student Award to Derek Del Conte.

Derek has worked in the Learning Center over 2 years and is a valued multi-skilled tutor and student lab assistant. His primary responsibility is to provide tutorial assistance to other students to help maximize their chances for academic and personal success. Derek has helped with computer assistance to various instructors as well.

Derek has technical expertise, is very competent and has a commendable sense of commitment to his responsibilities. He upholds the Learning Center’s goals and objectives and goes over and beyond what is expected of him. He has assumed duties that are not a part of his job description and can work with little or no supervision. He is a great asset to the Learning Center.
As in prior years, a committee composed of students and faculty rigorously screened the faculty who were nominated by students and their colleagues. Here are excerpts from various nominators:

“He is humble, patient, kind and helpful to the colleagues and students all the time.”

“This course has helped me to discover the focal point of my college education….Taking this class from him has guided me in a direction I never want to turn back from.”

“…He never turned me away. If I ever needed to talk to him after class or sought him out at his office with a question, he always helped. Even now, a year or more after taking his class, I find myself wandering his way for advice or information.”

“I don’t think that he knows that he has done this much for me as a teacher, but he has….And while a simple ‘thank you’ can be spoken to express my gratitude towards this man, I think an award would show my appreciation as well. He is indeed an excellent teacher.”

“To him, class size does not affect the quality of his teaching, he will teach you just the same…He was always so knowledgeable about each author, he spoke as if he knew them and in turn you felt more connected to them…Because he was so interested in what he taught, his enthusiasm became infectious and made you want to hear, read, and know more about what we discussed in class.”

In his own words, “…the teaching/learning process is a joyful enterprise. Whatever other good things education can bring—a degree, the satisfaction of having accomplished a goal, getting a job one has dreamed about—in developing our critical and creative powers of mind, we develop ourselves more fully as human beings. In so doing, I believe we develop more fully our capacity for happiness. And so, gladly would I learn and gladly teach.”

Dr. Gerald Browne, Assistant Professor of English, is this year’s recipient of the Excellence in Teaching Award.

Nominators expressed that Tony Kilbert ”...makes you want to know more, because he shines light on the inter-connectedness of people and things."

“He’s got soul and is well spoken. Nothing in what he says is just to fill up space. He doesn’t talk down to you, and yet you have a sense of his worldliness and education.”

“On the first day of class, he showed us this model of an ‘x’ within a circle. The ‘x’ was to represent us, and the circle represented our environment. He told us that no matter what, there is no way to separate a person from their environment. It’s the other components that are within your circle that will mold and shape who you are. What is around you will influence your life and mold your future. When you think about this simple model, it opens up a world of meaning when you take the time to stop and look. At the end of all his classes you feel like celebrating life and are uplifted by what you have learned.”

“Aside from teaching, he dedicates his time to the (Theater) club. As an advisor, he has become a mentor for all the members. He is someone that you can go to help, or just to talk. His advice and words are always in truth and he does not ‘put up a front.’”

“By just looking at him, a person is able to see that he lives each day with a positive outlook. This positive energy in turn rubs off on the people he works with, especially the students, and it’s that attitude that enables us to want to listen, want to learn and we are grateful to him for that.”

Tony Kilbert, lecturer in Speech Communication, Business Customer Service, Business Communication, Marketing and Theater manager of the College’s Performing Arts Center, is this year’s recipient of the Frances Davis award.
So your goal is to live and work on Kaua`i while you earn a bachelor’s or graduate degree?

The University Center at Kaua`i Community College wants to provide programs that meet your needs.

Programs are helping people earn and learn-study and stay on Kaua`i:

BA Business Administration
BA Hawaiian Studies
BA Psychology
BA Social Sciences with Applied Track
BED Elementary Education
BS Nursing
Master of Business Administration
Master of Library and Information Studies
MED Counseling and Guidance, Rehabilitation Counseling

KAUA`I COMMUNITY COLLEGE

The College

Kaua`i Community College, a 2-year public community college, is the only college on the island of Kaua`i. Its 200-acre campus is located just west of the major town of Lihu`e. Begun in 1928 as a vocational school, it became a comprehensive community college in 1965.

The Island

Kaua`i, with a population of about 58,000, lies 100 miles northwest of Honolulu, the State capitol and major population center of Hawai`i. The island retains many aspects of rural island life. The northernmost and oldest of the major Hawaiian islands, it is 627 square miles in area with a diameter of 32 miles, yet the climate varies dramatically from desert to rain forest with altitudes ranging from sea level to 5,148 feet. The beauty, the diverse cultures, and the climate are major island resources.

The University of Hawai`i System

Kaua`i Community College is one of 7 colleges in the University of Hawai`i System. Also included in the system are the University of Hawai`i campuses at Mānoa, Hilo, and West O`ahu. Other community colleges include one on Hawai`i, one on Maui, and four on O`ahu, together with the Employment Training Center.

Administrative Organization

The University of Hawai`i is governed by a Board of Regents appointed by the Governor of the State. The President of the University serves as the executive officer of the Board. The Chancellor of Kaua`i Community College is responsible to the President of the University and Chancellor for Community Colleges. The Faculty Senate and the Associated Students of Kaua`i Community College, together with the Chancellor’s regular staff, provide advisory services to the Chancellor on matters of campus operation.

Curricula

Kaua`i Community College offers lower-division, transfer-level courses for students who plan to transfer to a 4-year college or university occupational courses for students seeking competency or improvement in employable skills, and general education courses for all students to provide them with awareness of the ideas and ideals of our society.

Liberal Arts: The program provides transfer-level general education through courses in communications, humanities, mathematics, natural sciences, and social sciences. Successful completion of the 2-year liberal arts program leads to an Associate in Arts Degree. Students who follow the prescribed sequence of transfer courses will be able to meet the general education “core” requirements at Mānoa, Hilo, and West O`ahu campuses of the University of Hawai`i, as well as those of most other 4-year colleges and universities, should they decide to continue their education at a 4-year institution. While most of the transfer courses offered are in the liberal arts area, a few transfer courses are also offered in business education. Certain business and trade-technical courses that are normally regarded as non-transfer may also be considered transfer courses since they are accepted by some mainland colleges and also by the University of Hawai`i’s College of Education for those students who are prospective secondary school teachers in business, industrial arts, and industrial technology. (See the Instructional Programs section in this catalog.)

Business Education: Major areas include accounting; office administration and technology; and visitor industry programs in culinary arts, hotel operations, and hospitality services. These areas of emphasis may lead to a Certificate of Completion, a Certificate of Achievement, or an Associate in Applied Science Degree.

Health Service: A “Career-Ladder Nursing Program,” consisting of 2 levels (Practical Nursing and Registered Nursing), is offered. A student successfully completing the first level of the curriculum is awarded a Certificate of Achievement in Practical Nursing and is eligible to take the State Board examination for licensure as a Practical Nurse. Successful completion of the second level of the curriculum leads to an Associate in Science Degree in Nursing and eligibility to take the State Board examination for licensure as a Registered Nurse.

Trade-Technology: Offerings include auto body repair and painting, automotive mechanics technology, electronics technology, and facilities engineering technology. The College also offers CISCO-certified training as an option in Electronics Technology. These programs may lead to a Certificate of Completion, a Certificate of Achievement, or an Associate in Applied Science Degree.

Degrees and Certificates

Associate in Arts, various Associate in Applied Science and Associate in Science Degrees are awarded by Kaua`i Community College to students who successfully complete the requirements for graduation. Certificates of Achievement Certificates of Completion, and Certificates of Competence are awarded to students who complete the requirements of selected programs.

See Degrees & Certificates, page 57.

Academic Year

The College operates on the semester system. Some courses are modular, ranging from 2 to 7 weeks. Day and evening classes are available for full-time and part-time credit and non-credit students from 8:00 am to 9:00 pm. Courses may meet 5 or fewer times per week.
A summer program includes limited on-campus offerings and courses delivered by other UH campuses by HITS (also known as ITV), Cable TV, and Internet. During the summer sessions, most courses must be self-supporting; therefore, tuition rates are higher than they are for fall and spring semesters.

Core Courses

The College catalog is published yearly and does not always reflect the most recent campus actions involving core courses. For the most recent information about core courses, check with a counselor and the latest version of the Student Transfer Handbook.

International Education

Opportunities for students to interact with international students at the College and to experience culture and language study abroad have a Pacific focus. Current international agreements exist with Japan, Okinawa, and New Zealand. For international students interested in enrolling at the College, see the Getting Started and the College Policies and Procedures sections of the catalog.

Student Services

The College provides excellent student support services, including academic advising, career planning, personal counseling, financial aid, and assistance with admissions and registration.

Faculty

The faculty is composed of men and women who have completed advanced training and degrees in their fields. Each has demonstrated subject matter competency, the ability to teach that subject matter, the motivation to remain current in his/her discipline, and concern for students.

The College is proud of its faculty. They are a dynamic group of committed professionals. In their individual ways, they help our students to achieve their educational goals and to lead richer lives.

Library

The KCC Library has a collection of over 54,000 books and over 3,900 non-print titles as well as a subscription of 180 periodical titles. An electronic catalog provides access to all UH System libraries, to local and national indexes, and to on-line databases. In addition, the Library has access to the 2 million volumes at the Mānoa campus through the interlibrary loan service.

The Library offers ample seating for students. Small group meeting rooms are available for students working on projects. A computer lab within the library provides access to the Internet and to the campus network. Video players/monitors to view videos in the Library collection, electronic coin-operated typewriters, microfilm readers/printers, photocopying machines, and a reserve desk for instructor-provided materials are available.

Computer Labs

Several computer labs provide individuals and classes with access to PC and Macintosh computers. Students can apply for computer accounts which provide access to e-mail and Internet.

The Learning Center

The Learning Center is an academic support unit committed to providing services and programs to meet the diverse needs of the student population. The Center assists students to become independent, self-confident, and efficient learners and to develop requisite skills enabling them to meet the College’s academic standards, succeed in obtaining their career and life goals, and become productive members of society now and in the future. Programs and services include tutorial assistance in content courses and in writing and thinking; individualized study skills instruction; and workshops in word processing, electronic mail, Internet use, and learning strategies. The Center is equipped with state-of-the-art computer technology and houses computers and instructional software in specific disciplines.

Kaua’i Community College Training

Flexible, timely responses to needs beyond the traditional college curriculum are the hallmark of the (Office of Continuing Education and Training). Instructional courses focus on training programs in the business and visitor industries, vocational upgrading, and personal enhancement and development. Special programs include re-training for dislocated workers, international study tours, and cultural performances staged at the College’s Performing Arts Center. A variety of instructional, cultural, recreational, vocational, problem-solving, and general informational services are available.

Non-credit courses are open to anyone who can benefit from them. While there are no prerequisites, specific courses may require some prior experience to obtain maximum benefit. NON-CREDIT COURSES DO NOT MEET THE REQUIREMENTS FOR A COLLEGE CERTIFICATE OR DEGREE.

University Center

As an island state, Hawai‘i is well-suited to distance education programs. Kaua‘i Community College serves as a University Center for the island of Kaua‘i, providing support for courses and programs made available from other institutions within the University of Hawai‘i System. Baccalaureate, graduate degrees, and certificates can be obtained on Kaua‘i. Programs are delivered via ITV (interactive television), Internet, and/or in person.
Getting Started
At Kaua`i Community College
GETTING STARTED AT KAUA`I COMMUNITY COLLEGE

Follow these steps to become a student at Kaua`i Community College.

Am I eligible to attend Kaua`i Community College?

Any U.S. high school graduate (or equivalent), or any person 18 years or older who shows evidence of being able to benefit from instruction, is eligible for admission to Kaua`i Community College, subject to the availability of resources.

How do I enroll?

1. APPLICATION

You may pick up a University of Hawai`i System Application Form at the KCC Admissions and Records Office or at any University of Hawai`i campus. You may also check with the counseling office at a Hawai`i high school to see if they have forms available. You may also request that an application be mailed to you by calling, e-mailing, or writing the Admissions and Records Office. Please check the deadline for turning in your application. That deadline is listed on the application form and in the Schedule of Classes. Non-resident applicants are required to pay a $25 application fee.

Programs with Special Admission Requirements:

Applicants for the Electrical Installation and Maintenance Technology, Electronics Technology, Facilities Engineering Technology, Culinary Arts, Nurses` Aide, and “Career Ladder” Nursing programs must meet additional admission requirements. Specific information regarding application procedures and admission requirements may be obtained from the Student Services Office.

2. TRANSCRIPTS

Request that official academic transcripts from previous high school and/or college be mailed to the Admissions and Records Office. You may be exempt from submitting high school transcripts if (1) you attended high school more than 10 years ago or (2) you are not applying for admission into the “Career Ladder” Nursing program. You may be exempt from submitting college transcripts if you are applying as an unclassified (non-degree seeking) student and you do not plan to enroll in English or math courses or any course with English or math prerequisites.

3. LETTER OF ACCEPTANCE

After your application is complete, you will receive an acceptance letter. The letter will verify your (a) major, (b) tuition status, and (c) information about academic advising and registration. You may call the Admissions & Records Office if you have any questions about your acceptance letter. All documents, transcripts, and forms submitted become the property of the College; they will not be returned to you.

4. PLACEMENT TEST

Take a KCC placement test before you go for your academic advising. You must demonstrate English and math placement levels. Tests are free of charge. You will need to schedule an appointment with the Student Services Office to take the test.

5. TUBERCULOSIS (TB) CLEARANCE

Submit proof of TB clearance to the Admissions and Records Office prior to registration. All students in the UH System must provide a TB clearance certificate. You will not be allowed to register without the required TB clearance. Refer to Health Requirements in the College Policies and Procedures section.
6. MEASLES CLEARANCE

Submit proof of measles clearance (immunizations or immunity), if required of you, to the Admissions & Records Office prior to registration. The College requires the following students to submit proof of measles clearance:

a. Born after 1956 and did not attend a Hawai‘i high school.
b. Foreign: students, immigrants, or visitors.

Refer to Health Requirements in the College Policies & Procedures section.

7. ACADEMIC ADVISING

Meet with a counselor to develop an academic plan. Academic advising is by appointment. Academic advising is provided when you have decided on a particular major so you can plan the things you need to do and how long it will take you to reach your goal. If you are an unclassified (non-degree seeking) student, you do not have to go through academic advising, but it is available if you would like it. It is highly recommended for unclassified students wishing to work towards a certificate or degree but who are undecided about a major/program.

Counseling is based on your individual interests, abilities, aptitudes, and needs. Advising is available year-round to assist you in defining your academic and occupational goals. You are encouraged to see a counselor to resolve personal problems that may interfere with your studies. In addition to individual counseling, several classes are offered each semester on career exploration and student success.

8. SCHEDULE OF CLASSES

Check the Schedule of Classes; this will probably be the most important publication you will use while you are at KCC. The Schedule of Classes comes out in November for the following spring semester and in April for the following fall semester. The Summer Schedule comes out in April.

The Schedule lists enrollment and registration dates and information; tuition and fees; distance education courses available from other University of Hawai‘i institutions; refund deadlines; add/drop procedures; course/program costs; campus directory; and the final examination schedule.

The Schedule of Classes is distributed to island households in one of the local newspapers. You can pick up a Schedule of Classes in the Admissions & Records Office, the Library, The Learning Center, or the Bookstore, or call the Admissions & Records Office to have one mailed to you. The Schedule of Classes is also available on the web at kauai.hawaii.edu.

9. REGISTRATION

UH Community College students are able to register through the MyUH Online Portal. You can also register in person. All new classified students are required to see a counselor for academic advising prior to registration. You are officially registered after payment of tuition and fees.

How do I apply for financial aid?

The Free Application for Federal Student Aid (FAFSA) is a primary form used by the college to determine student eligibility for need-based assistance. Continuing students will receive a Renewal FAFSA which can also be used. You must apply each school year to receive financial aid.

The FAFSA can be completed either by mail or by going on-line to the following web site: http://www.fafsa.ed.gov. Before you file a FAFSA on-line, you must apply for a personal identification number (PIN) at this web site: http://www.pin.ed.gov.

After your application is processed a Student Aid Report (SAR) is generated by the processor. The college will receive and review your processed SAR and may request additional documents. You must submit all requested documents and have a valid SAR in order for the college to make you an Award Offer. Our college’s priority deadline is March 1st.

What if I am a returning KCC student?

If you attended Kaua‘i Community College in the past and you are not currently enrolled, you need to again submit an application for admission. You can call, e-mail, and request that a form be mailed, or you can come in to the Admissions and Records Office to pick one up. You can also print the application from the web.
**How do I know if I am a resident?**

An official determination of your residency status will be made after you submit your application. You may be required to provide documentation to verify your residency status. If you do not qualify as a bona fide resident of the State of Hawai‘i, according to the University of Hawai‘i rules and regulations in effect at the time you register, you must pay non-resident tuition. Once you are classified as a non-resident, you will continue to be classified as a non-resident until you can present satisfactory evidence to the Registrar that proves otherwise.

Certain students are granted statutory exemption for the residency regulation. See the Residency entry in catalog for more specific residency information.

**What if I transfer from another college?**

Complete an application and provide official transcripts (sent directly from the school you previously attended to KCC’s Admissions and Records Office). Official transcripts become the property of the College and will not be forwarded to any other institution (outside of the University of Hawai‘i System) or individual or copied for students. In order for your transcripts to be reviewed, you need to fill out the Request for Transcript Evaluation Form.

Credit for courses completed at regionally accredited colleges and universities may be accepted toward meeting graduation requirements only if courses completed are substantially equivalent to offerings at the College. In addition, the grade earned must be a “D” or higher. If you completed courses within the University of Hawai‘i System, you must have earned a grade of “D” or higher.

**What if I have CLEP or Advanced Placement Credits?**

KCC awards college credit for acceptable scores earned on selected CLEP General Examinations and Subject Examinations and for acceptable scores earned on the Advanced Placement Examinations in accordance with CLEP and AP policies and criteria adopted by the University of Hawai‘i at Manoa. For more information, please see your counselor or the Admissions and Records Office.

**What do I need to do if I am an immigrant student?**

If you are an immigrant (permanent resident alien), submit a copy (front and back) of your permanent resident alien registration card.

**What do I do if I am an international student?**

Kaua‘i Community College is authorized under Federal law to enroll non-immigrant alien students. Interested F-1 visa students who are overseas and those who are already in the United States of America, need to submit the following:

1. University of Hawai‘i System Application Form.
2. University of Hawai‘i Supplementary Information Form for Foreign Applicants. Evidence of support in U.S. currency must be attached showing that adequate financial support will be provided during the entire period of enrollment.
3. Official TOEFL (Test of English as a Foreign Language) scores sent directly to Kaua‘i Community College by the Educational Testing Service. Minimum score for admission is 450 (paper based testing) or 133 (computer based testing).

Applicants exempt from taking the test are those:

a. Whose native language is English, from Australia, Canada (except Quebec), Ireland, New Zealand, United Kingdom, or the United States.

b. Who have completed three years of high school education or 30 semester credits of college-level work (30 transfer semester credits for the Associate in Arts degree program)
from an accredited college or university in the United States, Australia, Britain, Canada, Ireland, United Kingdom or New Zealand.

c. Who are transferring from an accredited college or university in the United States, Australia, Britain, Canada, Ireland, United Kingdom or New Zealand, and have completed the equivalent of freshman-level English with a grade of "D" or better.

4. High school and college academic transcripts translated in English sent directly to Kauaʻi Community College by the schools.

5. Kauaʻi Community College Confidential Health Form completed by a medical official which presents evidence of good health.

All non-resident international students must demonstrate proof of enrollment in a health and accident insurance program before any such student shall be permitted to enroll. The intent of this requirement is to protect international students against the high cost of unanticipated health care expenses resulting from accidents or illness.

International applicants must comply with all regulations of the Immigration and Naturalization Service as well as with applicable policy of Board of Regents of the University of Hawaiʻi and the policies of the Kauaʻi Community College. For purposes of clarifying requirements for admission, international students who are not U.S. citizens and who have not been admitted to live in the U.S. permanently are designated as non-immigrants. Kauaʻi Community College is authorized under Federal law to enroll non-immigrant alien students.

Contact the Office of the Dean of Students at 245-8212 for rules and regulations and admission requirements.

What if I have a disability?

Federal law prohibits the College from making pre-admission inquiry about disabilities, so we may not know if you have any special needs. Information regarding disabilities, voluntarily given or inadvertently received, will be kept confidential and will not affect admission decisions. If you inform us of disability-related needs, we can prepare appropriate support services. To discuss special needs, call the Disability Services Counselor at 245-8314.

Am I eligible for veteran's educational benefits?

Kauaʻi Community College is an approved educational institution for education and training under the Veteran’s Educational Assistance Act (G.I. Bill), the Veterans’ Educational Readjustment Act, and the Dependents’ Act. Information regarding eligibility, entitlement, and types of education and training available for veterans may be obtained at the Admissions and Records Office or the Veterans’ Administration Regional Office.

What if I am in the military?

If you are an active member of the military (or a military dependent) stationed in Hawaiʻi, submit a copy of your military orders to Hawaiʻi and complete Item F of the application form.

Can I enter college while I am still attending high school?

If you are an academically-accomplished or vocationally-gifted high school junior or senior who has successfully completed all relevant secondary curriculum offerings available in your high school, you may enroll at Kauaʻi Community College on a space-available basis while attending high school. Written approval from the high school and parents must be submitted with your application (Early Admissions Parent/School Approval Form). Complete information and application forms and procedures are available from your high school counselor or from KCC’s Admissions and Records Office. Submit your application, listing “SPEA” as your major together with the Early Admissions Parent/School Approval Form.

Running Start is a statewide program that provides an opportunity for academically qualified juniors and seniors to enroll in college classes through the University of Hawaiʻi System as part of their high school coursework. This unique partnership between the Department of Education and the University of Hawaiʻi System allows public high school students to attend college classes during the fall, spring, and summer while earning both high school and college credits. Students should contact their high school counselor to see if they qualify and for more information.
In the Campus Center are a number of people who can help you become a student at Kaua’i Community College. Check the services below and find their location on the diagram.

Proposed Summer
SCHEDULE OF TUITION and FEES  *(Per Semester)*

Summer 2006 - $113 (per credit, resident)
Summer 2006 - $146 (per credit, non-resident)

All tuition and fee charges at University of Hawai`i campuses are subject to change in accordance with requirements of state law and/or action by the Board of Regents or the University administration.
For registration to be official, all tuition and fees must be paid in full before the closing of the day on the published deadlines. Deferred payment of tuition and fees is forbidden by University of Hawai‘i Policy. Failure to make full payment will result in cancellation of registration for the semester.

**Activity**
The Activity Fee for both residents and non-residents is $1.25 per credit, maximum of $15.00.

**Apprenticeship Tuition and Fees**
Apprentice and Journey Work: $.35 per clock hour.

**Cable**
A fee of up to $20.00 is charged when a student registers in some courses offered via cable television to recover the amount of any per student charge required under a license agreement or contract for use of copyrighted television courseware.

**College Catalog**
The college catalog is available at the Kaua‘i Community College website or for purchase at the KCC bookstore.

**Course Changes**
A $5.00 fee is charged for each request for course change (adding or dropping) done in-person (no charge for transaction done on the web).

**Credit by Examination Tuition and Fees**
Charges for credit by examination are based on the prevailing tuition and fee schedule.

**Dishonored Checks**
A $15.00 service charge will be assessed for checks which are made out to Kaua‘i Community College and returned for any cause.

**Fee Slip (Student Schedule/Bill) Duplicate**
A $2.00 duplicating fee is charged for each fee slip (Student Schedule/Bill) copy.

**Graduation**
A fee of $15.00 is payable at the time the student receives confirmation of graduation.

**Hawaiian Language Diploma**
A $15.00 fee is charged for a Hawaiian Language Diploma. This diploma is in addition to, and not an alternative for, the regular English language diploma.

**Late Registration**
A fee of $30.00 is charged when a student registers after the last day of regular registration.

**Non-Credit Course Tuition and Fees**
Fees for non-credit courses vary. For details, see the KCC Training (Office of Continuing Education and Training) course schedule.

**Other Educational Records**
A $1.00 fee is charged for each copy of any other educational record requested by the student or other eligible person.

**Summer Tuition**
Summer 2006 • Resident-$113.00 • Non-resident - $146.00

**Transcript**
No fee is charged for a transcript sent within the University of Hawai‘i System. A $3.00 fee is charged for each transcript that is sent to another college outside the University of Hawai‘i System or for student copies. A $10.00 fee is charged for all “rush” transcripts (processed within 24 hours), sent within or outside of the University of Hawai‘i System or for student copies.
**Transcript (continued)**

DO NOT send transcripts within the UH system (exception: send transcripts if you attended KCC prior to Fall 1986 - no fee required, except for "RUSH").

**Financial Obligations to the University**

Students who have financial obligations (such as tuition and fees, traffic violations, parking tickets, unreturned library books, library fines, other fines, locker fees, laboratory breakage charges, transcript fees, loans past due, rental payments, etc.) may be denied grades, transcripts, diplomas, and registration.

A copy of the “Rules and Regulations Governing Delinquent Financial Obligations Owed the University of Hawai‘i,” promulgated by the Board of Regents, is on file in the Student Services Office.

**Refunds**

**Financial Aid Refund/Repayment Policy**

Federal regulations require each University participating in the Title IV Federal Student Aid Programs, to have a written policy for the refund and repayment of federal aid received by students who withdraw during a term for which payment has been received.

These policies are effective only if the student completely terminates enrollment (i.e., cancels his/her registration, withdraws, or is dismissed) or stops attending classes before completing more than 60 percent of the enrollment period.

**Repayment Policy**

The amount of Title IV aid that a student must repay is determined via the Federal Formula for Return of Title IV funds as specified in Section 484B of the Higher Education Act. This law also specifies the order of the return of the Title IV funds to the programs from which they were awarded.

A repayment may be required when cash has been disbursed to a student from financial aid funds in excess of the amount of aid the student earned during the term. The amount of Title IV aid earned is determined by multiplying the total Title IV aid (other than FWS) for which the student qualified by the percentage of time during the term that the student was enrolled.

If less aid was disbursed than was earned, the student may receive a late disbursement for the difference. If more aid was disbursed than was earned, the amount of Title IV aid that must be returned (i.e., that was unearned) is determined by subtracting the earned amount from the amount actually disbursed.

The responsibility for returning unearned aid is allocated between KCC and the student according to the portion of disbursed aid that could have been used to cover KCC charges and the portion that could have been disbursed directly to the student once University charges were covered. KCC will distribute the unearned aid back to the Title IV programs as specified by law. The student will be billed for the amount the student owes to the Title IV programs and the college.

**Tuition and Fees Refund**

Refunds are processed by the Business Office.

**Semester Length Courses: Student Activity Fees**

A 100% Student Activity Fee refund is given for complete withdrawal made within the first week of instruction. No refund is given for complete withdrawal made after the first week of instruction.

**Non-Semester Length Courses: Tuition & Special Course Fees**

The refund period at all institutions shall be 20% of the instructional period. The instructional period includes all calendar days beginning from the first day of instruction and ending on the last day of instruction. No refunds will be made for courses where the instructional period is 10 days or less, except before the first day of instruction. Refunds for credit courses that are not semester long shall be as follows:

1. 100% refund for complete withdrawal only if made on or before the last day of late registration (add period) as established at each institution.

2. 50% refund for complete withdrawal or change in status or tuition rate if made after the late registration period (add period) but on or before the end of the refund period as defined above, unless otherwise stipulated by federal regulations.
Non-Semester Length Courses: Activity Fees

1. 100% refund of the student activity fee for complete withdrawal only if made on or before the first day of instruction.

2. No refund of the student activity fee if complete withdrawal is made after the first day of instruction.

The mission of financial aid is to facilitate student achievement of academic goals by providing financial resources to students who would otherwise be unable to pursue post-secondary education. The underlying principle behind financial aid programs is that parents and students have a primary responsibility to pay for college as their means permit.

The college requires completion of two forms to receive financial aid: 1) the Free Application for Federal Student Aid (FAFSA) and 2) the Supplemental Information Form. You must list our federal school code of 001614 on your FAFSA.

The majority of aid awarded by Kaua‘i Community College is based on financial need. To be eligible for financial aid:

Applicant must:
• be a U.S. citizen or an eligible non-citizen (permanent resident).
• be enrolled in a degree granting program (classified student).
• be making satisfactory academic progress toward a degree.
• not be in default on a loan or owe a refund on a federal grant.
• have demonstrated financial need.
• have obtained a high school diploma, GED, or have passed a federally-approved test.
• be registered with Selective Service, if required.

Federal Financial Aid Program includes:
FEDERAL PELL GRANTS: These are federal entitlements available to any qualified, needy undergraduate student who is attending college at least half-time and who has not previously earned a Bachelor’s degree.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS (SEOG): These grants are available to undergraduate students with exceptional financial need who are attending school at least half-time.

FEDERAL WORK STUDY PROGRAM (FWSP): This program provides funds for part-time employment. Students are limited to a maximum of 20 hours per week during the academic terms. An individual student’s award is based upon his or her individual need and the availability of funds.

FEDERAL FAMILY EDUCATIONAL LOAN PROGRAM (FFELP) are loans from private lenders such as banks and credit unions and guaranteed by the federal government. There are three types:

SUBSIDIZED FEDERAL STAFFORD LOAN: A Federal Stafford loan is made through a bank or lending institution and guaranteed by a state agency. Annual loan limits differ depending on a student’s academic level and existing Stafford loan balance. Repayment begins six months after the borrower ceases to be enrolled on at least a half-time basis. Deferments are available.

UNSUBSIDIZED FEDERAL STAFFORD LOAN: The maximum amounts and interest rates of this loan program are similar to the Subsidized Federal Stafford Loan program. However, interest begins accruing upon disbursement of the funds. Deferments are available.

FEDERAL PARENT LOAN FOR UNDERGRADUATE STUDENTS (FPLUS): This program provides additional loan funds for student’s educational expenses. Parents of dependent students may borrow up to the calculated cost of attendance minus other student aid, for their child from the FPLUS program. The interest rate on FPLUS loans are variable. Interest begins accruing upon disbursement of the funds. Deferments are available.

State, Institutional, Private, and Other Financial Assistance

HAWAI‘I STATE INCENTIVE GRANT (HSIG): Tuition grants are available to needy undergraduate students attending school at least half-time. To qualify, a student must be eligible for a Pell Grant and be a resident of Hawai‘i for tuition purposes.
STATE HIGHER EDUCATION LOAN (SHEL): This loan program is available to Hawai‘i residents. Awards are based on demonstrated financial need and availability of funds. Repayment begins 9 months after the student ceases to be enrolled on at least a half-time basis. Deferments are available.

Hawai‘i State Tuition Waivers - Kaua‘i Community College issues a limited number of need-based, merit, and non-need based tuition waivers. Priority is given to students demonstrating financial need. Deadline to apply for waivers is August 1st for fall and January 1st for spring.

Short-Term Student Loans: Classified students attending KCC at least half time may borrow 30-day emergency funds to purchase text books only.

Financial Aid Satisfactory Academic Progress Policy
This policy applies to ALL students receiving some form of financial assistance at KCC. Developed in accordance with federal and state regulations the financial aid satisfactory academic progress policy sets forth both qualitative and quantitative standards. Need based financial aid applicants who transferred from another school must have their academic transcripts evaluated. Financial assistance is awarded based on remaining credits required for completion of the student’s primary major. Evaluation of progress begins upon acceptance into an academic program offered by KCC. Qualitative: A minimum 2.0 current and cumulative grade point average. Quantitative: A minimum number of credit hours to be completed.

The maximum time frame in which a student is expected to complete his program shall be no longer than 150% of the credit hours required to complete the published length of that program. Students who do not reach the accepted level of credit completion (75%) and grade point average (2.0) at the mid-point of any given degree or certificate will no longer be eligible for financial aid. All credits attempted including summer session are evaluated against the maximum time frame. Double majors are not recognized. Pre-majors have the same time frame as students who have been accepted into a program.

The following grades will be considered as credits enrolled but not successfully completed: “I,” “N,” “NC,” “NCE,” and “F.” An “I” is considered as completed when the alternative letter grade is posted to the student’s records. Audit “L” grades are not allowed. “W” grades will not be held against a student’s maximum time frame if financial aid was not received.

Students may receive assistance for repeating courses in which a grade of “D” or lower was received. For courses in which a grade of “C” or higher was earned, financial assistance will be granted only upon instructor’s written recommendation to repeat.

FOR ADDITIONAL INFORMATION ON APPLICATIONS, ELIGIBILITY REQUIREMENTS, OTHER SCHOLARSHIPS, AND OTHER FINANCIAL AID PROGRAMS CONTACT THE FINANCIAL AID OFFICE AT 245-8256.

Scholarship Programs

CHARLES R. HEMENWAY SCHOLARSHIP: This is an institutional scholarship program to assist financially needy residents attending at least half time.

PACIFIC ASIAN SCHOLARSHIP: Institutional scholarship to assist students from the Pacific, East Asian or Southeast Asian region to pursue a course of study important to that region. Students must have a 3.5 cumulative GPA and attend full time. Students with F1 Visa’s are eligible to apply.

RUTH E. BLACK SCHOLARSHIP: Institutional scholarship program established to financially assist sons or daughters of contractors, engineers, and construction workers. To qualify, students must be a resident of Hawai‘i, have a minimum 2.5 GPA, and be enrolled at least half time. First priority is given to sons or daughters; second, to students pursuing a construction related field of study and third to other well qualified students.

HI VETERAN MEMORIAL SCHOLARSHIP: This is an institutional scholarship program developed to assist financially needy students with a cumulative grade point average of 2.5, attending full-time. A letter of recommendation is required.
ANTONE K. AND EDENE N. VIDINHA SCHOLARSHIP: This is an institutional scholarship program for Kaua‘i residents attending KCC at least half time. Categories of eligibility include: high school (Kaua‘i schools only) and KCC scholastic achievement, financial need (must complete federal application form), adults in transition, college/work performance, and transferring KCC student (must have earned 12 credits at KCC). Transferring scholarships are limited only to University of Hawai‘i campuses and to programs not offered at KCC.

More college scholarships are located at our website: kauai.hawaii.edu. The deadline to apply for campus scholarships is March 31 for the upcoming school year.

Senior Citizen

If you are a senior citizen who (1) is 60 years or older during the week immediately following the late registration period; (2) is a bona fine resident of the State of Hawai‘i as described by University of Hawai‘i’s definition; and (3) meet course prerequisites, if any, you may attend classes as a “Visitor” without having to pay tuition and fees. If you are a new or returning visitor, you will need to complete an application to determine residency. Grades or credits will not be recorded and your name will not appear on the instructor’s official class roster. Acceptance into classes is after the late registration period.

Special Education

Disabilities

Information for students with disabilities may be obtained from the Hawai‘i Division of Vocational Rehabilitation. Contact the Special Needs Coordinator at 245-8314. TDD - 245-8314.

Veterans’ Benefits

For information on the G.I. Bill or other veterans’ benefits, contact the Veterans’ Regional Administration Office or the clerk at the Admissions & Records Office.

Student Employment

FEDERAL WORK STUDY PROGRAM (FWSP) funds part-time employment on campus. Students are limited to a maximum of 20 hours per week during the academic terms. An individual student’s award is based upon his or her individual need and the availability of funds. To work on-campus you must be a classified student enrolled in at least six or more credits. Visit the Student Employment website at http://sece.its.hawaii.edu to complete a job application, search for jobs and to pick up job referrals.

Veterans’ Administration

Kaua‘i Community College is an approved educational institution for education and training under the Veteran’s Educational Assistance Act (GI Bill) and the Dependents’ Act. Information regarding eligibility, entitlement, and types of training authorized may be obtained from the Veterans’ Administration Regional Office.
Campus Resources and Services
CAMPUS RESOURCES AND SERVICES

Check this alphabetically-arranged section to find the service you need.

Admissions and Records

The Admissions & Records Office keeps your academic records from the time you are admitted until you graduate. Go there for admission applications, special admission procedures, the Schedule of Classes, registration information, VA certification, transcript evaluation, transcripts, some distance education information, grades, residency information, schedules, and applications.

Admissions & Records
245-8225
245-8224

Alumni Association

Kaua’i Community College Alumni may join the University of Hawai’i Alumni Association. It cultures a close, supportive relationship between graduates and the UH system.

Alumni Association
808-956-ALUM

Apprenticeship Training Program

The Apprenticeship Training Program at Kaua’i Community College offers quality education through training. The Program currently assists 8 building industry trades: air conditioning, carpentry, electrical, masonry, painting, plumbing, roofing, and sheet metal. The apprentices are provided with on-the-job training and attend related training courses at the College.

Apprenticeship Training Program
245-8382

Bookstore

The Bookstore is the place to shop for almost everything you need for school. Items you’ll find in stock include new and used textbooks, calculators, computer diskettes, art supplies, school supplies, backpacks, greeting cards, dictionaries, Kaua’i Community College and University of Hawai’i clothing. Logo souvenir items such as decals are available as well as computer software, soft drinks, casual clothing, snacks and candies, and special order items.

Gift certificates are available for purchase in any denomination up to $100. These certificates are redeemable at any of the bookstores in the UH System.

Bookstore
245-8273

Campus Safety

Kaua’i Community College is concerned about the safety and welfare of all campus members and guests.

Campus Safety
245-8230

Campus Wellness

The Campus Wellness Center is a nurse-managed, academic health center with the goals of: providing high quality wellness care to students, faculty, and staff, offering a clinical practice site for health careers' students and faculty, and serving as a site for investigation of wellness-related topics.

Campus Wellness
245-8307

Catalogs for all the other institutions in the UH System can be purchased at the Bookstore.

Full book refund is given if made within the first (3) three weeks of the semester. Only a 75% refund is given if a book is not in saleable condition (new books that are returned marked/soiled). A register receipt is required for all refunds! After the first three weeks, refunds are made only if requested within (7) seven calendar days from the date of purchase.

During the final exam week that occurs twice a year in May and December, you can sell your books back to the Bookstore. Signs are posted around campus at least a month prior to the buy-back the announcing days and times. For more information, see the Bookstore Manager.

Services are provided by faculty who are Advanced Practice Registered Nurses in various specialities and include general health screening, family planning services, HIV and sexually transmitted disease screening, care of common illnesses, immunizations, TB testing, stress reduction, emotional care, CPR training, and health education activities.
Career Planning
245-8212
Career planning information and testing services, including occupational interest inventories, personality inventories, and a library of occupational information, are available at the Student Services Office. Career Kokua and Discover, along with other computer occupational information and guidance systems, are also available.

Kauai Community College
Career Kokua and Discover, along with other computer occupational information and guidance systems, are also available.

Computer Labs
Computer labs are available for class sessions, completing assignments, and e-mail and Internet access. Ask your instructors or see staff in The Learning Center. Check posted schedules for The Learning Center and the Computer Resource Center.

Cooperative Education
Cooperative Education is a program that integrates classroom studies with work experience directly related to a students’ academic field of study. Field experiences may be on- or off-campus, paid or volunteer, part- or full-time. Students earn one to three college credits in this formal program. (1 credit = 75 hours, 2 credits = 150 hours, 3 credits = 225 hours). A student’s current employment may qualify as a students’ co-op site if it directly relates to that students field of study.

If a student does not work in a position that qualifies as a co-op site, the Co-op Coordinator will locate a volunteer site from a group of participating agencies in business, industry, and government. If students need a paid co-op experience, they are expected to find their own paying co-op sites.

Co-op field experiences are a graduation requirement for Hotel Operations and Office Administration and Technology programs. These degree programs view Cooperative Education as a capstone or exit experience within their program curriculum.

Co-op is also available in the Auto Body Repair and Painting, Automotive Mechanics Technology, Electronics and Food Service programs.

The Co-op Office also provides students with internship opportunities. Internships are defined as short-term work experiences that offer students an opportunity to learn about a career area. Internships, unlike cooperative education placements, do not have to be directly related to the student’s field of study.

Counseling and Guidance
Counseling and guidance at Kaua’i Community College add a personal quality to students’ efforts to obtain a formal education. Take advantage of admissions counseling; new student orientation before each new semester; individual, personal and vocational counseling; and appointments to use Career Kokua and Discover.

Counseling is based on your individual interests, abilities, aptitudes, and needs. Advising is available year-round to assist you in defining your academic and occupational goals. You are encouraged to see a counselor to resolve personal problems that may interfere with your studies.

Distance Learning
Distance learning courses can increase student flexibility regarding the time, place, and pace of study. Cable TV courses provide instruction to students via commercial and public access television. Students receive their course content through television and interact with faculty through phone and e-mail. Online courses are delivered to students via the World Wide Web (WWW). These courses generally provide the most flexibility for students in terms of time and place of study. Interactive television (ITV) classes provide for two-way video and audio instruction between students and faculty at various sites around the State. Students need to go to the ITV site on campus. On-site outreach courses involve instructors hired by another UH campus to teach classes on Kaua’i. Associate, Bachelor’s, and graduate courses and programs are available through distance-delivered technologies. Check <http://www.hawaii.edu/uhcc.e-learn> and <http://www.hawaii.edu/dl>.

E-mail Access
As part of its effort to help students gain skills in current technology and to support instructors using e-mail as a teaching and communicating mechanism, the College provides e-mail accounts for students. Because it is an educational institution, the College emphasizes the educational use of e-mail.
English Language and Culture
245-8278

Special courses are offered for students who speak English as a second language. See ELI 1, ELI 2, ELI 3, and ELI 4 in the Course Description section of this catalog.

Facilities Use
245-8333

The College facilities may be used by University of Hawai‘i affiliates, State of Hawai‘i agencies, and other organizations on a space-available basis. All non-state organizations must obtain, and maintain throughout the period of use, liability insurance of at least one million dollars for bodily injury liability arising out of each occurrence and of at least one million dollars for property damage liability arising out of each occurrence. The University of Hawai‘i and the State of Hawai‘i, and their officers, employees, and agents shall be listed as insured under the policy. Prior to the date of use, the user must provide to the University a certificate of insurance verifying the existence of the necessary liability coverage, including the coverage of the University of Hawai‘i and the State of Hawai‘i, and their officers, employees, and agents.

Non-institutional users of University facilities must clearly indicate in all promotional material that the program or activity is neither sponsored nor endorsed by the University of Hawai‘i.

Financial Aid
245-8256

The Financial Aid Program at Kaua‘i Community College provides financial assistance to students who would not be able to attend college without such assistance. This assistance helps to supplement the expected contribution of a family or individual in meeting the cost of education. All funds are distributed in accordance with federal, state and institutional policies. To insure consistency and equity in the awarding of aid to students, we encourage completion of the Free Application for Federal Student Assistance (FAFSA) by the priority deadline of March 1. All financial aid programs are subject to change due to legislative action.

Food Services
245-8243
(Cafeteria)
245-8365
(Dining Room Reservations)

The KCC Cafeteria serves as an instructional facility for students in the Culinary Arts program. During the course of training, students produce a wide variety of lunch and snack items. Facilities are open to the public. The Cafeteria is open in both the fall and spring semesters. Our Dining Room is open for three segments of six weeks each throughout the year. Call 245-8365 for information and reservations.

Handicapped Parking
245-8212

There are several handicapped stalls located in front of all KCC parking areas in the parking lots outside the main campus. Any student with a State of Hawai‘i, Department of Transportation Disabled Person’s Parking Placard may park in these reserved spaces.

Health Care
245-8212

See Campus Wellness section, page 33.

The College does not maintain a student health office. A hospital is located in Lihu‘e. Low-cost health insurance is available to students. Those not covered by any form of medical insurance are encouraged to purchase a health care plan such as the Associated Students of the University of Hawai‘i (ASUH) medical insurance. Brochures and applications for the student health plans are available at the Student Services Office.

All F-1 and M-1 visa foreign students must have some form of medical insurance before registration will be permitted.

Referral for those in need of vocational rehabilitation assistance or psychiatric attention is also available.

Interlibrary Loans
245-8358
245-8253

Through Interlibrary Loan, KCC students have access to materials in all of the UH System libraries. Materials can be ordered and received from any remote UH campus.

International Education

International study opportunities may be available. For information, ask your instructor or counselor.

Internet Access

KCC students can apply each semester for a computer account which enables access to the Internet. Because the College is an educational institution, it emphasizes the academic use of the Internet.

Job Placement
245-8328

Learning Assistance
245-8346
The Learning Center (TLC) offers academic assistance and support to all students. Students are assisted in gaining and strengthening necessary skills to improve their class performance and succeed in achieving educational and personal goals. Assistance provided includes assessment of learning needs and practices, tutorial assistance in math, writing, and in different content and language courses, collaborative learning, small group workshops or individual instruction in learning skills, word processing, electronic mail, Internet use, Excel, and self-management skills.

Learning Resource Center
The Samuel W. Wilcox II Learning Resource Center provides a variety of learning and teaching resources. (See Computer Labs, Library, Media Services, and The Learning Center for specific information.)

Library
245-8233
The Library provides a diverse collection of materials in support of the College curriculum. Reference services include library instruction and research assistance (traditional and electronic). A computer lab provides access to the University of Hawai‘i Libraries’ electronic catalog (Voyager), online databases, the Internet, and other programs such as Word.

Library hours will vary depending on whether the semester is in session. Please call the Library for current hours.

Lost and Found
245-8231
Information for lost and found articles may be obtained at the Business Office, the Library Circulation Desk, or Student Services.

Media Services
245-8238
Media Services’ assists the faculty and students in preparing instructional materials. The telecommunications involved with the delivery of distance education via HITS and cable is also a primary responsibility.

Non-Credit Classes
245-8318
Non-credit classes are offered by Kaua‘i Community College Training (Office of Continuing Education and Training). Instructional courses focus on training programs in the business and visitor industries, vocational upgrading, and personal enhancement and development. Special programs include re-training for dislocated workers, international study tours, and customized classes. Fall and spring schedules of non-credit courses are available at the KCC Training Office.

Orientation for New Students
245-8212
Orientation sessions for new students are available during the week prior to the start of the fall and spring semester. Students and families interested in receiving information on our College and its programs may also contact our Admissions & Records Office or Student Services Office. A counselor is available year-round to answer your questions. Small group tours can be arranged.

Parking
245-8230
Parking on campus is governed by the College’s Rules and Regulations Governing Parking and the Operation of Motor Vehicles on the Kaua‘i Community College Campus. Copies are available at the Student Services Office.

Performing Arts Center (PAC)
245-8270
The Performing Arts Center is the venue for outstanding international, national, and local cultural performances. It has hosted several sell-out productions since its grand-opening in fall 1995. The Center seats 560, with 12 additional spaces for wheelchair patrons. The resilient performing stage and backstage rehearsal room were especially designed for dance group productions. A 9-foot Steinway concert piano is housed in the Center. A costume room, scene construction shop, and dressing rooms are included in the facility. Projected for future construction are an art exhibit area in the lobby and an outdoor performing stage. (See the Facilities Use entry in this section of the catalog for details.)

Preschool
245-8356
The primary mission of Na Kama Pono (the Early Childhood Development Center) is to provide a lab site for Early Childhood Education students. It also provides a quality pre-school for 3 and 4-year olds.

Na Kama Pono is accredited by the National Association for the Education of Young Children. It offers a child-centered program that implements and models the most current and appropriate early childhood practices.
Preschool (continued)  
Tuition for the 2005-2006 school year is $1900 a semester ($475.00 a month for four months, which can be payable in four installments) that includes breakfast, lunch and an afternoon snack. Summer tuition is $1425 ($475 a month for three months). Tuition assistance is available to eligible parents.

Na Kama Pono’s hours are from 7:30 a.m. - 4:30 p.m. It follows the College’s fall and spring schedule. Summer session runs from a week after the spring semester to a week before the beginning of the fall term. A waiting list is maintained and inquiries are welcomed. Priority is given to the children of KCC students, faculty and staff.

Recreational Facilities  
245-8339

The College’s recreational facilities include an outdoor basketball court, 4 tennis courts, a weight training center, and a student lounge with a pool table, ping-pong table, and foosball. A large grassy field is available for walking or jogging.

Services to Hawaiian and Part-Hawaiian Students  
245-8260  
245-8206  
245-8212

Services are provided to assist in the recruitment and retention of Hawaiian/part-Hawaiian students. Services include academic planning and advising; assistance in college success; career guidance and self-development. Additionally, the Native Hawaiian Vocational Education Program provides unique opportunities and internships, work experience, and study abroad experiences for Native Hawaiian vocational education majors.

Services to Single Parents and Displaced Homemakers  
245-8245  
245-8212

The Single Parent and Displaced Homemaker Program (SP/DH) provides supportive services to single parents and displaced homemakers who are pursuing a vocational education degree. Services include orientation and information about college programs, pre-vocational services, academic advising, financial aid information and self-development workshops.

The SP/DH Program also supports Bridge to Hope (BTH). An employment support program for First to Work (FTW) participants enrolled at a University of Hawai‘i campus. BTH assists with on-campus student employment and other services to help welfare (TANF) recipient students succeed in their educational goals.

Services to Students with Disabilities  
245-8212  
TTY: 245-8314

Students in need of disability-related accommodations are advised to contact Student Services as early as possible so that services may be arranged on a timely basis. For further information, contact the Disability Services Counselor, Campus Center, Room 206, 245-8314.

In accordance with Section 84.4 of the Federal rules and regulations governing Section 504 of the Rehabilitation Act of 1973, no qualified individual with a disability shall, on the basis of his or her disability, be excluded from participation in, be denied benefits of, or otherwise be subjected to discrimination under any program or activity which receives or benefits from Federal financial assistance.

Students with documented disabilities, either permanent or temporary, are encouraged to use the following services:

- personal, academic, and career counseling
- admissions and financial aid application assistance
- campus orientation
- registration assistance
- tutorial, reader, notetaker, interpreter, and/or other academic support services
- campus accessibility map
- specifically designed auxiliary equipment to meet the needs of the disabled student

Providing equal access and/or accommodation to KCC classes and programs is a primary function of this office. Students requesting accommodations need to self-identify themselves to the Services to Students with Disabilities Office. Verification of disability is required to determine and provide appropriate services. Supportive help may include, but is not limited to, the following: Application and registration assistance; financial aid information; individual orientations (e.g. mobility); career, personal, and academic counseling; handicapped parking; and tutors, note takers, and sign-language interpreters.

Deaf and hard-of-hearing individuals desiring information may contact the Disability Services Counselor by calling the TTY number at the College, (808) 245-8314, between 7:45 a.m. - 4:30 p.m. A TDD pay phone is located in front of the Library. Outgoing access is free of charge. Text telephone relay service is available by calling (808) 643-8833.
Services to Students with Disabilities (continued)

For more information about the programs, services, activities, and facilities which are available to persons with disabilities can be obtained by contacting the Disability Services Counselor, Campus Center, Room 206, 245-8314.

Sports

Kaua’i Community College has an intramural sports program. Faculty, staff, and students, as well as various community organizations, compete in golf, basketball, and tennis. In addition, we also offer full semester courses in weight training/physical fitness, basketball, and three different levels of tennis.

Student Activities

Various student activities are sponsored throughout the year by campus clubs, classes, faculty, and the ASKCC. Activities must be sponsored by one of these groups. Details concerning student activities may be obtained through the Student Services Office.

Student Clubs

Student clubs and organizations play an integral part of student activities at Kaua’i Community College. Student organizations build “community” within the campus and have a positive influence on the academic success and total college experience for all students. Get involved today and make a difference!

ASSOCIATED STUDENTS OF KCC - Student Government

The Associated Students of Kaua’i Community College Senate is the student government of Kaua’i Community College. ASKCC is chartered by the University of Hawai‘i Board of Regents and is sanctioned to allocate Student Activity Fee monies collected each semester. The ASKCC Senate provides student representation on various campus committees, and is the recognized vehicle for students to voice their wishes. ASKCC also provides and supports student activity programs for KCC students.

‘AUPAKA CLUB - Academic

Founded in fall 2001, the ‘Aupaka Club is committed to enriching the lives of single parents, displaced homemakers and any interested students who strive for higher education. The club’s vision is to be a resource for KCC students to access, and help them successfully complete their educational goals. One of the goals of the ‘Aupaka Club is to invite “guest speakers” who can address the needs and concerns unique to this population.

BAHA’I CLUB – Religious

Dedicated to public service and the promotion of the oneness of mankind and world peace is the Baha’i Clubs mission. This club sponsors service projects and activities such as public meetings that promote the basic tenets of the Baha’i faith, which includes recognition of the need for: the unity of all religions, the equality of men and women, the elimination of all forms of prejudice, and the establishment of an auxiliary world language. The Baha’i Club also has variety of literature addressing these concepts. They also support other organizations working towards these same goals.

KCC CHORAL MUSIC CLUB - Recreational

The purpose of the Kaua’i Community College Music Club is to provide students with an opportunity to meet and sing choral music, either with the KCC Garden Island Singers or more informally.

CHRISTIAN FAITH CLUB – Religious

The purpose of the Christian Faith Club is to 1) Build new relationships and friendships with KCC students. 2) Introduce students to the tenets of the Christian faith. 3) Encourage Christians in their spiritual walk.

CLUB GILGAMESH – Cultural

This newly formed club’s primary focus is to read and discuss the myths and stories of the older civilizations. Current related topics and events that tie in with old civilizations are also areas of interest.

COMPUTER & INTERNET CLUB – Educational

The purpose of the Computer & Internet Club is to promote the sharing of computer skills and knowledge among students, staff, and faculty and to positively contribute to the individual, college and community at-large.

DANCE SPORT CLUB - Recreational

The purpose of the Kaua’i Community College Dance Sport Club is to provide students with instruction in ballroom dance and to encourage fellowship through dance classes and club activities.

ENVIRONMENTAL CLUB - Service

The Environmental Club strives to educate KCC students, faculty and staff members the importance of being environmentally aware of our surroundings. The club also strives to play an integral part within the community by participating in service activities that focus on environmental awareness, beautification and maintenance.
FILM CLUB - Educational
The purpose of the KCC Film Club is to involve students in the education, stimulation, exposition, participation, exploration, creation, and collaboration in the process of all film entities.

FOOD SERVICE CLUB - Academic
The Food Service Club provides activities and programs to prepare its members for employment in culinary arts and hospitality services. The club also strives to increase knowledge of current practices, and to enable members to attend food fairs, and provide opportunities for other excursions and field trips.

FUTURE EDUCATORS OF YOUNG CHILDREN–Academic
This club provides support and information to Early Childhood and Pre-Elementary Education students, which facilitates their professional growth. FEYC also develops links with HAEYC (Hawai`i Association for Educators of Young Children) by participating in their professional development activities and by supporting their efforts to enhance campus and community awareness of the needs of children. In addition, FEYC supports or initiates activities, which provide direct services to the children of campus families and the general community.

GARDENING CLUB - Recreational
The Gardening Club was organized in fall 2000 and its primary objective is to encourage KCC students to participate in gardening projects at the KCC Farm.

HAWAIIAN PERFORMING ARTS CLUB - Culture
HPAC stimulates and promotes cultural awareness and enrichment by allowing students to exercise and engage in traditional as well as contemporary Hawaiian cultural art forms.

HOPER CLUB - Academic
The objective of the Hotel Operations Club is to advance the quality of hospitality as inspired by the Aloha Spirit and island pride, to build closer student-industry ties, to enhance traditional classroom learning, to build HOPER program-alumni relations, and to foster camaraderie among HOPER students.

INTERNATIONAL STUDENTS CLUB - Culture
The mission of the International Students Club strives to bring together students from abroad, students with foreign backgrounds, and local students who are interested in intercultural exchange and understanding.

JEHOVAH’S WITNESSES IN LIHUE AT KCC - Religious
To introduce and promote help and guidance for students and others to improve their quality of life through participating in scheduled meetings and other various activities.

KA LEO O KCC ONLINE NEWSPAPER -Educational
The purpose of the Ka Leo O KCC Online Newspaper is to provide a hands-on opportunity in the discipline of Journalism.

LEADERSHIP CLUB - Student Government
The Leadership Club at KCC primarily supports student leaders elected to serve on the Associated Students of Kaua`i Community College (ASKCC) student government. Activities focus on student leadership development and fundraising.

NIHONGO KURABU - Culture
The purpose of the Japanese Club is to provide an understanding of Japan and Japanese culture.

NURSING CLUB - Academic
The purpose of the Kaua`i Community College (KCC) Nursing Club is to provide a vehicle for nursing students to be actively involved in community events such as; Health fairs, blood pressure monitoring, health education, other health related events, and community fundraising to support nursing club activities throughout the school year.

PHI THETA KAPPA – Honor Society
This organization was established to recognize and encourage scholarship among 2-year college students. Students with a cumulative GPA of 3.5 based on 12 credits of degree required courses receive an invitation to join the Alpha Pi Xi Chapter of Phi Theta Kappa, an international honor society for the two-year college student.
PAMANTASAN CLUB - Culture
The Pamantasan Club is a hub for all students interested in Filipino culture. The club performs community services and KCC services, and organizes activities in fundraising for educational scholarships.

SPEECH, COMMUNICATION & THEATER CLUB - Academic
This new organization was formed in fall 2004 for students interested in speech, communication, theater and debate. The club also advocates for KCC speech and communication courses.

Student Employment
Off-campus employment opportunities are provided to students seeking employment during the academic year. Part- and full time students of the University of Hawaii System may access these services. Part-time employment opportunities are listed on the college’s website (https://sece.its.hawaii.edu:9443/login.do).

Full-time positions can be viewed at the Cooperative Education office located in the Faculty Building2, Room 105.

The Co-op office provides job search resources, interviewing tips, as well as cover letter and resume assistance.

For more information please call 245-8328.

Student Employment on-campus:
Priority for on-campus positions is given to students who have demonstrated financial need through the federal financial aid application. Interested students may visit the following website: http://sece.its.hawaii.edu:9442 to search for jobs and print referrals.

See Federal Aid Programs, page 29.

Student Government
The Associated Students of Kaua‘i Community College (ASKCC), the official student organization, has representation from each academic division in the ASKCC Senate. There are 2 primary functions for the organization. (1) The governance function allows the Senate to represent the needs of the student body and to serve as a voice for the student body on various campus committees and forums. ASKCC Senate representatives also represent the student body on system-wide groups such as the Association of College Union-International (ACU-I) Hawai‘i Sub-Regional Board and the University of Hawai‘i Student Caucus. (2) ASKCC provides campus programs for the student body. It allocates monies collected through Student Activity Fees. KCC’s registered clubs may apply for funding. ASKCC also provides activity programming for the entire student body. Elections by the student body are held in the spring of each year.

Student Housing
The College does not maintain dormitories or other student housing facilities. Students must arrange for their own housing. A housing link is located under the college's financial aid office site.

Student Life Office
Besides assisting student government and student clubs and organizations, this office maintains the popular Student Lounge located on the second floor of the Campus Center building. The recently renovated lounge houses two tournament size pool tables, ping pong table, foosball table, air hockey, dart boards, and game boards. Comfortable lounge furniture provides an ideal environment for students to study, hold an informal club meeting or watch a favorite show on the large screen television. This office also provides free student picture identification cards to all current KCC students. Room reservations are also available to clubs and organizations on weekends and evenings.

Student Loans
The College offers students both short-term and long-term student loans. For information on these loan programs, please contact the Financial Aid Office, kauccfao@hawaii.edu.

Student Newspaper
Ka Leo O KCC, the student newspaper, is published on the KCC website.

Student Services
Student Services supports the College's mission by providing students of Kaua‘i Community College a comprehensive experience which nurtures student success. Utilizing a systematic developmental process and a full range of institutional and community resources, the College supports students in their quest for an enriched quality of life, acquiring skills and attitudes that promote intellectual and personal growth.

Transportation
The Kaua‘i Bus may help students meet their transportation needs. Otherwise, students must arrange for their own transportation to and from campus.
**Tutoring**

245-8346

Qualified peer tutors and faculty volunteer tutors are available in The Learning Center to assist students in English, math, language and in other content courses. Group tutoring and test review sessions are also available.

**University Center**

245-8330

The College serves as a University Center for the University of Hawai‘i System, providing support services for outreach programs from other institutions in the UH System. Such programs make it possible for students to earn part or all of the credits needed for four-year or graduate programs, degrees, or certificates while remaining on Kaua‘i. Programs of study are available from UH Mānoa, UH Hilo, and UH West O‘ahu. Call to find out about current and future program availability.

**Veteran's Training**

245-8224

The College is an approved educational institution for education and training under the Veterans' Educational Assistance Act (G.I. Bill), the Veterans' Readjustment Act, and the Dependents' Act. Information regarding eligibility, entitlement, and types of training authorized may be obtained at the Admissions & Records Office or the Veterans' Administration Regional Office.
Campus Policies and Procedures
COLLEGE POLICIES AND PROCEDURES

Information in this section is organized alphabetically.

Academic Dishonesty
See Student Conduct Code, page 53.

Academic Probation and Suspension Policy
The Academic Probation and Suspension Policy establishes that any student who earns less than a 2.0 cumulative or current grade point average and/or fails to complete at least one-half of total credits attempted in a semester, excluding withdrawals and incompletes, shall be placed on academic probation. Grades of “A” through “F” and “N” are computed. Academic probation statuses are noted in the student’s transcript record.

A student on academic probation who subsequently fails to achieve a 2.0 grade point average for courses undertaken during the probationary semester and whose cumulative grade point average is below 2.0 shall be placed on academic suspension for one semester.

A student returning to the College following a semester of academic suspension shall be placed on academic probation and is subject to all conditions set forth for probationary students.

A student on academic probation who completes all credits attempted, excluding withdrawals, and achieves both a current and cumulative grade point average of at least 2.0, shall be removed from academic probation and reinstated to satisfactory academic standing.

Adding/Dropping Classes
You may add or drop courses by completing a Change of Registration Form (available at the Student Services Office) or through MyUH on the Internet. When you drop a class, you will receive a “W” grade. A “W” grade means that you have officially dropped a course. If you intend to withdraw but do not officially do so, you are considered enrolled and expected to complete assignments; the instructor will give you a grade based on your work in the class.

Erase Period - Courses dropped during the first 3 weeks of the semester will not be recorded on the student’s record and a “W” grade will not be assigned.

Deadlines - Check the College Calendar for both add and drop deadlines. You need to take care of your responsibilities in dropping a course because your GPA could be affected.

Semester Courses - You may drop (withdraw from) semester-length courses any time up to the stated deadline.

Non-Semester Length Courses - The last day to withdraw from modular and non-modular courses that are completed in less than a semester is the instructional day prior to 60% completion of the course.

Complete Withdrawal - To withdraw completely from the College, you must complete a Change of Registration Form (available at the Student Services Office). Official withdrawal is not complete until all required forms have been filed and all financial obligations have been cleared. No fee is charged for a complete withdrawal.

Attendance
You are expected to attend the classes in which you’re enrolled, and you are responsible for all class work assigned. A student whose cumulative absences in SEMESTER LENGTH COURSES exceed in number the weekly meetings of the class may be dropped upon recommendation of the instructor. A student whose cumulative absences in a SHORT-TERM COURSE exceed ten percent (10%) of the total number of class sessions may be dropped from the course upon recommendation of the instructor. Recommendations are to be made to the Dean of Student Services.

For anticipated or unavoidable absences, you are expected to inform your instructor(s) and to make up class work. If you expect an extended period of absence, you need to discuss it with your instructor(s). The instructor(s) determine if it is possible for you to make up course requirements.
Campus Parking and Operation of Motor Vehicles

The purpose of these rules is to increase pedestrian safety, reduce traffic congestion, and provide for safe and orderly parking on the campus. Any motor vehicle may be removed from the campus at the expense of the owner/driver of the vehicle if it is in violation of these rules.

Violations include: a) parking in prohibited areas such as, but not limited to, the following: on grassed areas, medial strips, sidewalks, in reserved or loading stalls, in “No Parking” areas, or along areas painted YELLOW (e.g., too close to intersection, in loading zones and driveway areas); b) driving on areas other than streets, roads or parking areas; c) speeding over 15 miles per hour or other posted limits; d) reckless driving; e) failure to heed directions of a duly authorized officer; and f) failure to heed directions given on an official sign (e.g., failure to stop at stop sign).

All owners and operators of motor vehicles parked or operated on campus shall assume the risk of, and the College and University shall not be responsible or liable for, any loss or damage occasioned by fire, theft, or other casualty to motor vehicles or any contents therein. Each such owner and operator of a motor vehicle parked or operated on campus shall indemnify and save harmless the College and University from and against all claims, demands, costs, and expenses whatsoever arising out of or in connection with parking or operation of such motor vehicle on campus.

Campus Safety

Kaua‘i Community College is concerned about the safety and welfare of all campus members and guests, and is committed to providing a safe and secure environment. Because no campus is isolated from crime, the College has developed a series of Policies and Procedures that are designed to ensure that every possible precautionary measure is taken to protect persons on the campus.

In an emergency call the Kaua‘i Police Department at 911 (or 9-911 on campus). For information, contact the Director of Administrative Services at 245-8230 or the Dean of Students at 245-8274.

In classrooms, labs and shops, and on field trips, the personal safety of students and instructors is extremely important. Safety lectures, demonstrations, quizzes, and other safety activities are a regular part of the Kaua‘i Community College instructional program.

Certain types of protective equipment are required for participation in many activities taking place in classrooms, labs, and shops. Students are required to participate fully in safety-related instruction, furnish their own personal protective equipment, supplies, and uniforms when required, and utilize College protective equipment when provided. Failure to act in a safe, responsible manner may result in immediate removal from class.

This Official Notice, by the University of Hawai‘i Office of the President, is issued pursuant to the requirements of the federal Drug-Free Schools and Communities Act of 1989 and the Drug-Free Workplace Act of 1988.

Illicit Drugs and Alcohol - In conformance with the existing law, University faculty, staff and students are not permitted to manufacture, distribute, possess, use, dispense or be under the influence of illegal drugs and/or alcohol as prohibited by State and Federal law, at University-sponsored or approved events or on University property or in buildings used by the University for education, research or recreational programs. Consistent with its mission, the University will cooperate with law enforcement agencies responsible for enforcing laws related to the use of illegal drugs and alcohol. Students found in violation of this part shall be subject to the provisions of the Student Conduct Code. Faculty and staff found in violation of this part are subject to disciplinary action as provided in collective bargaining agreements, University policy, and other applicable State laws and rules.

The University recognizes that substance abuse is a complex problem that is not easily resolved solely by personal effort and may require professional assistance and/or treatment. Students, faculty and staff members with substance abuse problems are encouraged to take advantage of available diagnostic, referral, counseling and prevention services. The University will not excuse misconduct by employees and students whose judgment is impaired due to substance abuse.

The purchase, possession or consumption of alcoholic beverages is regulated by state law. Students are expected to know and abide by State law and by University rules and regulations governing the use and consumption of alcoholic beverages on campus. Students are referred to Board of Regents policy, executive policies and campus guidelines regulating the use and consumption of alcoholic beverages on campus.

Students are not permitted to be under the influence of, possess, manufacture, distribute, or sell illicit drugs, as prohibited by State law, at University-sponsored or approved events, on University property or in buildings used by the University for its educational or recreational programs. Reasonable suspicion of possession or use of illegal drugs and substances on campus may subject the students involved to investigation.
Sanctions which may be imposed on violators of the alcohol and drug related sections of the Student Conduct Code include disciplinary warning, probation, suspension, expulsion or rescission of grades or degree. Copies of the full text of the Code are available at the Office of the Dean of Student Services.

Campus-sponsored activities on campus that involve either the serving or selling of alcoholic beverages must be in compliance with applicable College/University policies and State law.

Copies of policies governing the possession, consumption, serving, and sale of alcoholic beverages on the University of Hawai‘i Community College campus are available at the Office of Student Services.

**Lethal Weapons** - Firearms, spear guns, and bows and arrows are prohibited on campus except with specific prior permission of the Chancellor.

**Sexual Assault** - See Sexual Assault Policy, page 52.

**Sex Offenses** - As with any criminal offense that occurs on campus, students should report any incidents of sexual harassment, rape, attempted rape or sexual assault to the Director of Administrative Services (245-8230) and the Kaua‘i Police Department (911). They may request that the Director assist by making these calls.

Assistance is available at the Student Services Office for students who would like to change their academic and/or living situations following an alleged sexual assault incident as well as for those who need counseling. Information on how to best minimize becoming a victim of sexual assault is provided in a brochure entitled “Sexual Assault, Reducing the Risk and Coping with an Attack.” Complimentary copies are available at the Student Services Office.

**Smoking** - In accordance with the State’s No Smoking Act, Act 108, SLH 1976 and Act 245, SLH 1987, and University policy, smoking is prohibited in any of the classrooms, laboratories, and conference rooms, and other covered structures of the College.

The catalog that is current when the student enrolls in Kaua‘i Community College is the catalog of record. A student who is in continuous attendance (except summer session) may graduate under the provisions of the catalog of record or a subsequent issue. A student who is not in continuous attendance must graduate under the provisions of the catalog in effect on the last re-entry date or a subsequent issue. A student who changes a program of study will come under the provisions of the catalog in effect at the time of the change.

**Classification of Students**

Students are classified as follows:

**By program enrollment:**
- **Classified:** Students who follow a prescribed program of studies leading to a degree or certificate.
- **Unclassified:** Students who are not enrolled in an organized program or curriculum and are not working toward a degree or certificate.

**By number of credits enrolled:**
- **Full-time:** Students who are enrolled for 12 or more credits.
- **Part-time:** Students who are enrolled for 11 credits or less.

**By educational level:**
- **Freshman:** Students who have completed 24 credits or less.
- **Sophomore:** Students who have completed 25 or more credits.
By registration status:

First-time student: A student attending a post-secondary institution (beyond high school) for the first time.

Continuing student: A student who was registered at Kaua`i Community College during the previous semester (excluding summer session).

Returning student: A student who was last enrolled at Kaua`i Community College and is returning to the College after an absence of one or more semesters.

Transfer student: A student who was last enrolled in another academic institution of a post-secondary nature.

Continuing education student: A student at Kaua`i Community College who is taking a non-credit course through the KCC Training Office (Office of Continuing Education and Training).

Course Waivers and Substitutions

Students wishing to have a course waived or substituted in their program must consult with their counselor before requesting a course waiver or substitution. With counselor approval, a Request for Course Waiver/Substitution Form will be completed by the student and counselor and forwarded for approval or disapproval to the Program Instructor, the Division Chairperson, and the Dean of Instruction. The Dean of Instruction will route the completed form to the Admissions & Records Office. The Office will then notify the student of the approval or disapproval of the request.

Dean's List

Full-time classified students who achieve a grade point average of 3.5 or higher in any one semester will be included on the Dean’s list. For information on other scholastic honors, see the Phi Theta Kappa entry under Student Clubs in the Campus Services section.

Discrimination Complaints

Students, employees, or applicants for admission or employment who believe that they have been discriminated against on the basis of race, sex, age, religion, color, ancestry, sexual orientation, national origin, disability, marital status, veteran’s status, or arrest and court record may file a complaint with JoRae Baptiste, EEOAA Coordinator (Phone: 245-8323, Administration Building, Room 101). The EEOAA Coordinator will explain the available avenues of recourse and direct the person to the appropriate person or office. The process of addressing allegations of discrimination are described in the CCCM No. 2210 UH Community College Procedure and Guidelines, Relating to Complaints of Discrimination and in Campus Section 504/ADA Grievance Procedure.

Students may also file complaints of discrimination with the Office for Civil Rights, 915 Second Avenue, Room 3310, Seattle, WA 98174-1099. Phone: (206) 220-7920 FAX: (206) 220-7887

Educational Rights and Privacy of Students

Pursuant to Section 99.6 of the rules and regulations governing the Family Educational Rights and Privacy Act of 1974 (hereinafter the Act), students in attendance at the University of Hawaii, Kaua`i Community College are hereby notified of the following:

1. It is the policy of Kaua`i Community College to subscribe to the requirements of Section 438 of the General Education Provision Act, Title IV, of Public Law 90-247, as amended, and to the rules and regulations governing the Act, which protect the privacy rights of students.

2. The rights of students under the Act include the following, subject to conditions and limitations specified in the Act:
   a. The right to inspect and review education records.
   b. The right to request to amend education records.
   c. The right of protection from disclosure by Kaua`i Community College of personally identifiable information contained in education records without permission of the student involved.
   d. The right to file complaints concerning alleged failure by Kaua`i Community College to comply with the Act.

3. Students are advised that institutional policy and procedures required under the Act have been published as Administrative Procedure A7.022, Procedures Relating to Protection of the Educational Rights and Privacy of Students. Copies of AP A7.022 may be obtained from the Office of the Dean of Student Services, Kaua`i Community College.

4. Directory Information: Students are advised that certain personally identifiable information listed below is considered by the College to be Directory Information and, in response to public inquiry, may be disclosed in conformance with State law, at the College’s discretion, without prior consent of the student, unless the student otherwise so informs the College not to disclose such information.
   a. Name,
   b. Local address and zip code,
   c. Local telephone number,
d. Major field of study,
e. Education level, (i.e. freshman, sophomore, etc.)
f. Fact of participation in officially recognized activities and sports,
g. Weight and height of members of athletic teams,
h. Dates of attendance,
i. Most recent educational institution attended,
j. Degrees and awards received,
k. E-mail address, and
l. Enrollment status (full-time and part-time).

A student has the right to request that any or all of the above items not be designated Directory Information with respect to that student. Should a student wish to exercise this right, he or she must in person and in writing, not earlier than the first day of instruction nor later than fourteen calendar days from the first day of instruction for the academic term or semester, or the fourth day of a summer session, inform the Admissions and Records Office which of the above items are not to be disclosed without prior consent of that student.

5. A parent or spouse of a student is advised that information contained in educational records, except as may be determined to be Directory Information, will not be disclosed to him/her without prior written consent of the son, daughter, or spouse.

**Factors Which May Affect Your Credits**

**Audit** - Students may seek to audit a course because they want to review a subject or to learn without the pressure of having to fully participate in the class.

If you want to audit a class, you must first obtain written permission from the instructor using the “Permission to Audit a Class” Form. The form is available at the Student Services Office.

The extent of the classroom participation is at the option of the instructor. No credit is given for an audited course and an “L” will be posted on the grade report to indicate the audit. STUDENTS MUST COMPLETE ALL REGULAR ADMISSION AND REGISTRATION PROCEDURES IN ORDER TO AUDIT A COURSE, AND REGULAR TUITION AND FEES MUST BE PAID.

Audit carries no credit and does not contribute towards full-time student status (required for Veterans’ benefits and Financial Aid).

**Balancing Work with College Courses** - It is important for students to balance their time requirements of classes, study time, employment and other commitments. The following table is recommended as a guide to students in balancing work with school.

<table>
<thead>
<tr>
<th>Total Credit hours taken</th>
<th>Maximum number of hours per week employment</th>
</tr>
</thead>
<tbody>
<tr>
<td>3-7</td>
<td>40 hrs</td>
</tr>
<tr>
<td>6-9</td>
<td>30 hrs</td>

<tr>
<td>9-12</td>
<td>20 hrs</td>
</tr>
<tr>
<td>12-15</td>
<td>10 hrs</td>
</tr>
<tr>
<td>15-18</td>
<td>none</td>
</tr>
</tbody>
</table>

**Credit by Articulation** - Credit by articulation is a time-shortened program available at Kaua‘i Community College for high school students from Kaua‘i’s high schools to receive college credits for equivalent courses completed in high school.

To obtain credits by articulation, students must submit a Credit by Articulation Form with their System Application Form and high school transcripts to the Admissions & Records Office.

Specific information and application procedures may be obtained at the Student Services Office.

**Credit by Examination** - Credit by examination is available in a few courses at the College. The purpose of awarding credit by examination is to enable students to complete degree and certificate programs more rapidly and without repetition when they have already acquired knowledge or skills relevant to their program of study. The examination is more comprehensive than the usual “final examination” and is designed to serve as the scholastic equivalent of the course.

To be eligible to earn credit by examination, students must apply for credit by examination and be officially enrolled in the course. Credit by examination is permitted only with the consent of the instructor.

Students will not receive letter grades for credits granted through credit by examination, but will receive the grade designation of “CE,” which indicates that the equivalent of a grade of “C” or higher was achieved on the examination. The credit by examination process must be completed within the first quarter of the scheduled class meetings.
**Credit Load** - The normal credit load for a student is 15-17 credits per semester. If you wish to enroll for more than 18 credits, you need to get written approval from the Dean of Student Services before you register.

**Credit/No Credit Option** - The major purpose of the credit/no credit option is to encourage students to broaden their education by venturing into subject areas outside their fields of specialization without risking a relatively low grade.

You may, with the written consent of the instructor and counselor, choose to take one course per semester on a credit or no credit basis, provided the course is elective for your major. A clearance form must be submitted to the Admissions & Records Office by the published deadline. See the College Calendar for the deadline to declare credit/no credit grade option for semester-length courses. Details may be obtained from the counselors in the Student Services Office.

Under the option, a student will be granted a “CR” grade (credit) which indicates that a grade of “C” or higher was achieved, or an “NC” grade (no credit).

If you intend to transfer to a four-year institution, you should check that school’s catalog to find out whether it accepts “CR” grades.

**Credit/No Credit Option at the UH Mānoa Campus** - The Credit/No Credit option at the UH-Mānoa is limited to elective courses: the CR/NC option is not allowed for any course taken to fulfill a University or College core requirement nor a Department requirement, with the exception of those courses designated Credit/No Credit only. Students planning to transfer to Mānoa should follow this Mānoa policy when taking courses at KCC.

**Repeating Courses** - If you received a grade of “D” or lower, you may repeat the course and receive the higher grade and grade points. Credit is allowed only one time. You do not need instructor approval to repeat the course.

If you received a grade of “C” or higher or an audit grade of “L,” you may repeat the course only if the instructor feels you will benefit and approves your request. Credit will be allowed only once unless otherwise stated in the catalog’s course description. Permission forms are available at Student Services.

**Transfer Credits from Another Institution** - A student transferring from a regionally-accredited college or university may be allowed credit for previous academic work. It is the student’s responsibility to have official transcripts of previous work sent to the KCC Admissions & Records Office by the institutions previously attended, to apply for evaluation of transcripts for advanced standing, and to provide course description information from the catalogs of the previous colleges attended. Request forms for transcript evaluation are available at the Admissions & Records Office. Official transcripts become the property for the College and will not be forwarded to any institution outside of the University of Hawai‘i System or individual or copied for students.

**Variable Credit** - Some courses are offered with variable credit. After the title of a course in the Course Description section, there will be a credit range; (1-3) is a common listing. Credit is given for course work completed and may not exceed the credits for which you are registered.

**Final Exams**

Final examinations take place the last week of each term (see the Schedule of Classes for exact dates and times). All students must take their finals at the scheduled time; exceptions will be made only for illness or other circumstances beyond your control and must be approved by your instructor. Any student who is absent without excuse from any exam may forfeit the right to make it up.

**Grades**

Each semester you will receive a grade report on your academic progress. Letter grades are used to indicate the quality of work done. Grade reports are available to you shortly after the end of each semester or summer session via a secured Internet site (report cards are not mailed).

Kaua‘i Community College reserves the right to withhold issuance of grades, transcripts, or diplomas to students who have not met their obligations to the College.

</tbody>
</table>
I  A grade of Incomplete indicates that the quality of work is satisfactory but that an essential requirement of the course has not been completed. Incompletes are granted only for acceptable reasons and only with the instructor’s consent. An Incomplete must be made up within the first 12 weeks of the following semester or the incomplete grade will be converted to an alternate grade indicated by the instructor at the time the “I” was awarded. An alternate grade is that grade which the student has earned up to the time the incomplete is awarded. IN NO CASE WILL AN “I” GRADE REVERT TO A “W” GRADE. SEE COLLEGE CALENDAR FOR SPECIFIC DEADLINES.

To complete a course in which you’ve received an Incomplete, you must make arrangements with the instructor.

N  No grade assigned. Indicates that a student has either not completed the requirements of the course or has not reached a level of accomplishment within a specified time period which will allow for an evaluation.

W  Withdrawal from a course. Indicates formal withdrawal from a course after the first three weeks of the semester.

CR  Credit granted. Denotes work deserving of a credit at “C” level or higher for courses taken under the Credit/No Credit grading option.

CE  Credit granted. Denotes work deserving of a credit at “C” level or higher for courses taken under the Credit by Exam grading option.

NC  No credit granted. Denotes minimal passing work or lower and not deserving of credit under the Credit/No Credit grading option.

NCE  No credit granted. Denotes minimal passing work or lower and not deserving of credit under the Credit by Exam Credit grading option.

L  Indicates that a course was audited. No credit granted.

**Grade Point Average**

The grade point ratio (or grade point average) is determined by dividing the total number of grade points earned by the total number of credits attempted. Courses for which grades of “W,” “L,” “CR,” “NC,” “NCE,” or “N” were recorded are not included in computing the GPR. Grade points are assigned as follows:

- A  4 points per credit
- B  3 points per credit
- C  2 points per credit
- D  1 point per credit
- F  No grade points

**Graduation**

In order to receive either a degree or certificate from Kaua‘i Community College, a student must complete a Graduation Application. Check the Schedule of Classes for application deadlines. A $15 graduation fee is payable to the Business Office when you are notified by Admission and Records Office that you will have met all graduation requirements by the end of the semester. Students may qualify to graduate at the end of either the fall or spring semester, or at the end of summer session. However, a commencement ceremony takes place only at the end of each spring semester.

To be eligible for graduation, continuing students (with no break in enrollment) may meet the program requirements stated in the catalog for the year of their entry into a program major, or they may choose to meet the requirements of any subsequent change in the program. However, students who stop-out must meet program requirements of the catalog in effect upon their re-entry, or may choose to meet the requirements of subsequent program revisions that occurred while they were continuously enrolled.

Preparation for graduation, including meeting all the requirements, is the responsibility of the student. If you are a new or returning student, you may begin to monitor your progress toward graduation by following the program requirements in the Instructional Programs section of this catalog. If you are a continuing student with no break in enrollment, you may also follow the program requirements, provided there have been no changes in the program requirements since your initial enrollment. See a counselor at Student Services.

**Graduation Requirements**

The issuance of an A.A. (Associate in Arts), A.S. (Associate in Science), A.A.S. (Associate in Applied Science), or a C.A. (Certificate of Achievement), requires that the student must:

1. Earn a GPA of 2.0 or better for all courses applicable toward the degree or certificate.
2. Complete the final 12 credits in the major at Kaua‘i Community College. This requirement may be waived for cause at the option of the Dean of Instruction or the Chancellor. The Dean or Chancellor may also approve the use of credit by examination to meet this requirement.

The issuance of a C.C. (Certificate of Completion), A.S.C. (Academic Subject Certificate), or a C.O.C. (Certificate of Competence) requires that the student must earn a GPA of 2.0 or better for all courses required in the certificate.
Health and Accident Insurance Requirement

All non-resident international students must demonstrate proof of enrollment in a health and accident insurance program before any such student shall be permitted to enroll. The intent of this requirement is to protect international students against the high cost of unanticipated health care expenses resulting from accidents or illness.

In compliance with public health regulations, students must show evidence that they are free of active tuberculosis and measles.

Kaua’i Community College complies with all applicable requirements of other state health agencies and councils as may be required by law or by rules and regulations.

Health Requirements

Prior to enrollment, in compliance with public health regulations, all students in the UH System must show evidence that they are free of active tuberculosis. Some students must also provide documentation of measles immunization or immunity prior to enrollment. Students required to submit proof of measles clearance are those who:

1. Were born after 1956 and did not attend a Hawai’i high school.
2. Are foreign: student, immigrant, or visitor.

Kaua’i Community College complies with all applicable requirements of other state health agencies and councils as may be required by law or by rules and regulations.

International Programs and Services

The Office of International Programs and Services establishes and implements systemwide policies and procedures to ensure the effective systemwide coordination of the University’s international programs relating to immigration, study abroad, scholar services, protocol, exchanges, and cooperative agreements for systemwide implementation. The University of Hawai’i has exchanges and cooperative agreements at both the student and faculty levels with universities around the world and it has especially close ties with many universities in the Asia-Pacific region. The office, which is administratively housed under the Senior Vice President and Chancellor for Community Colleges, also administers the International Agreements Fund and serves as a clearinghouse for information on the University of Hawai’i’s international involvement.

International Students

International applicants must comply with all regulations of the Immigration and Naturalization Service as well as with applicable policy of the Board of Regents of the University of Hawai’i and the policies of Kaua’i Community College. For purposes of clarifying requirements for admission, international students who are not U.S. citizens and who have not been admitted to live in the U.S. permanently are designated as non-immigrants. Kaua’i Community College is authorized under Federal law to enroll non-immigrant alien students.

Contact the Office of the Dean of Students for rules and regulations and admission requirements.

Late Registration

Check the Schedule of Classes for late registration information. There is a late registration fee in addition to regular tuition and fees. Late registration is normally held during the first 5 days of instruction during the fall and spring semesters and during the first three days of the summer session. Registration for modular courses is open up to the beginning date of the modular class.

Safe Zone

The Task Force on Sexual Orientation has initiated a Safe Zone program aimed at keeping the University System a comfortable place for the lesbian, gay, bisexual, and transgendered population. A Safe Zone symbol identifies a person (student, teacher, staff, administrator) you can trust: someone who will be understanding, supportive, and helpful.

Non-Resident Student

Once classified as a non-resident, a student continues in this status at the College until submitting satisfactory evidence to the Admissions & Records Office that proves otherwise.

The maximum number of non-resident students that can be accepted by the College is limited by the Board of Regents policy. Students classified as non-residents are required to pay non-resident tuition, unless exempted from paying such tuition through one of the statutory exemptions listed below:

a. United States military personnel and their authorized dependents during the period such personnel are stationed in Hawai’i on active duty.

b. Persons who are legal residents of a district, commonwealth, territory, or insular jurisdiction, state, or nation which provides no public institution of higher learning.

c. Employees of the University of Hawai’i and their spouses and legal dependents.

Misrepresentation - A student or prospective student who intentionally or willfully misrepresents any fact or any form or document intended for use in determination of resident status for tuition purposes will be subject to the regular disciplinary measures of the University of Hawai’i.

Residency decisions may be appealed by contacting the residency officer for information on how to initiate an appeal before students register for classes. Appeals are heard by the Committee on Resident Status only after the tuition is paid.
Appeal Process - Residency decisions may be appealed by contacting the residency officer for information on how to initiate an appeal before students register for classes. Appeals are heard by the Committee on Resident Status only after the tuition is paid.

Policy of Non-Discrimination and Affirmative Action

It is the policy of the University of Hawai‘i to comply with Federal and State laws which prohibit discrimination in University programs and activities, including but not necessarily limited to, the following laws which cover students and applicants for admission to the University: Title VI of the Civil Rights Act of 1964 as amended (race, color, national origin); Age Discrimination Act of 1975 (age); Titles VII and VIII of the Public Health Service Act as amended (sex); Title IX of the Education Amendments of 1972 (sex, blindness, severely impaired vision); Section 504 of the Rehabilitation Act of 1973 (disability); and to comply with Federal and State laws which mandate affirmative action and/or prohibit discrimination in employment (including, but not limited to, hiring, firing, upgrading), salaries, benefits, training, and other terms, conditions, and privileges of employment: Title VII of the Civil Rights Act of 1964 as amended (race, color, national origin, religion, sex, pregnancy); Executive Order 11246 as amended (race, color, national origin, religion, sex); Equal Pay Act of 1963 as amended by Title IX of the Education Amendments of 1972 (sex); Age Discrimination in Employment Act of 1967 (ages 40-70); Section 402 of the Vietnam Era Veteran’s Readjustment Assistance Act of 1974 (veteran’s status); Sections 503 and 504 of the Rehabilitation Act of 1973 (disability); Hawai‘i Revised Statutes, Chapter 76, 78, 378 (race, sex, sexual orientation, age, religion, color, ancestry, political affiliation, disability, marital status, arrest and court record). The UH Community Colleges strive to promote full realization of equal opportunity through a positive, continuing program including Titles I-IV of the Americans with Disabilities Act (ADA) P.L. 101-336. Accordingly, educational opportunities will be offered without regard to race, color, national origin, sex, or disability. American citizens or immigrants with limited English proficiency skills will not be denied admission to educational programs. In addition, employees and applicants for employment are protected under Title IX and Section 504.

As an integral part of its Policy on Non-discrimination and Affirmative Action, the Office of the President, University of Hawai‘i, hereby declares and reaffirms its commitment to the University’s pursuit of equal education and employment opportunity and further declares that any harassment of students or employees on the basis of sex is prohibited and will not be tolerated. Complaints of this nature will be handled by JoRae Baptiste.

Individuals designated to coordinate the University of Hawai‘i Community Colleges’ non-discrimination and affirmative action programs are:

Mary Perreira (EEO/AA)  Phone: (808) 956-4650 (V/T)
Community Colleges
2327 Dole Street
Honolulu, Hawai‘i 96822
JoRae Baptiste (EEO/AA Coordinator)
JoRae Baptiste (Title IX Coordinator)
Earl Nishiguchi (Section 504 Coordinator)
Kaua‘i Community College
3-1901 Kaumuali‘i Highway
Līhu‘e, Hawai‘i 96766
Phone: (808)245-8274

Policy on Sexual Harassment

It is the policy of the College to provide a safe and comfortable learning and working environment for students and employees. Sexual harassment is a form of discrimination that can undermine the foundation of trust and mutual respect that must prevail if the University is to fulfill its educational mission. Sexual harassment will not be tolerated in any part of the University’s programs and activities. Sanctions will be imposed on members of the University community who violate this policy. Disciplinary actions against employees will be subject to the collective bargaining agreements. For more information, please contact the Office of the Dean of Student Services or the EEO/AA Coordinator.

Residency

Students other than statutory exempt individuals, who do not qualify as bona fide residents of the State of Hawai‘i, according to the University of Hawai‘i rules and regulations in effect at the time they register, must pay the non-resident tuition. An official determination of residency status will be made at the time of application. Applicants may be required to provide documentation to verify residency status. Once classified as a non-resident, a student continues to be classified during his/her term at the College until he/she can present satisfactory evidence to the residency officer that proves otherwise.

Some of the more pertinent University residency regulations follow. For additional information or interpretation, contact the Registrar at 245-8226, Campus Center, Room 207A.

Definition of Hawai‘i Residency - A student is deemed a resident of the State of Hawai‘i for tuition purposes if the student (18 or older) or the student (under 18) and his/her parents or legal guardian have:
1. Demonstrated intent to permanently reside in Hawai`i (see below for indicia);
2. Been physically present in Hawai`i for the 12-14 consecutive months prior to the first day of instruction, and subsequent to the demonstration of intent to make Hawai`i his/her legal residency; and
3. The student, whether adult or minor, has not been claimed as a dependent for tax purposes by his/her parents or legal guardians who are not legal residents of Hawai`i.

To demonstrate the intent to make Hawai`i your legal residency, the following indicia apply:
   a. Voting/registering to vote in the State of Hawai`i.
   b. Filing Hawai`i Resident State Personal Income Tax Return.

Other indicia, such as permanent employment or the leasing of a dwelling in Hawai`i may apply, but no single act is sufficient to establish residency in the State of Hawai`i.

Other legal factors involved in making a residency determination include:
1. The twelve months of continuous residence in Hawai`i shall begin on the date upon which the first overt action (see indicia above) is taken to make Hawai`i the permanent residence.
2. Residency in Hawai`i and residency in another place cannot be held simultaneously.
3. Presence in Hawai`i primarily to attend an institution of higher learning does not create resident status. Continued presence in Hawai`i during vacation periods and occasional periods of interruption of the course of study does not itself overcome this presumption.
4. The residency of unmarried students who are minors follows that of the parents or of the legal guardian. Marriage emancipates a minor.
5. The residency of a married person may follow that of the spouse.
6. Resident status, once acquired, will be lost by future voluntary action of the resident inconsistent with such status. However, Hawai`i residency will not be lost solely because of absence from the State while a member of the United States Armed Forces, while engaged in navigation, or while a student at any institution of learning.

These considerations do not exhaust all of the factors that affect the determination of residency. For more information, consult the “Rules and Regulations Governing Determination of Residency as Applied to Tuition Payments and Admission at All Institutions Under the Jurisdiction of the Board of Regents of the University of Hawai`i.”

**Statutory Exemptions** - Students classified as non-residents are required to pay non-resident tuition, unless exempted from paying such tuition through one of the statutory exemptions listed below:
   A. United States military personnel and their authorized dependents during the period such personnel are stationed in Hawai`i on active duty.
   B. Persons who are legal residents of a district, commonwealth, territory, or insular jurisdiction, state, or nation which provides no public institution of higher learning.
   C. Employees of the University of Hawai`i and their spouses and legal dependents.
   D. Hawaiians, descendants of the aboriginal people that inhabited the Hawaiian Islands and exercised sovereignty in the Hawaiian Islands in 1778.

**Selective Service Registration and Federal Student Aid**
Military Selective Service Act (P.L. 97-252) requires that beginning July 1, 1983, any student who is required to register with the Selective Service System and fails to do so shall be ineligible to receive Federal Title IV student financial aid including: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Hawai`i Student Incentive Grant (HISIG), Federal Perkins Loan Program, Federal Family Educational Loan Program, Subsidized Federal Stafford Loan, Unsubsidized Federal Stafford Loan, and Federal Parent Loan for Undergraduate Students. This requirement affects all male students who are at least eighteen years of age, who were born after December 31, 1959, and who are not currently on active duty with the armed forces. Members of the Reserves and National Guard are not considered on active duty and must be registered. The group of affected males includes citizens and non-citizens eligible to receive Federal financial aid except permanent citizens of the Federated States of Micronesia, the Republic of Marshall Islands or the permanent residents of the Republic of Palau. For further information, contact Frances Dinnan, Financial Aids Officer, at 245-8256.

**Sexual Assault Policy**
As required by the Higher Education Amendments of 1992, the College has a Sexual Assault Policy which explains the College’s Sexual Assault Prevention Program presented to promote awareness of rape, acquaintance rape and other sex offenses and the procedures for reporting offenses. A copy of the Sexual Assault Policy can be obtained at the Student Services Office, Campus Center, Room 208. The procedure for the Sexual Assault Prevention Program can be obtained from the Student Services Office, Campus Center, Room 208.

See Campus Safety, pages 44-45.
## Student Conduct Code

The University of Hawai`i - Kaua`i Community College has a Code of Student Conduct which defines expected conduct for students and specifies those acts subject to University sanctions.

Students should familiarize themselves with the Student Conduct Code, since upon enrollment at the University of Hawai`i, Kaua`i Community College, the student has placed himself/herself under the policies and regulations of the University and its duly constituted bodies. The disciplinary authority is exercised through the Student Conduct Committee. The Committee has developed procedures for hearing allegations of misconduct.

Copies of the Student Conduct Code are available at the Office of the Dean of Student Services.

### Academic Dishonesty

Academic dishonesty cannot be condoned by the University. Such dishonesty includes cheating and plagiarism (examples of which are given below) which violate the Student Conduct Code and may result in expulsion from the University.

#### Cheating

Includes, but is not limited to, giving unauthorized help during an examination, obtaining unauthorized information about an examination before it is administered, using inappropriate sources of information during an examination, altering the record of any grades, altering answers after an examination has been submitted, falsifying any official University record, and misrepresenting the facts in order to obtain exemptions from course requirements.

#### Plagiarism

Includes, but is not limited to, submitting any document to satisfy an academic requirement, that has been copied in a whole or part from another individual’s work without identifying that individual; neglecting to identify as a quotation a documented idea that has not been assimilated into the student’s language and style, or paraphrasing a passage so closely that the reader is misled as to the source; submitting the same written or oral material in more than one course without obtaining authorization from the instructors involved; or dry-labbing, which includes (a) obtaining and using experimental data from other students without the express consent of the instructor, (b) utilizing experimental data and laboratory write-ups from other sections of the course or from previous terms during which the course was conducted, and (c) fabricating data to fit the expected results.

## Student Misconduct Grievances

The process of addressing allegations of misconduct are described in the procedures for Handling Impermissible Behavior and the Academic Grievance Procedures. Copies are available at the Kaua`i Community College Student Services Office.

## Transcript Requests

Students must file a written request to the Admissions & Records Office. A minimum of seven working days should be allowed for processing.

## Transferring to Another College

The College’s liberal arts curriculum and some of the vocational courses are designed to enable a student to transfer to a four-year college or university. By proper program planning, students may complete the first two year (lower-division) requirements and transfer to another campus of their choice with minimal loss of credits. Students may also make up high school grades or deficiencies which are required for entrance to four-year colleges or universities.

Students planning on transferring should consult the catalog of the college or university in which they are interested. Students are also advised to work closely with a counselor to ensure that the choice of courses taken will fulfill general education requirements for their chosen four-year institution, as well as the requirements for the College’s Associate in Arts degree.

Catalogs of schools, colleges and universities are available at the Student Services Office. Program requirements for various majors for transfer to the University of Hawai`i (Mānoa), the University of Hawai`i (Hilo), and the University of Hawai`i (West O`ahu) are available at the Student Services Office.

DEGREES AND CERTIFICATES

Associate in Arts Degree (A.A.)

The Associate in Arts Degree is a two-year baccalaureate direct transfer liberal arts degree, consisting of at least 60 semester credits at the 100 and 200 levels. It is intended for students who plan to transfer to a four-year institution or for students desiring two years of general education beyond high school. Only courses numbered 100 or above may count toward the degree, and all area requirements must be satisfied. The courses are likely to be transferable to any university. A transferrable course, however, may not be applicable to a particular program or major at the other institution. Therefore, it is highly recommended that the student consult with a counselor at the start of the liberal arts program. The issuance of an A.A. Degree requires that the student must earn a GPA of 2.0 or better for all courses applicable toward the degree.

Associate in Science Degree (A.S.)

The Associate in Science Degree is a two-year technical-occupational-professional degree, consisting of at least 60 semester credits, entirely at the baccalaureate level which provides students with skills and competencies for gainful employment. Required courses are numbered 100 or above. The issuance of an A.S. Degree requires that the student must earn a GPA of 2.0 or better for all courses applicable toward the degree.

Associate in Applied Science Degree (A.A.S.)

The Associate in Applied Science Degree is a two-year technical-occupational-professional degree, consisting of at least 60 semester credits, which provides students with skills and competencies for gainful employment. This degree is not intended nor designed for transfer directly into a baccalaureate program. A.A.S. programs may, however, include some baccalaureate-level course offerings. The issuance of an A.A.S. Degree requires that the student must earn a GPA of 2.0 or better for all courses applicable toward the degree.

Associate in Technical Studies Degree (A.T.S.)

The Associate in Technical Studies Degree is a two-year technical-occupational-professional degree, consisting of at least 60 semester credits, which provides students with skills and competencies for gainful employment. This degree must be customized by using courses from two or more existing approved programs and is intended to target emerging career areas which cross traditional boundaries. This degree must have educational objectives which are clearly defined by business and industry and employers who have near-immediate needs for specialized training for a limited number of employees. This degree must have advance approval and cannot be requested based upon previously completed coursework. The issuance of an A.T.S. Degree requires that the student must earn a GPA of 2.0 or better for all courses applicable toward the degree.

Certificate of Achievement (C.A.)

The Certificate of Achievement is a college credential for students who have successfully completed designated medium-length-technical-occupational-professional education credit course sequences which provide them with entry-level skills or job upgrading. These course sequences shall be at least 24 credit hours, but may not exceed 45 credit hours. The issuance of a C.A. requires that the student must earn a GPA of 2.0 or better for all courses required in the certificate.

Certificate of Completion (C.C.)

A college credential for students who have successfully completed designated short-term technical-occupational-professional education credit course sequences which provide them with entry-level skills or job upgrading. These course sequences shall be at least 10 credit hours, but may not exceed 23 credit hours. The issuance of a C.C. requires that the student must earn a GPA of 2.0 or better for all courses required in the certificate.

Certificate of Competence (C.O.C.)

The Certificate of Competence is a college credential for students who have successfully completed designated short-term credit or non-credit courses which provide them with job upgrading or entry-level skills. Credit course sequences shall not exceed 9 credit hours. The issuance of a C.O.C. requires that the student’s work has been evaluated and determined to be satisfactory. In credit course sequences, the student must earn a GPA of 2.0 or better for all courses required in the certificate.

Academic Subject Certificate (A.S.C.)

The Academic Subject Certificate is a college credential for students who have successfully completed a specific sequence of credit courses from the A.A. curriculum. The sequence must fit within the structure of the A.A. Degree, may not extend the credits required for the A.A. Degree, and shall be at least 12 credit hours. The issuance of the A.S.C. requires that the student must earn a GPA of 2.0 or better for all courses required in the certificate.
ABRP (AUTO BODY REPAIR AND PAINTING)

Trade-Technology

For today’s high-tech vehicles and varied construction methods and repair techniques, competent collision repair takes well-trained and knowledgeable professionals. Students enrolled in the Auto Body Repair and Painting program learn the latest technology and techniques used by industry repair shops. They also learn job readiness skills, working effectively with others, communicating effectively through writing and speaking, and computer skills. On completion of any of the certificate or degree programs, students will have entry-level skills for employment in auto body repair shops and other companies that repair and maintain their own vehicles.

The Auto Body Repair and Painting program has revised its curriculum based on the National Institute for Automotive Service Excellence (ASE), National Automotive Technicians Education Foundation, (NATEF), and Inter-Industry Conference on Auto Collision Repair (I-Car). The program prepares students to take further training if they desire I-Car certification.

First-year students learn to repair minor and major sheet metal damage and prime and paint over the damaged areas. Advanced students learn to repair structural damage by using a computerized frame straightener and to paint the cars in the industry-standard painting and baking booth. Safety is stressed. Students learn to use gas and MIG welders, to work with power tools, and to be alert to hazards from paints and solvents.

The Auto Body Repair and Painting courses are clustered into certificates. Each certificate provides a set of marketable workplace skills. These certificates build on each other to fulfill the requirements for an Associate in Applied Science Degree in Auto Body Repair and Painting. This two-year degree program is primarily designed to begin every other fall. However, on the off years, it is possible for students to enter the program by taking selected major courses and general education courses that will apply toward degree completion.

This program is articulated with other UH Community College Auto Body programs. Students should plan to enroll in all the ABRP courses offered each semester in order to earn the desired certificate or degree in the shortest time possible. Students are strongly encouraged to consult with an academic advisor to help them plan the best path for reaching their academic goals.

The cost of tools and supplies for the four semesters is approximately $1,900. This cost can vary considerably, depending on where the student chooses to buy tools and supplies.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is needed to meet graduation requirements.

**TOTAL 60**
ACC (ACCOUNTING)  
Business Education  

The Accounting curriculum is designed to prepare students in the accounting profession both in government and private business. The recommended course offerings are intended to allow students exiting the program at various levels, to have attained the necessary competencies.

Upon completion of a Certificate of Achievement 32-34 credits, students will be prepared for entry-level clerical positions. The Associate in Applied Science Degree requires all the courses in the Certificate of Achievement plus additional courses to total 60 credits. It blends a mixture of college-level, technical, occupational, and/or baccalaureate-leading transferable courses. Upon completion, students have the flexibility to obtain employment or to transfer some courses directly to a four-year program.

The Accounting program has an articulated career ladder with the University of Hawai‘i West O‘ahu Business program leading to a Bachelors in Business Degree. KCC students completing the Associate in Applied Science Degree UH West O‘ahu Articulation Option in Accounting have the opportunity to transfer to UHWO. Students wishing to participate in the Bachelors in Business program must notify their KCC academic advisor that they want to track into the UH West O‘ahu Articulation Option Associate in Applied Science Degree program.

A grade of "C" or higher in all accounting courses is required for graduation.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificate is needed to meet graduation requirements.

Certificate of Achievement: 32-34 credits

TOTAL 32-34
The Automotive Mechanics Technology (AMT) program is a competency-based program built on the standards specified by the National Automotive Technicians Education Foundation (NATEF). Students who successfully complete the Associate in Applied Science degree will have received training in all eight NATEF areas: Automatic Transmission/Transaxle, Brakes, Electrical/Electronics Systems, Engine Performance, Engine Repair, Heating and Air Conditioning, Manual Drive Train and Axles, and Suspension and Steering.

The goals of the program include preparing the student with the skills and competencies necessary for a successful career as an automotive technician; instilling in the student the work habits and attitudes necessary to work in a highly competitive field; and providing the student with the basic skills necessary to become a lifelong learner in order to keep abreast of the latest technological changes in the automobile.

The Automotive Technology courses are clustered into certificates. Each certificate provides a set of marketable workplace skills. This two-year degree program is primarily designed to begin every other fall. However, on the off years, it is possible for students to enter the program by taking selected major courses and general education courses that will apply toward degree completion.

First-semester courses require placement into ENG 21 and MATH 50. Students must maintain a valid driver’s license throughout the course of study.

This program is articulated with other UH Community College Automotive programs. Students should plan to enroll in all the AMT courses offered each semester in order to earn the desired certificate or degree in the shortest time possible. Students are strongly encouraged to consult with an academic advisor to help them plan the best path for reaching their academic goals.

The cost of tools and supplies for the four semesters is approximately $1,900. This cost can vary considerably, depending on where the student chooses to buy tools and supplies.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is needed to meet graduation requirements.

Certificate of Competence (Drive Train Specialist): 8 credits

ED (EARLY CHILDHOOD EDUCATION)

Public Service

The Early Childhood Education Program (ECE) offers a Certificate of Achievement (CA) and an Associate in Science Degree (AS). The ECE Program prepares students with the attitudes, skills, and knowledge necessary to teach in preschool programs. The training melds the theoretical and the practical by including hands-on lab experiences using practices conducive to the healthy development of the whole child.

The Associate in Science Degree in ECE meets the preferred training and experience requirements for preschool teachers as described by the State of Hawai‘i’s Department of Human Services. A Certificate of Achievement, however, with a two-year degree in another field can also meet DHS requirements for preschool teachers.

While both the Associate in Science Degree and the Certificate of Achievement provide the training necessary to teach in a preschool classroom in Hawai‘i, the Associate in Science Degree prepares a graduate to teach at any preschool accredited by the National Association for the Education of Young Children (NAEYC).

The program is designed primarily for night students and therefore will take longer to finish the five semesters needed if a student attends full time (12 credits per semester). Although there are no prerequisites for entry into the program, all courses at the first level require concurrent enrollment in ENG 22 or placement in ENG 100. Completion of ENG 100 with a “C” or higher is required for entry into the second-level courses; therefore, it is recommended that the students complete ENG 100 in their first year in the program. The science options, SCI 121/SCI 121L or SCI 122/SCI 122L cannot be taken as online courses.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificate is needed to meet graduation requirements.

Students are required to complete a criminal history check through the Department of Human Services as a prerequisite to taking any of the ECE labs. Infant/Child CPR and First Aid are required before the Certificate of Achievement or the Associate in Science is conferred.

Certificate of Achievement: 32-33 credits

ELEC (ELECTRICAL INSTALLATION AND MAINTENANCE TECHNOLOGY)

Trade-Technology

Note: Program is not currently being offered.
The Electronics Technology program offers learning opportunities that allow students to develop competencies necessary for entry, retention, and advancement in occupations requiring knowledge of electronics, computer technology, networking, information technology, and telecommunications. Graduates may proceed forward into Electronics or Computer Engineering Technology baccalaureate programs or enter the workforce as entry-level technicians.

Students will develop an understanding of basic DC/AC/Semiconductor circuits and digital electronics enabling further studies of advanced circuits, computer hardware, networking, operating systems, and telecommunications systems. Enhancement of technical skills, the development of critical thinking, attention to quality, improved written and verbal communication skills, and the growth of interpersonal skills are some of the expected outcomes. Internships at local high tech companies are encouraged, as are external certifications such as the CCNA/CCNP and A+.

The program is articulated with similar programs (CENT, ECET, ETRON) on other University of Hawaii two-year campuses on the neighbor islands allowing transfer after the first year of study.

Project or Academy courses allow students to pursue a variety of technology courses in the credit or non-credit modes.
- Project course—modularized, self-study CAI-based courses or student-proposed projects.
- Cisco Networking Academy (CCNA/CCNP certification training),
- Information Technology Academy Technology Center (photo-voltaics, electric vehicles, and hydrogen fuel cells, GPS/GIS).

Certificates and Degrees: The program offers Certificates of Competence (COC) in Electronics (8 credits), Cisco I (6 credits), Cisco II (6 credits). A Certificate of Achievement (37 credits) and an Associates in Applied Sciences (66 credits).

Admission requirements: Students may begin the program only at the beginning of the program cycle. Mid cycle entry is allowed if the student has sufficient coursework from accredited or articulated institutions or from military training schools. Applicants will be admitted on a “First Applied, First Qualified” basis.

Program prerequisites: (1) Placement into ENG 100; (2) Completion of MATH 25 or higher with a “C” or higher or testing into MATH 135; (3) appropriate placement test scores; (4) consent of instructor.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is required to meet graduation requirements.

FENG (FACILITIES ENGINEERING TECHNOLOGY)
Trade-Technology

Note: Program is being revised.

To better meet industry needs, the Facilities Engineering program is being revised for offering beginning Fall 2006.

(FOOD INDUSTRY CAREER PATHWAYS PROGRAM)

The Food Industry Career Pathways Program is a three semester integrated program combining academic studies and field experiences in the various sectors of the Food Industry. It includes business planning and management skills that are applied to agriculture and food production, food processing, value-added products development, distribution, marketing, packaging and sales.

**NON-CREDIT COURSE:**

Fall 2005 – FI 101: Food Industry Business Planning
Self-assessment for a career in the food industry; history of agriculture and evolution of the food industry; assessing potential modern business ventures; standard business structures; legal and regulatory considerations; business planning and creative start-ups. Related field experiences.

Spring 2006 - FI 102: Food Industry Business Management
Business management skills; operational planning, financing and management of business resources; interpersonal relations; negotiating agreements; marketing, advertising and sales; forming successful alliances; understanding food production, processing, marketing and distribution systems; economics of the industry. Related field experiences.

Summer 2006 - FI 103: Food Industry Internship
This is an optional six-week full-time Internship assignment in an area of the food industry related to the interests and career goals of the student. These experiences are designed to transition students from academic studies into the world of work.
The Culinary Arts Program is designed to provide the technical knowledge and basic skills training for students choosing to enter the culinary field, as well as upgrade those already employed in the food service industry. “Hands-on” laboratory training reinforces theoretical knowledge, preparing graduates for positions in professional food service careers. With job experience, graduates of the Culinary Arts Program may advance to positions as chefs, kitchen managers, and restaurant managers.

The Certificate of Competence in Food Service, requiring 9 credits, prepares students for entry-level positions in the food service industry. Students are able to demonstrate competency in basic food preparation, sanitation and safety, customer service, basic arithmetic, first aid and CPR. Completion of this certificate does not assure entry into the Culinary Arts Associate in Applied Science Degree cycle.

Although applicants will be admitted into the Culinary Arts Program, admission into the culinary (FSER) laboratory cycle (except FSER 100 and FSER 102) is on a “first applied, first qualified” basis. A new Culinary Laboratory cycle begins each fall semester.

Applicants must demonstrate basic skills proficiency in reading, writing, and mathematics as part of acceptance into the Certificate of Completion, the Certificate of Achievement, and the Associate in Applied Science Degree programs.

Priority admittance into the Culinary Arts fall Associate in Applied Science Degree cycle will be given to continuing students who have met the following requirements by the March 1 priority deadline:

1. met minimum English requirements by placing into ENG 21 or higher, or completed ENG 18 or 19 with a grade of “C” or higher;
2. met minimum math requirements by placing into MATH 24 or higher, or completed MATH 22 with grade of “C” or higher; and
3. completed FSER 100 and/or FSER 102 with a grade of “B” or higher, and maintained a 2.0 GPA in all courses applicable toward a Culinary Arts Certificate of Completion or higher degree.

A grade of “C” or higher is required for all FSER courses.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is required to meet graduation requirements.

HAW (HAWAIIAN BOTANY)

This coordinated offering of BOT 130—Plants in the Hawaiian Environment (3 credits), BOT 130L—Plants in the Hawaiian Environment Laboratory (1 credit), and BOT 105—Ethnobotany (3 credits) will provide students with and understanding of the science and cultural context of Hawaiian plants. They also gain field experience in Hawaiian botany.

A GPA of 3.0 or higher for all courses applicable toward the certificate is needed to meet graduation requirements.

Certificate of Competence: 7 credits

HAW (HAWAIIAN STUDIES ACADEMIC SUBJECT CERTIFICATE)

The Hawaiian Studies Academic Subject Certificate program is designed for students to gain a basic background in Hawaiian Studies. The course of study encompasses Hawaiian language, culture, environment, and values. It will satisfy a number of basic course requirements for the Hawaiian Studies and Hawaiian Language Bachelor Degree programs at the University of Hawai‘i at Mānoa and the University of Hawai‘i at Hilo. It will also satisfy employer needs for employees who have completed a course of study in Hawaiian culture, language, environment, and values.

A GPA of 3.0 or higher for all courses applicable toward the certificate is needed to meet graduation requirements.

Basic Requirements: 11 credits

The Hospitality Services and Hotel Operations programs are designed to meet the needs of those who are already employed in the hospitality services and hotel operations industry as well as those who wish to prepare themselves for entry into this field. The Certificate of Completion in Hotel Operations requires 14-15 credits. The Certificate of Achievement in Hotel Operations requires all courses in the Certificate of Completion, plus additional courses to total 44-45 credits. The Associate in Applied Science Degree in Hospitality Services requires all courses in the Hotel Operations Certificate of Completion and the Hotel Operations Certificate of Achievement, plus additional courses to total 60-61 credits.

The Hospitality Services program has an articulated career ladder with the University of Hawaii West Oahu Business program leading to a Bachelor’s in Business Degree. KauaiCC students completing the Associate in Applied Science Degree UH West Oahu Articulation Option in Hospitality Services have the opportunity to transfer to UH West Oahu. Students wishing to participate in the Bachelor’s in Business program must notify their KauaiCC academic advisor that they want to track into the UH West Oahu Articulation Option Associate in Applied Science Degree program.

A grade of “C” or higher in all Hotel Operations and/or Hospitality Services courses is required for graduation.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is needed to meet graduation requirements.

TOTAL 60-61
The Liberal Arts are the studies that develop general intellectual capacities, such as reason or judgment, rather than specific professional, vocational, or technical capacities. These studies encourage students to think clearly and creatively, to seek and assess information, to communicate effectively, to take pleasure in learning, to learn to adapt to change, and to live more consciously, responsibly, and humanely.

The Associate in Arts Degree may be earned by students who complete a two-year program of study comprising 60 credits. Only courses numbered 100 or above may count toward the degree, and all area requirements must be satisfied. Students intending to transfer to other campuses within the University of Hawai‘i System may transfer credits earned at Kaua‘i Community College and most credits will transfer to other two and four-year institutions if the courses are numbered 100 and above. Students intending to earn a Bachelor’s degree should consider working toward an Associate in Arts Degree at Kaua‘i Community College.

Fulfillment of General Education Requirements at all UH campuses: Effective Fall 1994, students who have earned an articulated Associate in Arts (A.A.) Degree from a University of Hawai‘i Community College shall be accepted as having fulfilled the general education core requirements at all other University of Hawai‘i campuses. While an articulated A.A. Degree satisfies general education core requirements, students must also complete all specialized lower-division, major, college and degree/graduation requirements. Additional campus-specific requirements, such as competency in a foreign language or writing-intensive courses may also be required. With planning, most, if not all, of these requirements may be incorporated into the Associate in Arts Degree; if not, they are required in addition to the Associate in Arts Degree.

Transfer to a four-year college: Students planning to transfer to a four-year college are advised to meet with a Kaua‘i Community College counselor to review transfer requirements of the college they plan to attend.

Writing Intensive (WI) requirements in the University of Hawai‘i System: The number of WI courses required for graduation from the University of Hawai‘i Community Colleges varies from none to two. The University of Hawai‘i-Mānoa requires completion of five WI courses prior to graduation. Three of these WI courses can be numbered below 300 and can therefore be taken at Kaua‘i Community College or another community college in the UH System. At this time, the University of Hawai‘i-Hilo and University of Hawai‘i West O‘ahu require two to three WI classes to graduate.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is needed to meet graduation requirements.
(LIBERAL ARTS)

(AREA REQUIREMENTS)

Humanities (three semester courses with at least one from each of Group I, II and III) ............................................. 9

Group I:
EALL 272 Japanese Literature in Translation: Modern (WI) (3)
ENG 250 American Literature (3)
ENG 251 British Literature to 1800 (3)
ENG 252 British Literature After 1800 (3)
ENG 253 World Literature to 1600 (3)
ENG 254 World Literature After 1600 (3)
ENG 255 Short Story and Novel (3)
ENG 256 Drama and Poetry (3)
ENG 257 Literature by Women (3)
ENG 257K Literature and Medicine (3)
ENG 261 French Literature in English (3)
HAW 261 Hawaiian Literature in English (3)

SOC 210 Social Problems (3)
SOC 220 Marriage and Family (3)
SOC 230 Race Relations (3)

**ELECTIVES: 14 - 17 credits**

An elective can be any transfer-level course numbered 100 or higher. Generally students plan to fill area requirements first. Once those requirements are filled, other courses listed under area requirements can be applied toward elective credits. Only courses specifically listed as repeatable may count more than once as elective credit. Only one of the following courses can be used as an elective: IS 105, LSK 101, or SSCI 101. It is recommended that electives include courses in foreign or Hawaiian language, a course in humanities, a course in social science, and a course in natural science. If a student plans to transfer to University of Hawai‘i at Mānoa, using foreign language as electives is highly recommended since foreign language is a graduation requirement for most UH Mānoa programs.

**TOTAL 60**

(NURSES' AIDE)
Health Service

**Note: Program is being revised.**

To better meet needs of the health industry, the Nurses' Aide program is being revised for offering beginning Spring 2006.

(MEDICAL OFFICE RECEPTIONIST)
Health Education

**Note: Program is not currently being offered.**
The career ladder program in nursing consists of two levels - Practical Nursing and Registered Nursing. The program admits new students every fall semester.

The Career Ladder Nursing Program is accredited by the National League for Nursing Accrediting Commission (www.nlnac.org), 61 Broadway, New York, NY 10006; telephone: 1-800-669-1606. The NLNAC is officially recognized as the accredited agency for nursing education by the Council of Postsecondary Accreditation and the U.S. Department of Education.

Successful completion of the first level of the curriculum leads to a Certificate of Achievement and eligibility to take the State Board Examination for licensure as a Practical Nurse. The first level curriculum requires two semesters and one summer session. The Certificate of Achievement requires 39 credits.

Continuation into the second level of the Career Ladder Nursing Program is based upon satisfactorily meeting established criteria for entry of continuing students into the second level. The second level requires an additional two semesters and leads to an Associate in Science Degree and eligibility to take the State examination for licensure as a Registered Nurse. Graduates will also be eligible for admissions to the third year of the Bachelor of Science in Nursing program at UH Mānoa.

Licensed Practical Nurses seeking advanced standing into the second level of the Career Ladder Nursing Program must meet established criteria for entry of LPNs into the second level. Transfer students applying for advanced standing will be evaluated on an individual basis.

**Admission requirements:** Applicants must demonstrate basic skills proficiency in reading, writing and mathematics as part of acceptance into the nursing program. Proficiency level may affect the sequence of courses in which students can enroll and may also extend the time required to complete the program.

**Program prerequisites:**
- Graduated from an accredited high school or GED equivalent.
- Satisfactory completion of chemistry (high school within the past 5 years with a grade of “B” or higher) or college chemistry with lab with a final grade of “C” or higher.
- Meets minimum algebra and English requirements.
- Satisfactory placement test scores OR completion of 24 semester credits of prerequisite, corequisite and support courses with a minimum GPA of 2.75 or higher.
- Satisfactory National League for Nursing RN Pre-Admission Exam scores.

All courses must be completed with a grade of “C” or higher in order to continue in the program and to graduate from the program.

**Certificate of Achievement - Practical Nursing:
39 credits**

**TOTAL 70-72**

**Notice to students:**

Health care students are required to complete University prescribed academic requirements that involve clinical practice in a University affiliated health care facility setting with no substitution allowable. Failure of a student to complete the prescribed clinical practice shall be deemed as not satisfying academic program requirements. It is the responsibility of the student to satisfactorily complete affiliated health care facility background checks and drug testing requirements in accordance with procedures and timelines as prescribed by the affiliated health care facility.
**OAT (OFFICE ADMINISTRATION AND TECHNOLOGY)**

*Business Education*

The Office Administration and Technology program focuses on skills, attitudes, and knowledge needed to prepare students for employment in government and industry positions such as administrative assistants, information processors, receptionists, clerks, or secretaries. Courses include both business and general offerings to broaden students’ background and to enhance employment and promotion possibilities. The Associate of Applied Science Degree provides students with the flexibility to directly transfer some courses to a four-year program at campuses, including University of Hawai‘i at West O‘ahu.

A GPA of 2.0 or higher for all courses applicable toward the degree or certificates is required to meet graduation requirements.

The Office Administration and Technology program has an articulated career ladder with the University of Hawai‘i West O‘ahu Business program leading to a Bachelors in Business Degree. KCC students completing the Associate in Applied Science Degree UH West O‘ahu Articulation Option in Office Administration and Technology have the opportunity to transfer to UHWO. Students wishing to participate in the Bachelors in Business program must notify their KCC academic advisor that they want to track into the UH West O‘ahu Articulation Option Associate in Applied Science Degree program.

Specialty electives enable students earning the A.A.S. Degree to focus on one or more areas so they develop additional expertise in an area of potential employment.

A grade of “C” or higher in all Office Administration and Technology courses is required for graduation.

(POLYNESIAN VOYAGING)

Liberal Arts

A combined offering of HWST 281 and SCI 122/L will provide students with the science behind and the experience in, as well as the cultural context of, the sailing and non-instrument navigation of Polynesian and modern canoes.

A GPA of 2.0 or higher for all courses applicable toward the certificate is needed to meet graduation requirements.

Certificate of Competence: 7 credits

Course Descriptions
COURSE DESCRIPTIONS

In this section, you will find courses of instruction listed alphabetically by course alphas. Not all courses are offered every semester. To find out if a course is offered during a particular semester, you need to check the current Schedule of Classes. Schedules are available at Student Services, the Library, and the Business Office.

WHAT IS A COURSE ALPHA?
It is an abbreviation of a subject area. In this example, ETRO means “electronics.” Course alphas are listed alphabetically. For example, ABRP (Auto Body Repair and Painting) will be listed before ACC (Accounting).

WHAT IS A PREREQUISITE?
A prerequisite is a requirement to be met before you enter a class. Not all classes have prerequisites.

WHAT IS A COREQUISITE?
A corequisite is a course which must be taken at the same time as the course being described.

WHAT DOES A COMMENT TELL ME?
A comment gives you additional information about a course.

WHAT DOES A RECOMMENDED TELL ME?
A recommended is not a requirement, but it gives you additional preparation to consider prior to taking the course.

WHAT DOES A DESCRIPTION TELL ME?
A description gives you detailed information about a course.

WHAT DOES A COURSE NUMBER MEAN?
100 and above
These courses are applicable toward a baccalaureate degree as well as toward an associate degree and certificate programs. They carry college transfer credit.

20 through 99
These courses may be used toward a degree or certificate from Kaua‘i Community College, but they generally are not applicable for credit toward a baccalaureate degree.

ETRO 241 - Electronics Circuit Analysis
Credits: 4
Class hours: 4 lecture
Prereq: “C” or higher in ETRO 122 and ETRO 122L
Coreq: ETRO 241L
Comments: Credit by exam is not an available option.
Description: This course will familiarize the student with a wide variety of circuit configurations and their characteristics. Basic knowledge about amplifiers, power supplies, oscillators, pulse circuits, and modulators is included.

HWST 281 - Hawaiian Astronomy and Weather Relating to Polynesian Voyaging
Credits: 3
Class hours: 3 lecture
Recommended: Acceptable placement test score or placement in ENG 100 and MATH 24.
Description: A survey of the Hawaiian and Polynesian environment in relationship to migrations, voyaging, and folklore. The course will provide the student with the basics of noninstrument navigation and voyaging as utilized in the voyages of Hōkūle‘a, Hawai‘i Loa, and Makali‘i. In addition, the student will understand and appreciate the cultural impact of long distance voyaging.
DEFINITIONS OF WORDS USED IN COURSE DESCRIPTIONS:

Corequisite A course which must be taken in conjunction with and during the same semester as another course. Corequisites are indicated in the course description.

Approval of Instructor Written permission granted by the instructor before a student enrolls in a course.

Modular Courses Modular courses are shorter than one semester, ranging from 2 to 13 weeks and carrying from 1 to 7 credits. Modular courses may be found in accounting, automotive mechanics, business education, mathematics, and nursing. The course description will indicate that a course is modular.

Placement Test A test administered by the College to assess current skills to determine acceptable class placement.

Prerequisite A requirement that must be met before you are allowed to enter a course. The purpose of a prerequisite is to ensure that you have the background you need to be successful in the course.

Recommended Suggested preparation which will enhance a student’s ability to perform well in a particular course.

Split-Level Course Split-level courses developed out of a concern to offer a wider range of courses to students enrolling in non-transfer courses. Such courses are offered at the transfer and the non-transfer levels at the same time. For example, Speech 20 and Speech 151 are offered concurrently.

The course content is the same in both levels, but course requirements differ. If you enroll in Speech 151, you need to meet course requirements not expected of Speech 20; for example, you might complete special projects or term papers or take more comprehensive examinations.

Split-level courses with a course number of 100 or higher apply toward A.A. Degree requirements; they also can be used toward an A. S. Degree, a Certificate of Completion, or a Certificate of Attendance. Those split-level courses numbered below 100 meet the requirements for the A. S. Degree, the Certificate of Achievement, and the Certificate of Completion.

Writing Intensive Since writing helps students both to learn and to communicate, the College course offers a variety of writing intensive (WI) courses. Instructors work with students on writing related to course topics. Transferable writing intensive courses can be used to help meet the University of Hawai‘i System’s requirements for graduation. Students are encouraged to take their assigned introductory-level writing courses before enrolling in WI courses. Students develop strength in writing skills as well as learn course content and understand how to apply what they learn through writing. Students also satisfy degree requirements if they transfer to UH Manoa, which requires a minimum of 5 writing intensive courses.

INSTRUCTIONAL LEVEL
For courses requiring reading and mathematics, students are expected to have reading and math skills above the remedial level or consent of the instructor.
NEW! Subject areas are alphabetized by their alphas:

ABRP - Auto Body Repair and Painting
ACC – Accounting
AG – Agriculture
AMT – Automotive Mechanics Technology
ANTH – Anthropology
ART – Art
ASTR - Astronomy
BIOL – Biology
BLAW - Business Law
BLPR – Blueprint
BMAC - Business Machines
BOT – Botany
BUS - Business
CARP – Carpentry
CASE – Cooperative Arts and Sciences Education
CHEM – Chemistry
COM – Communication
DRAF - Drafting
EALL - East Asian Language and Literature
ECOM - E-commerce
ECON – Economics
ED – Education
ELEC – Electricity
ELI - English Language Institute
EN – English
ENRG – Energy
ETRO - Electronics
FENG - Facilities Engineering Technology
FR – French
FSER - Food Service
GEOG – Geography
GG - Geology
HAW – Hawaiian
HIST – History
HOPE - Hotel Operations
HORT – Horticulture
HPER – Health, Physical Education, and Recreation
HWST - Hawaiian Studies
ICS – Information and Computer Science
IS - Interdisciplinary Studies
JOUR – Journalism
JPNS - Japanese
LAW – Law
LING – Linguistics
LSK - Learning Skills
MACH - Machine Shop
MATH – Mathematics
MGT – Management
MICR – Microbiology
MUS - Music
NURS - Nursing
OAT - Office Administration and Technology
OCN - Oceanography
PHIL – Philosophy
PHRM – Pharmacology
PHYS – Physics
POLS - Political Science
PSY - Psychology
RE - Real Estate
REL - Religion
SCI – Science
SMKT - Sales and Marketing
SOC – Sociology
SSCI - Social Science
SP – Speech
SPAN – Spanish
Special Studies
THEA - Theatre
WELD - Welding
ZOOL - Zoology
AUTO BODY REPAIR AND PAINTING (ABRP)

ABRP 19 - Introduction to Auto Body Repair
Credits: 2
Class hours: 8 lecture/lab (7.5 weeks)
Description: This course is designed to teach the student the techniques and methods of preparing the Auto Body surface for painting. The emphasis will be placed on preparing the Auto Body surface for painting to include chemical, mechanical and physical means. Safety precautions will be emphasized throughout the training.

ABRP 20 - Introduction to Collision Repair
Credits: 1
Class hours: 2 lecture/lab
Description: This course is designed to acquaint the student with the basic skills used in collision repair. Emphasis will be placed on the collision repair career; measuring and mixing; tools and equipment; safety and writing damage reports. Students will gain an understanding of career opportunities, shop safety practices, personal safety protection and health and environmental concerns related to the field.

ABRP 23 - Auto Body Welding
Credits: 4
Class hours: 8 lecture/lab
Description: This course is designed to acquaint the student with the basic skills used in auto body welding. Emphasis will be placed on safety; protective clothing; tools and equipment procedures; and techniques of gas metal arc welding (GMAW), oxyacetylene gas welding, and plasma arc cutting.

ABRP 26 - Non-Structural Analysis and Repair
Credits: 4
Class hours: 8 lecture/lab
Description: This course is designed to teach the student conventional and unitized body construction. Emphasis will be placed on what can be repaired and what must be replaced. Students will learn to lay out and fabricate repair panels from gauge sheet metal and repair rust damage.

ABRP 30 - Non-Structural Analysis Damage Repair
Credits: 3
Class hours: 6 lecture/lab
Prereq: "C" or higher in ABRP 26
Description: This course is designed to teach the student conventional and unitized body construction. The emphasis will be placed on repairing auto panels to the manufacturer's specifications.

ABRP 32 - Structural Analysis Damage Repair/Frame
Credits: 3
Class hours: 6 lecture/lab
Prereq: "C" or higher in ABRP 26
Description: This course provides the student practical applications in frame inspection, measurement and repair. Welding applications will be used as needed. The emphasis of this course is on straightening and aligning frames to manufacturer's specifications.

ABRP 34 - Painting and Refinishing: Surface and Prep/Safety
Credits: 2
Class hours: 4 lecture/lab
Prereq: "C" or higher in ABRP 20
Description: This course is designed to teach the student techniques and methods of preparing the Auto Body surface for painting. The emphasis will be placed on different methods of preparing a surface for painting to include chemical, mechanical and physical means. Safety precautions will be emphasized throughout the training.

ABRP 36 - Plastics and Adhesives
Credits: 2
Class hours: 4 lecture/lab
Prereq: "C" or higher in ABRP 20
Description: This course is designed to teach the student the techniques and methods of using plastics and adhesives in the repair of domestic and foreign manufactured automobiles. Safety during the mixing and handling of these chemicals will be emphasized. Identification of when and what type of substance to use for repair, how it is applied, and how the various plastics are used by manufacturer's in their designs will be taught.

ABRP 40 - Structural Analysis Repair/Unibody
Credits: 4
Class hours: 8 lecture/lab
Prereq: "C" or higher in ABRP 32
Description: This course provides the student practical applications in unibody inspection, measurement and repair. Welding applications will be used as needed. The emphasis of this course is on straightening and aligning the unibody of manufacturer's specifications and the replacement of fixed glass.

ABRP 42 - Non-Structural Analysis Damage Repair III
Credits: 4
Class hours: 8 lecture/lab
Prereq: "C" or higher in ABRP 30
Description: This course is designed to teach the student conventional and unitized body construction. The emphasis will be placed on replacing and adjusting auto panels to the manufacturer's specifications.

ABRP 44 - Painting and Refinishing: Spray Gun Operation I
Credits: 3
Class hours: 6 lecture/lab
Prereq: "C" or higher in ABRP 34
Description: This course is designed to teach the student techniques and methods of painting the auto body. The emphasis will be placed on paint mixing, matching of colors and different types of paint, and the operations of a variety of spray guns used in the auto body industry.

ABRP 50 - Painting and Refinishing: Problem Solving
Credits: 3
Class hours: 6 lecture/lab
Description: This course is designed to teach the student techniques and methods of correcting problems encountered during the painting process. The causes and cures of finish defects will be studied and procedures established to correct the defects.
AUTO BODY REPAIR AND PAINTING (ABRP) • continued

ABRP 52 - Structural Analysis
Damage Repair/Peripheral Components
Credits: 3
Class hours: 6 lecture/lab
Description: This course provides the student practical applications in frame and unibody inspection, measurement, and repair of various domestic and foreign manufactured automobiles. Glass replacement and welding applications will be used as needed. The emphasis of this course is on properly repairing to manufacturer’s specifications.

ABRP 54 – Painting and Refinishing/Problem Solving
Credits: 3
Class hours: 6 lecture/lab
Prereq: “C” or higher in ABRP 44
Description: This course is designed to teach the student techniques and methods of correcting problems encountered during the painting process. The causes and cures of finish defects will be studied and procedures established to correct the defects.

ABRP 93V - Cooperative Education
Credits: 1-3
See explanation under the heading of Cooperative Education.

ABRP 99V - Special Studies
See explanation under the heading of Special Studies.
ACCOUNTING (ACC)

ACC 124B - Principles of Accounting I, Part I
Credits: 2
Class hours: 3 lecture and 2 lecture/lab (8 weeks)
Recommended: Acceptable reading and writing placement test scores or concurrent enrollment in ENG 22 or higher
Comments: Credit by exam is not an available option.
Description: Introduction to the basic structure of accounting, including basic accounting principles and practices relating to a sole proprietorship service business. Upon completion with "C" or higher in this course, the student should be able to demonstrate an understanding of the procedures involved in the basic accounting cycle and apply those procedures to the recording and reporting of accounting data.

ACC 124C - Principles of Accounting I, Part II
Credits: 2
Class hours: 3 lecture and 2 lecture/lab (8 weeks)
Prereq: "C" or higher in ACC 124B
Comments: Credit by exam is not an available option.
Description: Introduction to the basic accounting principles and practices relating to a sole proprietorship retail merchandising business. Topics include the use of specialized journals, general and subsidiary ledgers, and financial statements. Also introduces banking transactions and payroll accounting.

ACC 125 - Principles of Accounting II
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Prereq: "C" or higher in ACC 124C
Comments: Credit by exam is not an available option.
Description: A continuation of financial accounting with emphasis on the reporting of specific assets and liabilities and accounting for corporations and partnerships. Upon completion with "C" or higher in this course, the student should be able to list the various accounting principles and concepts; and apply basic accounting procedures and reporting requirements at the introductory level.

ACC 126 - Principles of Accounting III
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Prereq: "C" or higher in ACC 125
Comments: Credit by exam is not an available option.
Description: An introduction to managerial accounting including financial reporting and analysis, responsibility accounting by departments, and cost accounting for manufacturers. Topics include: reporting and analyzing performance (including budgeting and break-even analysis), internal control, and standard cost systems. Upon completion with "C" or higher in this course, the student should be able to demonstrate an understanding of the knowledge of accounting information and methods that are essential for decision-making internal to the firm.

ACC 128 - Practical Accounting Applications
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ACC 125 or ACC 201
Comments: Credit by exam is not an available option.
Description: A practical accounting course in which students will apply previously acquired accounting skills and knowledge to set up and maintain accounting records using publisher's manual practice set and integrated accounting software. Topics include processing journal entries, general ledger, accounts receivable, accounts payable, inventory, payroll, financial statement analysis, and conversion to an automated system.

ACC 132 - Payroll and Hawai`i General Excise Taxes
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ACC 124C
Comments: Credit by exam is not an available option.
Description: An introduction to the methods for evaluating financial performance including cost accounting, budgeting, break even analysis, ratio analysis, and cash flow analysis. Also includes principles and procedures relating to partnership and corporation accounting and manufacturing accounting.

ACC 134 - Income Tax Preparation
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ACC 124C
Comments: Credit by exam is not an available option.
Description: An introduction to principles, procedures, terminology, and application of the Federal and Hawai`i tax laws for individuals and sole proprietorships.

ACC 201 - Introduction to Financial Accounting
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ENG 22 or higher
Description: Introduction to accounting theory and methods used to record and report financial information according to generally accepted accounting principles.

ACC 202 - Introduction to Managerial Accounting
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ACC 125 or ACC 201
Description: Introduction to the methods for evaluating financial performance including cost accounting, budgeting, break even analysis, ratio analysis, and cash flow analysis. Also includes principles and procedures relating to partnership and corporation accounting and manufacturing accounting.
AGRICULTURE
(AG)

AG 22 - Soil Technology
Credit: 3
Class hours: 2 lecture and 3 lab
Comments: Credit by exam is not an available option.
Description: In this course, students study the physical properties of soils, soil surveys and land layout, soil formation and classification, soil testing, fertilization practices, soil and water relationships, use of time, soil preparation, and irrigation practices.

AG 41 - Plant Disease and Pest Control
Credit: 3
Class hours: 2 lecture and 3 lab
Comments: Credit by exam is not an available option.
Description: Students survey the principles involved in controlling plant diseases and pests. The class includes study of bacteria, fungi, nematodes, insects, and weeds. Students learn proper and safe methods of mixing sprays and dusts. Legal aspects of the control of plant diseases and pests are explored.

AG 92 - Selected Topics in Agriculture
Credit: 1
Class hours: 3 lecture/lab (5 weeks)
Comments: Credit by exam is not an available option.
Description: This course offers selected topics in agriculture that meet local interests. The course is intended for individuals in business, resort maintenance personnel, plantation workers, and others interested in agricultural topics. The specific content of each topic is varied to meet the needs of specific locality or conditions. Available topics include:
- F - Maile and Mokihana
- G - Agricultural Product Packaging
- H - Identification of plants in the Hawaiian landscape
- I - Propagation of plants in the Hawaiian landscape
- J - Soils and plant nutrition
- K - Insect, weeds, and disease identification
- N - Vegetables for home use (home gardening)
- P - Pesticide application and safety
- Q - Interiorscapes
- R - Tropical fruits and nuts
# AUTOMOTIVE MECHANICS TECHNOLOGY (AMT)

**AMT 16 - Car Care**  
**Credits:** 1  
**Class hours:** 1 lecture/lab (semester) or 2 lecture/lab (8 weeks)  
**Recommended:** Open to all students; not recommended for automotive majors  
**Comments:** Credit by exam is not an available option. May be repeated any number of times for credit.  
**Description:** This course offers technical information on the history and development of automobiles; the function of the lubricating, cooling, fuel, and electrical systems; the major automobile components; minor trouble-shooting; tire changing; and car maintenance.

**AMT 18 - Minor Tune-Up and Repair**  
**Credits:** 2  
**Class hours:** 1 lecture and 2 lab  
**Comments:** Credit by exam is not an available option. May be repeated any number of times for credit.  
**Description:** This course presents elementary principles involved in the operation and maintenance of an automobile. Units include lubrication and service; wheel and tire service; wheel-bearing service; battery service; and brake, cooling, exhaust, fuel, and ignition systems.

**AMT 20 - Introduction to Automotive Technology**  
**Credits:** 2  
**Class hours:** 1 lecture and 3 lab  
**Prereq:** Placement in ENG 21 or higher and MATH 50 or higher  
**Comments:** Credit by exam is not an available option.  
**Description:** This course will cover policies and procedures of the AMT program, shop procedures, safety, use of technical reference manuals, identification and use of hand tools, hazardous material training, employees' Right-to-Know laws, job opportunities in automotive and related areas, preventative maintenance and service procedures, identification and use of fasteners, and safety check inspection procedures. Besides the noted competencies taught in Engines (AMT 30), additional competencies of automotive computer literacy/electronic information systems, such as repair data, estimating, invoicing/technical writing, and vehicle computer reprogramming will be added.

**AMT 30B - Engines I**  
**Credits:** 5  
**Class hours:** 3 lecture and 6 lab  
**Prereq:** Placement in ENG 21 or higher and MATH 50 or higher  
**Comments:** Credit by exam is not an available option.  
**Description:** The theory of operation, maintenance, diagnosis, and practical repair procedures of cylinder heads, timing systems (belts and chains), and cooling systems are covered in this class.

**AMT 30C - Engines II**  
**Credits:** 3  
**Class hours:** 1 lecture and 6 lab  
**Prereq:** Placement in ENG 21 or higher and MATH 50 or higher  
**Comments:** Credit by exam is not an available option.  
**Description:** In this course, students learn essential theories and practical skills in servicing fuel systems, emission systems, electronic fuel injection fuel delivery systems, and electronic fuel injectors. Diagnosis, repair, overhaul of carburetors and mechanical fuel injections systems are also covered.

**AMT 30D - Engine Performance I**  
**Credits:** 3  
**Class hours:** 1 lecture and 6 lab  
**Prereq:** Placement in ENG 21 or higher and MATH 50 or higher; "C" or higher in AMT 20, AMT 40B, AMT 40E and AMT 41  
**Comments:** Credit by exam is not an available option.  
**Description:** Diagnosis of engine mechanical; batteries; starting systems; charging systems; fuel system delivery (pumps, regulators); fuel injectors; ignition systems and emission control systems using digital storage oscilloscopes, scanners, and various electronic testers.

**AMT 40E - Electrical/Electronics I**  
**Credits:** 2  
**Class hours:** 1 lecture and 3 lab  
**Prereq:** Placement in ENG 21 or higher and MATH 50 or higher  
**Description:** This course introduces students to the principles of theory and operation of automotive batteries/starter/charging systems. Students will perform hands-on testing and diagnosis of batteries, starting systems, and charging systems.

**AMT 40G - Electrical/Electronics III**  
**Credits:** 2  
**Class hours:** 1 lecture and 3 lab  
**Prereq:** Placement in ENG 21 or higher and MATH 50 or higher; "C" or higher in AMT 40E  
**Comments:** Credit by exam is not an available option.  
**Description:** Essential theories and practical skills in diagnosing and repairing automotive accessory circuits such as power windows, power door locks, power antennas, power mirrors, audio systems, anti-theft systems, power seats, horns, blower fan and wiper/washer. Also covered are conventional instrumentation, digital instrumentation, and supplemental inflatable restraint (SIR).
AMT 40H – Engine Performance II
Credits: 5
Class hours: 2 lecture and 6 lab
Prereq: Placement in ENG 21 or higher and MATH 50 or higher and "C" or higher in AMT 40B, 40E, and AMT 41
Comments: Credit by exam is not an available option.
Description: Computer engine management systems of domestic and foreign cars are studied in this course. Covers theory of operation, diagnosis and repair of sensors, actuators, and on-board computers. Use of scanners, digital storage oscilloscopes, digital graphing multi-meters, and DVOM’s are covered.

AMT 41 – Ignition Systems
Credits: 2
Class hours: 1 lecture and 3 lab
Prereq: Placement in ENG 21 or higher and MATH 50 or higher; "C" or higher in AMT 40E
Comments: Credit by exam is not an available option.
Description: This course studies the basic function of an ignition system, its components and their function. The operation and testing of ignition coils; electronics sensing devices (sensors, pickups); primary side ignition wiring; secondary side ignition wiring and components; and ignition modules. The operation, maintenance, diagnosis, and repair of distributorless ignition (EI) are also covered.

AMT 43 – Heating and Air Conditioning
Credits: 4
Class hours: 2 lecture and 6 lab
Prereq: Placement in ENG 21 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: This course provides theory of operation as well as the methods to diagnose and repair the modern HVAC systems. The terminology used and the varieties of different systems encountered are covered. Service procedures, both old and new (with regard to new regulations) are covered.

AMT 46 – Manual Drive Trains and Axles
Credits: 4
Class hours: 2 lecture and 6 lab
Prereq: Placement in ENG 21 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: This course covers the theory and fundamental operating principles of the modern automotive drive trains and axles. Students learn maintenance and repair of CV shafts, propeller shafts, U-joints, standard transmissions, standard transaxles, rear axles, and differentials.

AMT 50 – Automatic Transmissions/Transaxles
Credits: 4
Class hours: 2 lecture and 6 lab
Prereq: Placement in ENG 21 or higher and COMPASS placement MATH score of 47 or higher
Comments: Credit by exam is not an available option.
Description: This course presents the elementary theories, maintenance, and overhaul procedures of automatic transmissions and transaxles. Linkage adjustments, oil change, diagnosis, and road testing are included.

AMT 53 - Brakes
Credits: 3
Class hours: 1 lecture and 6 lab
Prereq: Placement in ENG 21 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: This course covers the basic principles in the operation of the modern automotive brake system. Further development in new technology such as computerized ABS (Anti-Skid Brake Systems), electronic power brakes, and four-wheel disk brakes are covered. Repair and service techniques of the complete brake system are demonstrated.

AMT 55 - Suspension, Steering, and Alignment
Credits: 4
Class hours: 2 lecture and 6 lab
Prereq: Placement in ENG 21 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: The operation, construction, design, maintenance, and repair of suspension and steering systems in the modern automobile. Modern four-wheel alignment is also covered.

AMT 60 - Diagnostic and Repair
Credits: 4
Class hours: 4 lecture and 9 lab
Prereq: Placement into ENG 21 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: This course is designed to provide the student with realistic on-the-job types of training. Students are exposed to different types of live jobs to build self-confidence, improve approach to troubleshooting, and improve skills of the trade with emphasis on accuracy, neatness, and speed.

AMT 80 - Small Engine Repairs
Credits: 2
Class hours: 1 lecture and 2 lab
Comments: Credit by exam is not an available option.
Description: This class introduces students to the field of small gasoline engine repair. The course emphasizes shop safety, tool use and identification, and the general construction and repair of small gasoline engines. An overview of job opportunities and skills required is included.

AMT 88 - Motorcycle Repair I
Credits: 2
Class hours: 1 lecture and 2 lab
Comments: Credit by exam is not an available option.
Description: This is a basic course in the theory of operation and repair procedures of two- and four-stroke motorcycles.

AMT 93V - Cooperative Education
Credits: 1-3
See explanation under the heading of Cooperative Education.

AMT 99V - Special Studies
See explanation under the heading of Special Studies.
ANTHROPOLOGY
(ANTH)

ANTH 20 - Survey of Anthropology
Credits: 3
Class hours: 3 lecture
Comments: Split-level: ANTH 150
Description: Students explore the science of humanity: the evolution, distribution, and development of human beings and their culture through fossil, archaeological, and ethnographic records.

ANTH 25 - Survey of Cultural Anthropology
Credits: 3
Class hours: 3 lecture
Comments: Split-level: ANTH 200
Description: This course offers an orientation to the nature of human culture. It includes basic concepts for analyzing cultural behavior.

ANTH 150 - Human Adaptations
Credits: 3
Class hours: 3 lecture
Comments: Split-level: ANTH 20
Description: Students explore the science of humanity: the evolution, distribution, and development of human beings and their culture through fossil, archaeological, and ethnographic records.

ANTH 199V - Special Studies
See explanation under the heading of Special Studies.

ANTH 200 - Cultural Anthropology
Credits: 3
Class hours: 3 lecture
Prereq: Qualified for ENG 100
Comments: Split-level: ANTH 25
Description: This course offers an orientation to the nature of human culture. It includes basic concepts for analyzing cultural behavior.

ANTH 205 - Legends and Myths
Credits: 3
Class hours: 3 lecture
Recommended: ANTH 150 or ANTH 200
Description: This course involves students in the study of folklore and investigation of the function of folktales, legends, and myths.

ANTH 210 - Archaeology
Credits: 3
Class hours: 3 lecture
Recommended: ANTH 150 or ANTH 200
Description: Students explore the prehistory of the human species. The course surveys methods and techniques used in the study of prehistoric culture.

ANTH 212 - Archaeological Field Methods
Credits: 3
Class hours: 3 lecture
Comments: May be repeated once for credit with the approval of the instructor.
Description: Students gain practical field experience in archaeological methodology: surveying, mapping, illustration, excavation, and artifact retrieval.

ANTH 215 - Physical Anthropology
Credits: 3
Class hours: 3 lecture
Description: This class explores the genetic heritage of human beings and their relationship to other animals, fossil antecedents, and status as Homo Sapiens in today’s world.

ANTH 220 - Prehistory of Hawai‘i
Credits: 3
Class hours: 3 lecture
Recommended: ANTH 210 or HWST 231K
Description: The development of prehistoric Hawaiian culture is explored through legendary, archaeological, ethnographic, and historical resources.
ART

ART 101 - Introduction to the Visual Arts

Credits: 3
Class hours: 3 lecture
Description: Through lectures and demonstrations, this course explores the nature of the visual arts and their expression in various forms.

ART 105 - Introduction to Ceramics

Credits: 3
Class hours: 2 lecture and 4 lab
Description: This course introduces students to three-dimensional concepts in clay. Students complete hand-building and wheel throwing projects.

ART 107 - Introduction to Photography

Credits: 3
Class hours: 6 lecture/lab
Description: Students study the elements and principles of photography through lectures, demonstrations, and projects. The course assumes no prior knowledge of photography. Each student must have a light meter and camera with adjustable shutter speed and aperture setting.

ART 110 - Introduction to Raku

Credits: 3
Class hours: 5 lecture/lab
Description: This class introduces students to the ancient technique of low-fired pottery as developed in Kyoto, Japan. Students are involved in the complete process from hand-building to glaze development to kiln firing.

ART 111 - Introduction to Watercolor Painting

Credits: 3
Class hours: 2 lecture and 4 lab
Description: This course introduces students to watercolor materials and techniques.

ART 113 - Introduction to Drawing

Credits: 3
Class hours: 2 lecture and 4 lab
Description: This course involves students in two-dimensional visualization and rendering of forms, spaces, and ideas through a variety of approaches and media.

ART 123 - Introduction to Painting

Credits: 3
Class hours: 2 lecture and 4 lab
Description: This course explores the theory and practice of painting. Basic material and technical procedures are addressed.

ART 170 - Introduction to Western Art

Credits: 3
Class hours: 3 lecture
Comments: Split-level: ART 70
Description: This course offers broad coverage of major developments in the arts of Europe and America from the Neolithic period to the present.

ART 180 - Introduction to Eastern Art

Credits: 3
Class hours: 3 lecture
Comments: Split-level: ART 80
Description: This course covers the major developments in the fine arts of Asia including painting, sculpture, and architecture. Emphasis is on the fine arts of India, China, and Japan.

ART 210 - Intermediate Raku

Credits: 3
Class hours: 6 lecture/lab
Prereq: "C" or higher in ART 110
Description: This course continues exploration of the techniques introduced in ART 110. Emphasis is placed on glaze refinement (quality and colors), kiln design, and alternate firings (introduction of reduction firing techniques).

ART 211 - Intermediate Watercolor

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 111
Description: This course provides continued study of basic techniques presented in ART 111 together with intensive application. The student is encouraged to develop a personal style in the medium of watercolor.

ART 213 - Intermediate Drawing

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 113
Description: This course involves students in extending skills developed in ART 113. It focuses on drawing concepts unique to this century.

ART 223 - Intermediate Painting

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 123
Description: This course surveys late 19th and 20th century studio practice with emphasis on abstraction and no representation painting.

ART 227 - Oriental Brush Painting

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 227
Comments: May be repeated three times for credit.
Description: This course offers studio practice in the concepts and techniques of Chinese landscape painting.

ART 228 - Chinese Landscape Painting

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 105
Description: This course offers broad study in the concepts and techniques of Chinese landscape painting.

ART 243 - Intermediate Ceramics: Hand Building

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 105
Description: Students explore the development of sculptural concepts using hand building techniques.

ART 244 - Intermediate Ceramics: Wheel Throwing

Credits: 3
Class hours: 2 lecture and 4 lab
Prereq: "C" or higher in ART 105
Description: Students practice development of vessel and sculptural concepts using wheel throwing techniques.

ART 299V - Special Studies

See explanation under the heading of Special Studies.
ASTRONOMY
(ASTR)

ASTR 110 - Survey of Astronomy
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable math placement test score (high school algebra).
Description: This course for the non science major is an introduction to the astronomical universe and its physical concepts.

BIOLOGY
(BIOL)

BIOL 100 - Human Biology
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 100
Description: This general science course emphasizes basic science concepts by studying human anatomy and physiology. The course introduces students to the structure and function of cells, tissues, organs, and systems of the human body. This course includes a study of the disease process and recent scientific advances.

BIOL 100L - Human Biology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in ENG 22 or placement in ENG 100
Coreq: BIOL 100
Description: This lab course complements the human biology lecture with an emphasis on basic science concepts using the gross and microscopic anatomy and physiology of the ten systems of the human body.

BIOL 110V - Projects in Biology
Credits: 1-2
Class hours: Meetings arranged
Prereq: "C" or higher in BIOL 101; or BOT 101; or ZOOL 101; and approval of instructor
Comments: May be repeated once for credit.
Description: This class offers the opportunity to use equipment, techniques, or materials not ordinarily used in regular biology courses. The student will be actively involved with procedure and adaptation, or construction of apparatus used in the course.

BIOL 123 - Introduction to Science: Hawaiian Environment
Credits: 3
Class hours: 3 lecture
Coreq: BIOL 123L
Description: Characteristics of science and interaction with society illustrated by topics in geology, meteorology, oceanography, and biology of the Hawaiian Islands.

BIOL 123L - Hawaiian Environment Science Lab
Credits: 1
Class hours: 3 lab
Coreq: BIOL 123
Description: Laboratory experiments to complement the BIOL 123 lecture, which needs to be taken concurrently. Subject matter illustrates topics and methods in science using examples from Hawaiian Natural History.

BIOL 171 - Introduction to Biology I
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in CHEM 151 or CHEM 161
Coreq: BIOL 171L
Description: Introductory biology for all life science majors. The areas studied will include cell structure and chemistry, growth, reproduction, genetics, evolution, viruses, bacteria, and simple eukaryotes.

BIOL 171L - Introduction to Biology Laboratory I
Credits: 1
Class hours: 3 lab
Coreq: BIOL 171
Comments: Credit by exam is not an available option.
Description: The laboratory complements BIOL 171 lecture and is intended to provide laboratory experiences that focus on organic molecules, cell structure, cell functions, and genetics.

BIOL 172 - Introduction to Biology II
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in BIOL 171 and BIOL 171L
Coreq: BIOL 172L
Description: BIOL 172 is a continuation of BIOL 171 emphasizing anatomy, physiology, and systematics of plants and animals to include behavior, ecosystems, populations, and communities.
BIOLOGY
(BIOL) continued

BIOL 172L - Introduction to Biology Laboratory II

Credits: 1
Class hours: 3 lab
Coreq: BIOL 172
Comments: Credit by exam is not an available option.
Description: This laboratory complements BIOL 172 lecture and is intended to provide laboratory experiences that focus on a systemic study of the anatomy and physiology of plants and animals, and how they interact in populations, ecosystems, and communities.

BIOL 208 – Field Biology: Island Ecosystems

Credits: 3
Class hours: 2 lecture and 3 lab
Prereq: Placement in ENG 100, MATH 27, and the ability to do moderate hiking and outdoor activity.
Comment: The laboratory is part of the class.
Recommended: “C” or higher in a biological science course and laboratory (BOT 101, BOT 130/130L; BIOL 123/123L; SCI 121/121L)
Description: Oceanic island communities in the Pacific, such as Hawai’i, offer a unique and exciting environmental setting for a hands-on experiential field biology course. This course will provide students with an opportunity to perform standardized tests and field research techniques to collect current data on specific island ecosystems. Students will learn to analyze the data and relate the information they have acquired to the diversity and health of the ecosystem, gaining a greater understanding and appreciation of the changing and fragile nature of island communities.
**BUSINESS LAW (BLAW)**

**BLAW 200 - Legal Environment of Business**

*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* This course introduces fundamental principles of law as applied to ordinary business relationships, sources of business law, the essential elements of a contract, the agency and employment relationships, negotiable instruments, personal property, and the sale of personal property. Emphasis is placed on the Uniform Commercial Code.

---

**BLUEPRINT READING (BLPR)**

**BLPR 22 - Blueprint Reading**

*Credits:* 3  
*Class hours:* 3 lecture  
*Prereq:* Placement in MATH 24 or higher  
*Comments:* Credit by exam is not an available option.  
*Description:* This course is an introduction to reading and understanding plans and specifications for residential and other small buildings. Students study visualization and the various symbols, legends, abbreviations, and dimensioning techniques used in blueprints. Topics include civil, structural, architectural, mechanical, electrical, and landscape drawings. Other topics include the specifications, construction materials, and construction methods.

**BLPR 40 - Advanced Blueprint Reading and Estimates**

*Credits:* 3  
*Class hours:* 3 lecture  
*Prereq:* "C" or higher in BLPR 22  
*Comments:* Credit by exam is not an available option.  
*Description:* This is an introductory course in construction estimating and bidding using plans and specifications. Topics include construction contracts, types of estimates, cost accounting, and construction costs. The class also includes measurement of quantities and construction work from plans as well as specifications and pricing the work.

---

**BUSINESS MACHINES (BMAC)**

**BMAC 20C - Electronic Calculators**

*Credits:* 1  
*Class hours:* 2 lecture/lab  
*Description:* Develops proficiency in the operation and application of the electronic printing calculator in solving practical problems in business. Emphasizes speed and accuracy with the 10-key pad found in electronic calculators, computer keyboards, and cash registers.

**BMAC 30 – Cash Register**

*Credits:* 1  
*Class hours:* 2 lecture/lab  
*Prereq:* “C” or higher in BMAC 20C  
*Description:* This course will cover the operation of the cash register with speed and accuracy, the receipt and the procedures for handling the different methods of payment for purchases, the collection and summarization of data for accounting and management decision making, and the development of other cashiering skills. The skill-building course will prepare students for entry-level positions for any industry requiring cashiering skills.
**BOTANY**

**(BOT)**

**BOT 20 - Beginning Botany**

*Credits:* 4  
*Class hours:* 3 lecture and 3 lab  
*Comments:* Split-level: BOT 101. Credit by exam is not an available option. The laboratory is part of the class.  
*Description:* This introduction to basic botanical principles includes the anatomy, morphology, physiology, evaluation, life cycles, ecology, and genetics of seed plants. Principles of molecular and cellular biology, non technical plant identification, and plant propagation are also studied. The laboratory is part of the class.

**BOT 101 - General Botany**

*Credits:* 4  
*Class hours:* 3 lecture and 3 lab  
*Comments:* Split-level: BOT 20. Credit by exam is not an available option. The laboratory is part of the class.  
*Description:* This course covers the structure, growth, function, and evolution of plants and their relationship to the environment and human activities. The laboratory is part of the class.

**BOT 105 - Ethnobotany**

*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* Students explore plants and their influence upon the culture of Hawai’i and Pacific. Uses of cultivated and wild plants are examined.

**BOT 130 – Plants in the Hawaiian Environment**

*Credits:* 3  
*Class hours:* 3 lecture  
*Coreq:* BOT 130L  
*Recommended:* Placement in ENG 21 and ENG 22 and MATH 24  
*Description:* Introduction to the biological sciences demonstrated through the study of the evolution of plant species and communities of the Hawaiian Islands. The course will include the study of ecological interactions, human impact on the environment, observational skills and scientific inquiry, plant structure and form in relation to function, and the identification and systematics of native and introduced flora.

**BOT 130L – Plants in the Hawaiian Environment Laboratory**

*Credits:* 1  
*Class hours:* 3 lab  
*Coreq:* BOT 130  
*Recommended:* Placement in ENG 21 and ENG 22 and MATH 24  
*Description:* BOT 130L is a one-credit laboratory science course designated to accompany BOT 130. If successfully completed for grade, it can fulfill the laboratory course requirement for the Natural Sciences. The course is a “hands-on,” experiential approach to the biological sciences. This course will involve students in specific application of lecture materials and concepts through scientific inquiry and field observations. Field trips are included.

**BOT 160 - Identification of Tropical Plants**

*Credits:* 2  
*Class hours:* 2 lecture  
*Description:* This is a non-technical course in the identification of common plants of the tropics.
BUSINESS EDUCATION (BUS)

BUS 55 - Computational Problems in Business
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable English and math placement test scores
Recommended: Placement in ENG 21 and ENG 22 and MATH 24
Description: Applies basic math to business problems. Reviews fundamental arithmetic processes including fractions, decimals, and percents. Emphasizes business applications in finance, merchandising, and accounting.

BUS 115 - Principles of Finance
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ACC 124B and ACC 124C
Description: This survey of business finance includes planning and managing assets; planning the financial structure; management of short-, intermediate-, and long-term funds; and valuing business enterprises.

BUS 120 - Principles of Business
Credits: 3
Class hours: 3 lecture
Description: Foundations of the social, legal, competitive, and economic environment of business organizations within a capitalistic society and within the international marketplace. Fundamentals of the importance of the internal organizational structure, effective information systems, planning, management, and how the key functions of business organizations, such as human resources administration, labor management relations, marketing, finance, insurance, and accounting operate within organizations.

BUS 121B – Customer Service – Basic Concepts
Credits: 1
Class hours: 1 lecture
Recommended: Placement in ENG 22 or higher
Description: This course covers basic customer service concepts. Intended to both transfer information and enhance attitude, this course introduces the evolution and importance of Customer Service. It examines behavior styles and dissatisfied/difficult customers, and explores service recovery and customer loyalty. It constructs a framework for interpreting customer needs and exceeding customer expectations.

BUS 130 - Business Communications: Oral
Credits: 3
Class hours: 3 lecture
Comments: Credit by exam is not an available option.
Description: This course gives students an opportunity to develop competence in oral communications within an organizational context. Emphasis is placed upon interviewing and conference discussion, including participation and leadership in groups. Students are involved in personal presentations, including explaining, reporting, briefing, and selling ideas.

BUS 143 - Professional Employment Preparation
Credits: 1
Class hours: 1 lecture (15 weeks) or 2 lecture (8 weeks)
Prereq: “C” or higher in ENG 22 or acceptable reading and writing placement test scores
Recommended: “C” or higher or concurrent enrollment in OAT 121
Description: Facilitates employment search by emphasizing professional techniques and standards in the preparation of application forms, resumes, cover letters, recommendation letters, and employment interview. Student will wear attire acceptable for career choice. Covers information and skills needed to ensure professional telephone personality.

BUS 175 - Business Communications: Written
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 22 or higher; or acceptable reading and writing placement test scores
Comments: Credit by exam is not an available option.
Description: Students explore and demonstrate skills and techniques for effective business writing. Use word processing software to facilitate message creation and revision.

BUS 175 - WI (Writing Intensive) / Business Communications: Written
(Meets graduation requirement for BUS 209 at the College of Business, UH Manoa.)
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Comments: Credit by exam is not an available option.
Description: Students review and refine basic and advanced writing techniques required to produce polished, professional business writing. Attention is given to proper format and content for resumes, reports, letters, and memos.

BUS 193V - Cooperative Education
Credits: 1-3
See explanation under the heading of Cooperative Education.
CARPENTRY
(CARP)

CARP 19 - Minor Home Repairs and Maintenance
Credits: 2
Class hours: 3 lecture/lab
Comments: Credit by exam is not an available option. May be repeated any number of times for credit.
Description: This is an introductory course for homeowners. Students learn the theories and manipulative skills involved in the proper use of hand tools and machinery dealing with the repair and maintenance of a cottage, including practical experience in performing typical minor home repairs. Safety is stressed.

CARP 19B - Minor Home Repairs and Fabrication
Credits: 2
Class hours: 3 lecture/lab
Prereq: "C" or higher in CARP 19
Comments: Credit by exam is not an available option. May be repeated any number of times for credit.
Description: This is an advanced course for homeowners in the proper use of hand tools and machinery for the repair and fabrication of various segments of a home. Safety is stressed.

CARP 20 - Introduction to Carpentry
Credits: 11
Class hours: 5 lecture and 18 lab
Prereq: Placement in ENG 22 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: An introductory course in carpentry technology. Proper use, care, and maintenance of hand tools, industrial grade portable tools, and various shop equipment. The study of construction materials, hardware, and fastening methods. Safety precautions stressed.

CARP 22 - Concrete Form Construction
Credits: 11
Class hours: 5 lecture and 18 lab
Prereq: Placement in ENG 22 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: A course in the theory and practice of concrete form construction, including forms for footings, walls, beams, stairs, and above-grade slabs. Other topics include the study of concrete and concrete products, form construction terminology, form materials, and methods. Projects include on site building foundation layout using the transits and levels. Safety practices in form construction are stressed.

CARP 41 - Interior and Exterior Wall Framing
Credits: 11
Class hours: 5 lecture and 18 lab
Prereq: Placement in ENG 22 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: A course on the theory and practice in construction of framing walls, partitions, rough openings, floors, exterior and interior wall coverings, ceilings, and moldings. Other topics include truss design, roof framing methods and construction, and quantity and cost estimates. Safety is discussed and stressed throughout the course.

CARP 42 - Finishing
Credits: 11
Class hours: 5 lecture and 18 lab
Prereq: Placement in ENG 22 or higher and MATH 50 or higher
Comments: Credit by exam is not an available option.
Description: A course in the principles of finishing carpentry and joinery; methods and materials used to finish the interior of a house are covered. Topics include door frame layout and construction, door and window installation and trim, cabinet construction and installation, and stairs construction.

CARP 93V - Cooperative Education
See explanation under the heading of Cooperative Education.

CARP 99V - Special Studies
See explanation under the heading of Special Studies.
COOPERATIVE ARTS AND SCIENCES EDUCATION (CASE)

CASE 193-293 - Cooperative Education

Credits: 1-3
See explanation under the heading of Cooperative Education.

The Co-op Office also provides students with internship opportunities. Internships are defined as short-term work experiences that offer students an opportunity to learn about a career area. Internships, unlike cooperative education placements, do not have to be directly related to the student’s field of study.

ABRP 93V and AMT 93V for trade technology majors.

BUS 193V is for business majors.

CASE 193V and 293V (Cooperative Arts and Science Education) involve career exploration experiences.

ETRO 93V and ETRO 193V for electronics majors.

FSER 93V is for food service majors.

HOPE 193V is for hotel operations majors.

COOPERATIVE EDUCATION

Cooperative Education

Credits: 1-3

Class hours: 1 hour per week seminar and 75 hours work experience for each credit.

Prereq: Approval of Co-op instructor.

Comments: May be repeated with approval of the Co-op instructor.

Description: Cooperative Education is a program that integrates classroom studies with work experience directly related to a students’ academic field of study. Field experiences may be on- or off-campus, paid or volunteer, part- or full-time. Students earn one to three college credits in this formal program. (1 credit = 75 hours, 2 credits = 150 hours, 3 credits = 225 hours). A student’s current employment may qualify as a students’ co-op site if it directly relates to that student’s field of study.

If a student does not work in a position that qualifies as a co-op site, the Co-op Coordinator will locate a volunteer site from a group of participating agencies in business, industry, and government. If students need a paid co-op experience, they are expected to find their own paying co-op sites.

Co-op field experiences are a graduation requirement for Hotel Operations and Office Administration and Technology programs. These degree programs view Cooperative Education as a capstone or exit experience within their program curriculum.

Co-op is also available in the Auto Body Repair and Painting, Automotive Mechanics Technology, Electronics and Food Service programs.
CHEMISTRY

(CHEM)

CHEM 151 - Elementary Survey of Chemistry

Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 24
Coreq: CHEM 151L
Description: This survey of general principles and descriptive chemistry is intended for students with no previous background in chemistry. Topics include atoms and molecules; moles and formulas; properties of solids, liquids, and gases; enthalpy and entropy; acids and bases; chemical composition; stoichiometry; and equilibria.

CHEM 151L - Survey of Chemistry Laboratory

Credits: 1
Class hours: 3 lab
Coreq: CHEM 151
Description: In this course, students are introduced to the illustration and practice of laboratory techniques as well as application of the chemical principles presented in CHEM 151.

CHEM 152 - Survey of Organic and Bioorganic Chemistry

Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in CHEM 151 and placement in ENG 100
Description: A one-semester course that provides basic information on the structure, nomenclature, properties and reactions of organic and biochemical compounds emphasizing their practical importance.

CHEM 161 - General Chemistry I

Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 25
Coreq: CHEM 161L
Description: An introduction to the basics of college chemistry. Topics include measurements, atomic, quantum, chemical bonding theories, stoichiometry, chemical reactions, thermochemistry, and gaseous, liquid, and solid states.

CHEM 161L - General Chemistry Laboratory I

Credits: 1
Class hours: 3 lab
Coreq: CHEM 161
Description: Introduction to chemical principles and procedures in the laboratory.

CHEM 162 - General Chemistry II

Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in CHEM 161
Coreq: CHEM 162L
Description: An introduction to the basics of college chemistry. Topics include chemical kinetics, chemical equilibrium, acid-bases, acid-base equilibrium, solubility equilibrium, entropy, electrochemistry, coordination, and nuclear chemistry.

CHEM 162L - General Chemistry Laboratory II

Credits: 1
Class hours: 3 lab
Coreq: CHEM 162
Description: Credit by exam is not an available option.
Comments: Credit by exam is not an available option.
Description: Introduction to chemical principles and procedures in the laboratory.

COMMUNICATION

(COM)

COM 210 - Intercultural Communication

Credits: 4
Class hours: 3 lecture and 2 lab
Comments: Credit by exam is not an available option. A two-night campout is included.
Description: This interdisciplinary course deals with cultural differences and the way these differences disrupt communication between people of varying cultural backgrounds. The course explores ways of broaching cultural barriers and building a new cross-cultural framework of ideas and attitudes. The workshop format includes discussion groups, brief lectures, audio-visual materials, and group field assignments.
### DRAFTING (DRAF)

**DRAF 19 - Basic Drafting**  
*Credits:* 3  
*Class hours:* 2 lecture and 3 lab  
*Prereq:* Placement in MATH 24 or higher and ENG 21 or higher  
*Comments:* Credit by exam is not an available option  
*Description:* This course provides a comprehensive study of basic drafting techniques, materials, tools, and processes. Students develop skill in projections, sections, pictorial drawings, lettering, and dimensioning.

**DRAF 20 - Introduction to Drafting**  
*Credits:* 4  
*Class hours:* 2 lecture and 6 lab  
*Prereq:* “C” or higher in DRAF 19; or high school mechanical drawing; and MATH 24 or higher and ENG 21 or higher  
*Comments:* Credit by examination is not an available option  
*Description:* This class is a comprehensive study of the fundamentals of drafting, residential building construction, and common architectural drawings. Topics include drafting equipment, lettering, line work, symbolizing, dimensioning, projections, sectioning, pictorial drawing, architectural representation, and the nature and scope of the drafting profession.

**DRAF 26 - Construction Materials I**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Prereq:* “C” or higher in DRAF 20  
*Comments:* Credit by exam is not an available option  
*Description:* This course provides a survey of the materials used in construction, their nature, characteristics, variety, and uses. Also covered in this course are materials and methods of light building construction.

### EAST ASIAN LANGUAGE AND LITERATURE (EALL)

**EALL 272 - Japanese Literature in Translation-Modern**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Recommended:* “C” or higher in ENG 100  
*Description:* This survey of modern Japanese literature begins with the Meiji era (1868) and extends to the present. Knowledge of Japanese language is not required.

### E-COMMERCE (ECOM)

**ECOM 100 - Introduction to E-Commerce**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Prereq:* “C” or higher in OAT 121 or ICS 100 and ENG 22 or higher  
*Recommended:* Working knowledge of personal computer systems and ability to operate standard web browsers and use e-mail comfortably  
*Description:* Introduction to the technology and history of the Internet and its uses as an electronic commerce media from informational websites to full online retail systems. Included in this introductory survey course will be analysis and evaluation of retail and business-to-business Internet-based systems. Course work includes web page design and the construction of a business-style website.
ECONOMICS

ECON 18B - Consumer Economics: The Marketplace
Credits: 1
Class hours: 3 lecture/lab (5 weeks)
Description: This course explores the marketplace in terms of advertising, gyps and frauds, and safeguards for shoppers.

ECON 18C - Consumer Economics: Money Management
Credits: 1
Class hours: 3 lecture/lab (5 weeks)
Description: This course offers money management in terms of earning, spending (borrowing and the use of credit), saving, and investing (securities and insurance).

ECON 18D - Consumer Economics: Estate Planning
Credits: 1
Class hours: 3 lecture/lab (5 weeks)
Description: This course provides information for planning for the disposal of possessions after death.

ECON 120 - Introduction to Economics
Credits: 3
Class hours: 3 lecture
Description: This survey of the principles of economics equally emphasizes microeconomic and macroeconomic theory. Analysis of current economic problems with special attention placed on policy alternatives for solution to these problems is part of the course.

ECON 130 - Principles of Economics
Credits: 3
Class hours: 3 lecture
Prereq: Qualified for ENG 100
Description: This course provides an opportunity to study supply, demand, and price determination in a market economy; costs, revenues, and price policies of the firm under conditions of competition and monopoly; and the determination of wages, rent, interest, and profits. Special emphasis is placed on the analysis of contemporary issues such as pollution, discrimination, professional sports, and poverty.

ECON 131 - Principles of Economics
Credits: 3
Class hours: 3 lecture
Prereq: Qualified for ENG 100; "C" or higher in MATH 24
Description: This analysis of functioning economic systems emphasizes forces determining levels and changes of national income and employment. Basic economic institutions, such as markets, money, bank, labor organizations, and corporations are explored.
EDUCATION

(ED)

ED 105 - Introduction to Early Childhood Education
Credits: 3
Class hours: 3 lecture
Prereq: Concurrent enrollment in ENG 22 or placement in ENG 100
Description: This introductory course explores the historical roots and fundamental principles in early childhood care/programs, the variety and scope of programs in the community, issues confronting the field, and career options.

ED 115 - Health Safety and Nutrition for the Young Child
Credits: 3
Class hours: 3 lecture
Prereq: Concurrent enrollment in ENG 22 or placement in ENG 100
Description: This course provides the student in the Early Childhood Education program with the theoretical and practical knowledge of methods for establishing a healthy and safe environment for the young child. The course includes an introduction to the nutritional needs of the child and the basic growth and development patterns in children.

ED 131 - Early Childhood Development: Theory Into Practice
Credits: 3
Class hours: 3 lecture
Prereq: Concurrent enrollment in ENG 22 or placement in ENG 100
Description: Principles of human development from conception through early childhood are covered in this course. The interrelation of physical, cognitive, emotional, and social aspects of the individual and how development affects expectations of and relationship to the individual child are included.

ED 140 - Guidance of Young Children in Group Settings
Credits: 3
Class hours: 3 lecture
Prereq: Concurrent enrollment in ENG 22 or placement in ENG 100
Description: This basic course addresses positive ways to support children’s social-emotional development from birth to age eight. The focus is on adult-child and child-child interactions and relationships.

ED 191B - Early Childhood Work Practicum
Credits: 15 practicum
Prereq: “C” or higher in ED 115, ED 140, ED 192, and ENG 100
Coreq: ED 191C
Comments: May be repeated until 12 credits are earned. Responsibilities to increase with each repeat.
Description: This supervised work experience provides individualized in-service training in education.

ED 191C - Early Childhood Discussion Practicum
Credits: 1
Class hours: 1 lecture
Coreq: ED 191B
Comments: May be repeated.
Description: This seminar course is designed to provide an opportunity for the student to discuss problems experienced in the work practicum and other courses. The course includes counseling, guidance, problem solving, and evaluating experiences.

ED 192 - Beginning Preschool Lecture/Laboratory
Credits: 2
Class hours: 4 lecture/lab
Prereq: “C” or higher in ED 105 and ED 131
Description: This course applies theories of child development to a laboratory setting.

ED 195 - Intermediate Preschool Lecture/Laboratory
Credits: 4
Class hours: 8 lecture/lab
Prereq: “C” or higher in ED 115, ED 140 and ED 192, and ENG 100
Description: This course offers students the opportunity to apply theories from related courses to a laboratory setting.

ED 234 - Observation and Assessment
Credits: 2
Class hours: 2 lecture
Prereq: “C” or higher in ED 192
Description: In this course, students develop advanced skills in methods of observing and recording behavior and assessing children and environments.

ED 245 - Child, Family, and Community
Credits: 3
Class hours: 3 lecture
Prereq: Concurrent enrollment in ENG 22 or placement in ENG 100
Description: The central focus of this course is on developing skills for establishing effective relationships between the early childhood professional and families of the children with whom the professional is working.

ED 261 – Preschool Curriculum I
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ED 105, ED 131 or PSY 220. Concurrent enrollment or “C” or higher in ENG 100
Description: This course provides the developmentally appropriate foundations and practice in designing, planning, implementing and evaluating activities that enhance the physical and creative development of preschool children.
EDUCATION
(ED) • continued

ED 262 – Preschool Curriculum II
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ED 131 or PSY 220 and “C” or higher in ED 105 and ENG 100
Description: This course provides developmentally appropriate theory and practice in designing, planning, implementing, and evaluating activities that enhance the cognitive and communication skills of preschool children.

ED 280 - Administration in Early Childhood Education
Credits: 3
Class hours: 3 lecture
Prereq: 9 credits of Early Childhood Education courses
Description: This course covers the philosophy and goals, organizational structure, and basic managerial information involved in operating a quality child care center for children and employees. The course is designed primarily for present or prospective administrators or employees of child care centers.

ED 290C - Advance Preschool Lecture/Laboratory
Credits: 4
Class hours: 8 lecture/lab
Prereq: “C” or higher in ENG 100 and ED 262 and “C” or higher in ED 195 or ED 191B and ED 191C
Description: This final laboratory experience enables students to put into practice the theories, attitudes, and skills gained in lecture courses at an increasing level of achievement.
ELECTRICITY (ELEC)

ELEC 20 - Electrical Fundamentals
Credits: 4
Class hours: 4 lecture
Comments: Credit by exam is not an available option.
Description: This course introduces the concepts and theories of electricity. Basic physics of electrons, electrical units and nomenclature, law and formulas, circuit computations, basic circuit configurations, magnetism, and electromagnetism are included.

ELEC 22 - Wiring Materials and Methods
Credits: 6
Class hours: 12 lecture/lab
Prereq: "C" or higher in ELEC 20
Comments: Credit by exam is not an available option.
Description: Students develop knowledge and manipulative skills in the use of basic hand tools, power tools, equipment, and various hardware encountered in electrical work. Laboratory exercises provide the "hands-on" experience and skills to solve applied problems in electrical installations.

ELEC 30 - Electrical Installation Theory I
Credits: 4
Class hours: 4 lecture
Prereq: "C" or higher in ELEC 20 and ELEC 22
Comments: Credit by exam is not an available option.
Description: This course offers instruction in basic and advanced residential wiring with emphasis on the National Electrical Code and the principles of residential blueprint reading.

ELEC 40 - Electrical Installation Theory II
Credits: 4
Class hours: 4 lecture
Prereq: "C" or higher in ELEC 30 and ELEC 32
Comments: Credit by exam is not an available option.
Description: In this course, students gain knowledge and experience in the more complex commercial and industrial wiring techniques, with emphasis on the National Electrical Code and the principles of commercial and industrial blueprint reading.

ELEC 42 - Electrical Installation Laboratory II
Credits: 6
Class hours: 12 lecture/lab
Prereq: "C" or higher in ELEC 30 and ELEC 32
Comments: Credit by exam is not an available option.
Description: This course is designed to advance the student’s skill and knowledge of electrical installation techniques and methods to a higher level. The class includes methods and techniques in the more complex commercial and industrial wiring.

ELEC 44 - AC/DC Systems and Equipment
Credits: 4
Class hours: 4 lecture
Prereq: "C" or higher in ELEC 40 and ELEC 42
Comments: Credit by exam is not an available option.
Description: This course is designed to advance the student into the electrical principles of AC and DC circuits and equipment. Emphasis is placed on the generation; transmission; application; instrumentation; and calculation of AC and DC power, theory, and characteristics of AC and DC machinery.

ELEC 46 - Alternating Current Systems and Machinery
Credits: 6
Class hours: 12 lecture/lab
Prereq: "C" or higher in ELEC 40 and ELEC 42
Comments: Credit by exam is not an available option.
Description: Supervised lab activities combine trade practices and related technical instruction to provide the most effective means of developing mechanical and manipulative skills. Emphasis is placed on methods of maintenance and repair of electrical equipment.

ELEC 99V - Special Studies
See explanation under the heading of Special Studies.
ENGLISH LANGUAGE INSTITUTE (ELI)

ELI 1 - Understanding and Speaking American English

Credits: 3
Class hours: 3 lecture
Prereq: Acceptable TOEFL score
Description: This first semester course (of the sequence ELI 1 and ELI 3) offers spoken American English for the non-native speaker of English. Special emphasis is placed on listening comprehension, fluency practice, oral communication activities, language learning strategies, and cultural awareness.

ELI 2 - Reading and Writing American English

Credits: 3
Class hours: 3 lecture
Prereq: Acceptable TOEFL score
Description: This first semester course (of the sequence ELI 2 and ELI 4) for non-native speakers of English focuses on reading comprehension skills, writing strategies and skills, vocabulary development, interpersonal communication skills, and cross-cultural understanding.

ELI 3 - Understanding and Speaking American English

Credits: 3
Class hours: 3 lecture
Prereq: Acceptable TOEFL score
Comments: May be repeated any number of times for credit.
Description: This second semester course (of the sequence ELI 1 and ELI 3) offers further practice in spoken American English for the non-native speaker of English. Special emphasis is placed on listening comprehension, fluency practice, and other oral communication activities.

ELI 4 - Reading and Writing American English

Credits: 3
Class hours: 3 lecture
Prereq: Acceptable TOEFL score
Comments: May be repeated any number of times for credit.
Description: This second semester course (of the sequence ELI 2 and ELI 4) for non-native speakers of English provides further practice in reading comprehension skills, writing strategies and skills, vocabulary development, interpersonal communication skills, and cross-cultural understanding.
ENGLISH

ENG 18 – Reading Essentials
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable reading placement test score
Recommended: ENG 19
Description: This course provides practice in building the essential reading skills needed to understand academic texts. Students will build vocabulary skills; identify main points, supporting details, and transitional elements; follow basic patterns of organization; recognize assumptions; and draw inferences.

ENG 19 – Writing Essentials
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable reading and writing placement test scores
Recommended: ENG 18
Description: This course concentrates on developing the paragraph: topic sentence, organization, and support. It builds vocabulary and improves skills of punctuation, grammar, spelling, and structure.

ENG 21 - Introduction to College Reading
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 18 or acceptable reading placement test score
Description: This course emphasizes improving literal, interpretive, and critical reading comprehension. Attention is given to developing a flexible reading rate and building vocabulary.

ENG 22 - Introduction to Composition
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 19 and ENG 21 or concurrent enrollment in ENG 21 or acceptable reading and writing placement test scores
Description: Students practice elements of the writing process including development and organization of ideas, revising, and editing.

ENG 26 - Survey of Literature of the Pacific
Credits: 3
Class hours: 3 lecture
Comments: Split-level: ENG 261
Description: This class is an introduction to reading and interpreting literature of and about Pacific cultures including Hawai’i. Students analyze historical, geographical, and cultural influences.

ENG 100 - Composition I
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 22 or acceptable reading and writing placement test scores
Description: Introduction to the rhetorical, conceptual, and stylistic demands of writing at the university level; instruction in the composing process, research strategies, and writing from sources.

ENG 102 - College Reading Skills
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 21 or acceptable reading and writing placement test scores
Description: This course provides an opportunity to improve in college reading skills. Comprehension and speed, vocabulary building, and critical reading skills are emphasized.

ENG 104 - Introduction to Creative Writing
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable reading and writing placement test scores
Description: This course is an introduction to the art and craft of writing poems, short stories, imaginative essays, and plays. The class offers opportunity for self-expression.

ENG 106 - Technical Writing
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 22 or higher or acceptable reading and writing placement test scores
Description: This class offers instruction and practice in the specialized writing that may be required of the students in various trade and technical positions and will emphasize practice in critical thinking and writing clear, effective university-level prose. Attention will be given to generating ideas, researching, drafting, revising, and editing.

ENG 199V - Special Studies
See explanation under the heading of Special Studies.

ENG 215 - Composition II
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: Additional study of rhetorical, conceptual, and stylistic demands of writing; instruction further develops the writing and research skills covered in Composition I.

ENG 250 - American Literature
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: Students read works by representative American writers from the colonial period to the present including women and ethnic authors.

ENG 251 - British Literature to 1800
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: This course introduces students to representative literature from the Old English, medieval, renaissance, and neoclassical periods. Students have the opportunity to practice reading to understand and appreciate literature.
ENG 252 - British Literature After 1800
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: This course provides an opportunity to read works by major authors from Romantic, Victorian, and Modern periods. Students have the opportunity to practice reading to understand and appreciate literature.

ENG 253 - World Literature to 1600
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: Students read selected major works from world literature, translated into English, from classical times through the 16th century.

ENG 254 - World Literature After 1600
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: Students read selected major works from world literature, translated into English, from 1600 to the present.

ENG 255 - Short Story and Novel
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: This course offers opportunity for analysis and appreciation of two genres of fiction; the short story and the novel.

ENG 256 - Drama and Poetry
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: This course offers opportunity for analysis and appreciation of poetry and drama.

ENG 257 - Literature by Women
Credits: 3
Class hours: 3 lecture
Recommended: “C” or higher in ENG 100
Description: This course focuses on women authors and their works: novels, short stories, poems, autobiographies, etc. Students read literary works by women or writers of varied social and ethnic backgrounds to discover a common ground of personal and political concerns. Emphasis is placed on using writing to develop critical thinking skills for understanding and appreciating literature and for self-expression.

ENG 257K – Literature and Medicine
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ENG 100
Description: This course focuses on literature related to health and medicine. Students will read, analyze, and appreciate poetry, drama, and fiction related to disease, medical ethics, death and dying, and other issues.

ENG 261 - Literature of the Pacific
Credits: 3
Class hours: 3 lecture
Recommended: “C” or higher in ENG 100
Comments: Split-level: ENG 26
Description: This class is an introduction to reading and interpreting literature of and about Pacific cultures including Hawai’i. Students analyze historical, geographical, and cultural influences.

ENG 299V – Special Studies
See explanation under the heading of Special Studies.
ETRO 18 - General Electronics
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 21, ENG 22 or ENG 100, and MATH 50
Comments: Credit by exam is not an available option.
Description: This introduction to DC, AC, semi-conductor, and digital electronics includes characteristics, applications, power supplies, and amplifiers. The course also includes the use of the oscilloscope and meters.

ETRO 93V – Cooperative Education
Credits: 1-3
Class hours: 75 hours of supervised work per credit
Prereq: Approval of instructor
Description: This course is designed to offer students the opportunity to explore and test career options within the electronics field.

ETRO 120 - Electronics I
Credits: 5
Class hours: 5 lecture
Prereq: Acceptance into Electronics program
Coreq: ETRO 120L
Comments: Credit by exam is not an available option.
Description: This class offers the basic theory of electricity from the atomic theory to filter circuits. It also includes Ohm’s Law, DC and AC circuits, network analysis, sinusoidal and non-sinusoidal voltages and current, resonant circuits, and meters.

ETRO 120L - Electronics I Laboratory
Credits: 2
Class hours: 6 lab
Prereq: Acceptance into Electronics program
Coreq: ETRO 120
Comments: Credit by exam is not an available option.
Description: This class provides laboratory experiments demonstrating the principles studied in ETRO 120.

ETRO 121 - Electronic Fabrication and Assembly
Credits: 2
Class hours: 1 lecture and 3 lab
Prereq: Acceptance into Electronics program
Comments: Credit by exam is not an available option.
Description: This course is an introduction to the manufacturing, installation, and repair techniques currently used by the electronics industry. Projects include soldering, desoldering, cabling, wire harnessing, wire wrapping, metal work, and PCB manufacturing.

ETRO 122 - Electronics II
Credits: 5
Class hours: 5 lecture
Prereq: “C” or higher in ETRO 120 and ETRO 120L
Coreq: ETRO 122L
Comments: Credit by exam is not an available option.
Description: This course provides the basic principles of vacuum tubes; semi-conductor devices; integrated circuits; and the applications to power supplies, amplifiers, oscillators (sinusoidal and non-sinusoidal), and basic logic circuits.

ETRO 122L - Electronics II Laboratory
Credits: 2
Class hours: 6 lab
Prereq: “C” or higher in ETRO 120 and ETRO 120L
Coreq: ETRO 122
Comments: Credit by exam is not an available option.
Description: This course demonstrates the principles studied in ETRO 122 by means of laboratory experiments. DC/AC electronics and semiconductor theories presented in ETRO 122 lectures are verified and reinforced by building and testing electronic circuits.

ETRO 125 - Advanced Electronics Fabrication and Assembly
Credits: 2
Class hours: 4 lecture/lab
Prereq: “C” or higher in ETRO 121
Comments: Credit by exam is not an available option.
Description: In this class, students must pass the department’s soldering certification test and learn advanced techniques including PCB rework/repair and surface mount technology. They then must design, fabricate, assemble, and document an electronics project using project management software, CAD, word processing, and a spreadsheet.

ETRO 140B - Cisco Networking 1
Credits: 3
Class hours: 6 lecture/lab
Recommended: Basic computer skills, introductory electronics
Description: This course presents an introduction to local and wide area networking. Networking theory, architecture, hardware, and software will be discussed in reference to the OSI Reference Model. Participants learn basic computer fundamentals, network topologies, cabling standards, routing, subnetting, routing protocols, network media, LAN design, network management and electrical and safety considerations. The course content will be delivered by CAI and lectures. Hands-on experience will be gained through organized lab activities.

The student will be expected to maintain a journal and do a power point presentation on an assigned topic.

A final exam and a final lab exam will test exit competencies.
ETRO 143C - Cisco Networking 2  
**Credits:** 3  
**Class hours:** 6 lecture/lab  
**Prereq:** “C” or higher in ETRO 140B  
**Description:** This course presents an introduction to Wide Area Networks (WANs) and basic router configuration. Topics covered include the Network layer, Cisco IOS software user interface, router startup and setup configuration, configuring router interfaces with IP, and routing protocols. The course content will be delivered by CAI and lectures. Hands-on experience will be gained through organized lab activities. The student will be expected to maintain a journal and do a presentation on an assigned topic. A final exam and a final lab exam will test exit competencies.

ETRO 143L - Digital Electronics  
**Credits:** 3  
**Class hours:** 3 lecture  
**Prereq:** “C” or higher in ETRO 120 and ETRO 120L  
**Coreq:** ETRO 143L  
**Comments:** Credit by exam is not an available option.  
**Description:** This course is an introduction to number systems, codes, logic gates, boolean algebra, and ICs used in digital circuits. In addition to the study and use of flip flops, registers, counters, decoders, and multivibrators; analog-to-digital/digital-to-analog interfacing and microprocessor fundamentals are studied.

ETRO 143L - Digital Electronics Laboratory  
**Credits:** 1  
**Class hours:** 3 lab  
**Prereq:** “C” or higher in ETRO 120 and ETRO 120L  
**Coreq:** ETRO 143  
**Comments:** Credit by exam is not an available option.  
**Description:** This course demonstrates the principles studied in ETRO 143 by means of laboratory experiments. Digital electronics concepts presented in ETRO 143 lectures are verified and reinforced by building and testing digital electronics and computer circuits.

ETRO 157 - Fundamentals of Web Design  
**Credits:** 3  
**Class hours:** 6 lecture/lab  
**Prereq:** “C” or higher in ICS 100  
**Description:** This course teaches the techniques for creating and managing a website using ADOBE’s web design software (GoLive, Photoshop, Illustrator, Live Motion, and Image Ready). The production process, elements of layout and design, interactivity, media creation, testing and optimization, and implementation are covered. By following these principles and techniques a web page that attracts and keeps browsers returning to it can be created. The student will design a website for a client and also have a website designed to his/her specification by another student.

ETRO 178 - Essentials of Information Technology  
**Credits:** 3  
**Class hours:** 6 lecture/lab  
**Prereq:** “C” or higher in ICS 100  
**Recommended:** ETRO 18  
**Description:** This course teaches the fundamentals of computer hardware and operating systems. On completion of the course, the students will be able to 1) assemble and upgrade computers and 2) troubleshoot and repair hardware and software problems. The student will also install computer peripheral devices and a variety of computer operating systems including DOS, Windows9X, Me, 2000, and XP. Finally the student will install and configure network cards for Internet connectivity.

ETRO 193V - Cooperative Education  
**Credits:** 1-3  
**Class hours:** 75 hours of supervised work per credit  
**Prereq:** Approval of instructor; and placement in ENG 100 or equivalent; and “C” or higher in one or more ETRO courses or “C” or higher in MATH 135 or equivalent  
**Description:** This course provides practical work experiences in an electronic field so that students will be able to apply classroom knowledge to develop job competency.

ETRO 199V - Projects in Electronics  
**Credits:** 1-4  
**Class hours:** 3 hours (1 credit) 5 hours (2 credits), 7 hours (3 credits), 9 hours (4 credits)  
**Prereq:** Approval of instructor  
**Comments:** May be repeated for any number of times for credit.  
**Description:** Students in this independent studies course are expected to write a project proposal which states the objectives or scope of the project, materials cost, expected outcomes, and implementation plan. A schedule of lab use time and instructor consultation time should also be included. The project must be documented and a final report is expected.

ETRO 240B - Cisco Networking 3  
**Credits:** 3  
**Class hours:** 6 lecture/lab  
**Prereq:** “C” or higher in ETRO 140C  
**Description:** This course provides a foundation in LAN design and implementation. Topics include switched and virtual LANs, configuring Cisco routers to support Novell networks and IGRP, and implementing access lists for security and traffic control. The course content will be delivered by CAI and lectures. Hands-on experience will be gained through organized lab activities. The student will complete a Threaded Case Study design project and will do a class presentation. A journal will also be required. A final exam and a final lab exam will test exit competencies.

ETRO 240C - Cisco Networking 4  
**Credits:** 3  
**Class hours:** 6 lecture/lab  
**Prereq:** “C” or higher in ETRO 240B  
**Description:** This course covers the fundamentals of Wide Area Networking. Topics include WAN frame encapsulation, link options, WAN design and router configuration for PPP, ISDN and frame relay. The course content will be delivered by CAI and lectures. Hands-on experience will be gained through organized lab activities. The student will be expected to maintain a journal and do a presentation on a Threaded Case Study project. A final exam and a final lab exam will test exit competencies.
ETRO 241 - Electronics Circuit Analysis

Credits: 4
Class hours: 4 lecture
Prereq: “C” or higher in ETRO 122 and ETRO 122L
Coreq: ETRO 241L
Comments: Credit by exam is not an available option.

Description: This course will familiarize the student with a wide variety of circuit configurations and their characteristics. Basic knowledge about amplifiers, power supplies, oscillators, pulse circuits, and modulators is included.

ETRO 241L - Electronics Circuit Analysis Laboratory

Credits: 2
Class hours: 6 lab
Prereq: “C” or higher in ETRO 122 and ETRO 122L
Coreq: ETRO 241
Comments: Credit by exam is not an available option.

Description: This laboratory course allows the student to apply circuit theory learned in ETRO 241. Amplifier, power supply, pulse, and modulation circuits presented in ETRO 241 lectures will be built and tested so that students may gain a working knowledge of these circuits.

ETRO 245 - Advanced Routing

Credits: 3
Class hours: 6 lecture/lab
Prereq: “C” or higher in ETRO 140B, ETRO 140C, ETRO 240B and ETRO 240C or valid CCNA certification

Description: This course covers advanced configuration of routing protocols including RIP, IGRP, EIGRP, OSPF and BGP for LANs and WANs. VLSM, route summarization and optimization, network security, DHCP, NAT, default routing, and connecting autonomous systems will also be covered. The course content will be delivered by classroom lectures and online lessons. Hands-on experience will be gained through organized lab activities.

The student will design, build, configure and test two comprehensive case study networks.

A final comprehensive on-line exam and practical lab exam will test exit competencies.

ETRO 246 – Remote Access Networking

Credits: 3
Class hours: 6 lecture/lab
Prereq: “C” or higher in ETRO 240C or valid CCNA certification

Description: Remote Access Networking is one of four courses leading to the CISCO Certified Network Professional (CCNP) designation. This course introduces the student to the implementation of Cisco routers in Wide Area Network (WAN) applications. The course focuses on the selection and implementation of the appropriate services required to build intranet remote access links.

ETRO 247 – Multilayer Switching

Credits: 3
Class hours: 6 lecture/lab
Prereq: “C” or higher in ETRO 240C or a valid CCNA certification

Description: This course introduces the student to the implementation of CISCO routers and switches for modern campus LANs. The course focuses on the selection and implementation of the appropriate services required to build reliable, scalable multilayer-switched LANs.

ETRO 248 – Network Troubleshooting

Credits: 3
Class hours: 6 lecture/lab
Prereq: A grade of “C” or higher in ETRO 245, ETRO 246, and ETRO 247 or instructor approval

Description: This course focuses on documenting and baselining a network, troubleshooting methodologies and tools, and layers 1 to 7 troubleshooting.

ETRO 257 – RF Communications

Credits: 4
Class hours: 8 lecture/lab
Prereq: “C” or higher in ETRO 122 and 122L

Description: The study of the general principles and characteristics of a variety of Radio Frequency (RF) Communications Systems. The coverage includes the analysis of digital and analog communications systems, subsystems and circuits. RF communications theory will be reinforced in lab with practical hands-on experience.

ETRO 270 – Network Operating Systems I

Credits: 3
Class hours: 6 lecture/lab
Prereq: “C” or higher in ETRO 140B

Description: This course presents the students with an introduction to the Microsoft Windows Operating System. The course focuses on the installation, configuration, implementation and administration of a Windows Server Network.

ETRO 275 - Fundamentals of LINUX

Credits: 3
Class hours: 6 lecture/lab
Prereq: “C” or higher in ICS 101

Description: This course introduces the student to fundamentals of the LINUX-based system that provides essential services for a local area network. Upon completion of this course, the student will have a basic understanding of the LINUX operating system and have hands-on experience installing, managing, and troubleshooting the LINUX-based system.

ETRO 280 - Microprocessor Architecture, Programming, and Interfacing

Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in ETRO 143, ETRO 143L, and ICS 111

Comments: Credit by exam is not an available option.

Description: A 6800 microprocessor trainer is used to introduce microprocessor architecture, interfacing, and machine language programming. Memory, interfaces, I/O devices, and interrupt processed I/O are covered. Students design and build an I/O interface which they control using machine language programs. CAI and trainer systems utilizing the 8085, 8088, and 8086 microprocessors are also used.
ETRO 287 - Computer Systems and Networking

Credits: 3  
Class hours: 3 lecture  
Prereq: “C” or higher in ETRO 280  
Coreq: ETRO 287L  
Comments: Credit by exam is not an available option.  
Description: The student learns how computers operate by studying the architecture of the 8088/80X86 microprocessor, the bus structure, memory, interfaced peripherals, and operating systems. Applications of this technology in data acquisition and networked (LAN/WAN) systems are studied along with maintenance, diagnostics, and repair. TCP/IP in ethernet and token ring networks are discussed in the context of the seven layer OSI model.

ETRO 287L - Computer Systems and Networking Laboratory

Credits: 1  
Class hours: 3 lab  
Prereq: “C” or higher in ETRO 280  
Coreq: ETRO 287  
Comments: Credit by exam is not an available option.  
Description: This course offers the student the opportunity to study the operation of microcomputer systems by building a microcomputer. DOS and Windows operating systems are installed and the systems are used for computer interfacing and data acquisition. Students then create peer-to-peer and then client-server systems using the computer they built. File servers, hubs, switches and routers, and network maintenance and management are also included.
### FACILITIES ENGINEERING TECHNOLOGY (FENG)

**FENG 30 - Basic Fundamentals of Air Conditioning and Refrigeration**

- **Credits:** 3
- **Class hours:** 2 lecture and 3 lab
- **Prereq:** "C" or higher in BLPR 22, ETRO 18, and ELEC 20, and PHYS 50 and WELD 17 or concurrent enrollment in PHYS 50 and WELD 17
- **Comments:** Credit by exam is not an available option.
- **Description:** This class offers the basic principles and fundamentals of air conditioning and refrigeration. The course is designed to expose students to the methods of maintaining, diagnosing, and minor repairing of domestic and commercial air conditioning/refrigeration systems.

**FENG 60 - Design and Drafting With CADD**

- **Credits:** 3
- **Class hours:** 2 lecture and 3 lab
- **Prereq:** Any high school mechanical drawing course
- **Comments:** Credit by exam is not an available option.
- **Description:** This is an introduction to the fundamental principles and operation of computer-assisted drafting and design. Students experience a step-by-step approach in using CADD software as a tool in creating drawings.

**FENG 99V - Special Studies**

See explanation under the heading of Special Studies.

### FRENCH (FR)

**FR 101 - Elementary French I**

- **Credits:** 4
- **Class hours:** 3 lecture and 2 lecture/ lab
- **Comments:** The laboratory is part of the class.
- **Description:** This elementary course in basic conversation, grammar, and reading is conducted entirely in French.

**FR 102 - Elementary French II**

- **Credits:** 4
- **Class hours:** 3 lecture and 2 lecture/ lab
- **Prereq:** "C" or higher in FR 101
- **Comments:** The laboratory is part of the class.
- **Description:** This review and continuation of topics covered in French 101 includes an understanding of the culture and life of the French people.

**FR 201 - Intermediate French I**

- **Credits:** 3
- **Class hours:** 3 lecture and 2 lab
- **Prereq:** "C" or higher in FR 201
- **Comments:** The laboratory is part of the class.
- **Description:** This course provides the first semester of intermediate reading, conversation, and composition in French.

**FR 202 - Intermediate French II**

- **Credits:** 3
- **Class hours:** 3 lecture and 2 lab
- **Prereq:** "C" or higher in FR 201
- **Comments:** The laboratory is part of the class.
- **Description:** This course provides the second semester of intermediate reading, conversation, and composition in French.

**FR 261 - French Literature in English**

- **Credits:** 3
- **Class hours:** 3 lecture
- **Prereq:** "C" or higher in ENG 100
- **Description:** This introductory survey of French literature includes selections of drama, poetry, essays, short stories, and novels. Lectures, discussions, and reports focus on characteristics and themes in French literature. The course is conducted in English.
**FOOD SERVICES (FSER)**

**FSER 100 – Introduction to Food Service**
- **Credits:** 5
- **Class hours:** 3 lecture and 6 lab
- **Description:** This course will provide an overview of the rapidly growing food service industry from “fast foods” to “haute cuisine.” Students will be able to explore occupational opportunities with emphasis on attitudes required of a person seeking employment in the food service industry. This course will offer students training in short order, pantry, bulk cookery, and cafeteria-style cooking.

**FSER 101 – Introduction to Hospitality for the Food Service Industry**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Prereq:** “C” or higher or concurrent enrollment in ENG 21
- **Description:** This course provides an overview of the travel industry and related businesses, including the analysis of links between hotel, food, transportation, recreation, and other industries comprising tourism. Students will identify job qualifications, professional standards, communication skills, and attitudes essential for successful workers in the food service industry.

**FSER 102 – Introduction to Short Order Cookery and Baking**
- **Credits:** 5
- **Class hours:** 2 lecture/lab and 12 lab
- **Referred:** ENG 21 or higher
- **Description:** This course will provide an overview of the rapidly growing food service industry from “fast foods” to “haute cuisine.” Students will be able to explore occupational opportunities with an emphasis on attitudes required of a person seeking employment in the food service industry. Students will be introduced to food preparation history, terminology, legal aspects, and emerging industry trends. Laboratory experiences will assist students in developing accepted techniques in fundamentals of baking and short order cookery.

**FSER 103 - Sanitation and Safety**
- **Credits:** 2
- **Class hours:** 2 lecture
- **Recommended:** ENG 21 or higher
- **Description:** The study and application of principles and procedures on sanitation and safety in the hospitality industry. This course includes the study of food-borne illnesses, biological hazards, chemical hazards, physical hazards and cross-contamination as they may occur during the flow of food. An introduction to Hazard Analysis Critical Control Point (HACCP) and other sanitation and safety programs will also be presented. Safety issues and Occupational Safety and Health Administration (OSHA) guidelines and standards will be covered as they apply to the hospitality industry.

**FSER 110 - Fundamentals of Cookery**
- **Credits:** 4
- **Class hours:** 3 lecture/lab and 20 lab (8 weeks)
- **Prereq:** Placement in ENG 21 or higher and MATH 24 or higher
- **Coreq:** “C” or higher or concurrent enrollment in FSER 103
- **Comments:** Credit by exam is not an available option.
- **Description:** This course is an introduction to the fundamental concepts, skills, and techniques of food preparation. Course coverage includes basic cooking methods for meats, stocks, soups, sauces, seafood, vegetables, and starches. Students will learn to identify, use, and maintain all equipment, tools, and utensils in a safe and sanitary manner.

**FSER 119 - Intermediate Cookery**
- **Credits:** 5
- **Class hours:** 2 lecture, 4 lecture/lab, and 18 lab (8 weeks)
- **Prereq:** “C” or higher in FSER 110
- **Comments:** Credit by exam is not an available option.
- **Description:** This course applies the basic concepts, skills and techniques taught in FSER 110 to short-order cookery, including breakfast cookery, as found in coffee shops, snack bars, and other quick-service outlets, with emphasis in American Cuisine, quantity food production, menu development, recipe standardization and conversion, and quality control. This course includes quantity food production and short-order cookery experiences in the college’s cafeteria.

**FSER 120 – Menu Merchandising**
- **Credits:** 2
- **Class hours:** 2 lecture
- **Prereq:** “C” or higher in BUS 55 or MATH 50H or higher and ENG 21 or higher
- **Description:** A study of the factors involved in planning effective menus for a variety of food service operations. This course includes the design, format, selection, costing, pricing, and balance of menu items based on an understanding of the needs of various target markets.

**FSER 122 - Fundamentals of Baking**
- **Credits:** 5
- **Class hours:** 2 lecture, 4 lecture/lab, and 18 lab (8 weeks)
- **Prereq:** “C” or higher in FSER 212
- **Description:** This course provides instruction in the study and development of basic skills in baking as practiced and required in the food service industry. Theory and laboratory work will provide the student with knowledge and skills in the preparation of breakfast breads, pastries, bread and rolls.

**FSER 128 – Dining Room and Beverage Service**
- **Credits:** 5
- **Class hours:** 2 lecture, 4 lecture/lab, and 18 lab (8 weeks)
- **Prereq:** “C” or higher or concurrent enrollment in FSER 103
- **Description:** The study and application of the variety of service styles and techniques practiced by industry with special emphasis on the importance of the coordination between the front and back of the house. This course includes the study of stewarding procedures and a study of the principles and practices of profitable beverage operations and the responsibilities and liabilities associated with alcohol service.

**FSER 185 - Culinary Nutrition**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Prereq:** Acceptable placement test scores or placement in ENG 21 or higher and MATH 24 or higher
- **Description:** The course provides a practical and systematic approach in developing a philosophy about healthful eating. It also provides the necessary guidelines for recipe adaptation and menu planning.
FOOD SERVICES (FSER) • continued

FSER 193V - Cooperative Education
Credits: 1-3
See explanation under the heading of Cooperative Education.

FSER 209 – Garde Manger
Credits: 4
Class hours: 3 lecture/lab and 20 lab (8 weeks)
Prereq: “C” or higher in FSER 212
Comments: Formerly FSER 283
Description: A study of the basic garde manger principles as well as the functions and duties of the department as it relates to and integrates with other kitchen operations. The preparation of specialty items such as aspics, chaud-froids, forcemeat, pates, terrines, galantines, mousse, as well as ice sculpturing, tallow sculpturing and vegetable carving will be covered in this eight-week modular course.

FSER 212 – Continental Cuisine
Credits: 5
Class hours: 2 lecture, 4 lecture/lab, and 18 lab (8 weeks)
Prereq: “C” or higher in FSER 119
Comments: Formerly FSER 206
Description: This course expands on the skills gained in the Fundamentals and Intermediate Cookery courses (FSER 110 and 119), emphasizing creativity and refining skills. It includes practice in preparing cooked-to-order dishes typically served in hotels and fine dining restaurants with emphasis on American and European cuisines, and presentation techniques for American, French, Russian, and buffet service. Laboratory work in the college fine dining restaurant emphasizes station organization and culinary experience.

FSER 216 – Asian Pacific Cuisine
Credits: 5
Class hours: 2 lecture, 4 lecture/lab, and 18 lab (8 weeks)
Prereq: “C” or higher in FSER 212
Description: A study of the Chinese, Japanese, Thai, Vietnamese, Filipino and Pacific-Islander cuisines. This course includes an overview of the history, culture, and foods of Asia and their influence on the foods of Hawai‘i, emphasizes the culinary traditions, artistry, and special uses of fruits, vegetables, spices, herbs and cooking ingredients commonly used in Asian and Pacific-Islander cuisines.

FSER 241 – Hospitality Purchasing and Cost Control
Credits: 4
Class hours: 3 lecture and 3 lab
Prereq: “C” or higher in ENG 21 or higher; and MATH 50H or higher
Comments: Formerly FSER 230
Description: An introduction to the principles and practices of purchasing, receiving, storing, and issuing food supplies in a food service organization. Students will be introduced to cost control systems as they apply to restaurants, hotels, and other food and beverage operations. The college’s food service complex will serve as the laboratory for class exercises. The course includes preparation and analysis of financial and control-related reports. Students will utilize computer technology to reinforce their practical experiences and introduce examples of technology practiced in industry.

FSER 294 – Food Service Practicum
Credits: 5
Class hours: 2 lecture, 4 lecture/lab, and 18 lab (8 weeks)
Prereq: “C” or higher in FSER 216
Description: This capstone course is designed to integrate culinary training with academic studies and field experience using fundamental cooking techniques, food science, aesthetics, managerial principles, and sensory perception as the framework. Students will plan, organize, staff, direct, and control a restaurant on campus. They will be responsible for menu design, service, finances, purchasing, and productivity. The instructor serves as a resource in the areas of market analysis, menu creation and design, cost control and financial analysis.
GEOGRAPHY
(GEOG)

GEOG 101 - Man's Natural Environment
Credits: 3
Class hours: 3 lecture
Description: This course surveys the natural environments, including distribution and interrelationships of climate, vegetation, soils, and landforms. Laboratory problems in map interpretation and environmental analysis are part of the course.

GEOG 101L – Natural Environment Laboratory
Credits: 1
Class hours: 3 lab
Prereq: Placement in ENG 100
Coreq: GEOG 101
Description: This course is a science laboratory for Physical Geography that explores analysis of experimental methodology and data associated with interdisciplinary sciences studied in geosystems such as climatology, meteorology, geomorphology, edaphology, cartography, etc.

GEOG 102 - World Regional Geography
Credits: 3
Class hours: 3 lecture
Description: This course examines the geography of the world’s major cultural regions. Emphasis is placed on graphic aspects of contemporary economic, social, and political conditions.

GEOG 267 - Introduction to Geography of Hawai’i and The Pacific
Credits: 3
Class hours: 3 lecture
Description: This course offers an opportunity to study the physical characteristics of the Pacific and its islands. The culture, politics, economy, and geography of Melanesia, Micronesia, and Polynesia are explored.

GEOLOGY and GEOPHYSICS
(GG)

GG 101 - Introduction to Geology
Credits: 4
Class hours: 3 lecture and 3 lab
Comments: The laboratory is part of the class.
Description: Students explore the principles of physical geology, the composition and structure of the earth, its evolution over geologic time, and the processes shaping the earth’s crust.
HAWAIIAN (HAW)

HAW 101 - Elementary Hawaiian I
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Comments: The laboratory is part of the class.
Description: This class provides an introduction to the Hawaiian language. Students learn basic structures with an emphasis on listening, comprehension, speaking, reading, and writing. Language laboratory drill is included.

HAW 102 - Elementary Hawaiian II
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Prereq: "C" or higher in HAW 101
Comments: The laboratory is part of the class.
Description: This is the second semester of an elementary course in Hawaiian. Emphasis is placed on listening, comprehension, speaking, reading, and writing. Language laboratory drill is included.

HAW 201 - Intermediate Hawaiian
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Prereq: "C" or higher in HAW 102
Comments: The laboratory is part of the class.
Description: This first half of an intermediate course in Hawaiian continues development of listening, speaking, reading, and writing the Hawaiian language. Language laboratory drill is included.

HAW 202 - Intermediate Hawaiian II
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Prereq: "C" or higher in HAW 201
Comments: The laboratory is part of the class.
Description: This second half of an intermediate course in Hawaiian continues development of listening, speaking, reading, and writing the Hawaiian language. Language laboratory drill is included.

HAW 221 - Introduction to Hawaiian Conversation
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in HAW 202
Description: This course provides practice for control of spoken Hawaiian. Further development of vocabulary enables more accurate, mature expression.

HAW 222 - Introduction to Hawaiian Composition
Credits: 3
Prereq: "C" or higher in HAW 202
Description: This class provides systematic practice for control of written Hawaiian. A variety of situations are introduced in which the student will use written Hawaiian as the medium of communication, providing for further development of vocabulary and grammatical elements for accurate, mature expression.

HAW 261 - Hawaiian Literature in English
Credits: 3
Class hours: 3 lecture
Description: This survey of traditional Hawaiian myths, legends, chants, and sayings is conducted in English.

HAW 262 - Survey of Hawaiian Writings
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in HAW 202 or ability to read and write Hawaiian
Description: This course surveys of selected Hawaiian writings from both the 19th and 20th centuries. Various literary modes of native Hawaiian literature and writings are presented in the original Hawaiian rather than English translation.
HISTORY

(HIST)

HIST 30 - Introduction to Hawaiian History
Credits: 3
Class hours: 3 lecture
Comments: Split-level: HIST 284
Description: This survey of the history of Hawai`i from late prehistoric period to the present emphasizes the cross-cultural nature of island society.

HIST 151 - World Civilizations I
Credits: 3
Class hours: 3 lecture
Prereq: Qualified for ENG 100
Description: This course provides an overview of the history of civilization from its origin to 1500 A.D. Emphasis is placed on the origin and development of the classical civilizations of the Old World: China, India, The Middle East, and Europe. Religious, philosophical, and cultural development are examined.

HIST 152 - World Civilizations II
Credits: 3
Class hours: 3 lecture
Prereq: Qualified for ENG 100
Description: This course provides an overview of the history of civilization from 1500 A.D. to the present. Emphasis is placed on the rise of the West and the response of the Non-Western World to Western expansion.

HIST 281 - Introduction to American History
Credits: 3
Class hours: 3 lecture
Description: This course surveys United States history from the earliest European settlements through the Civil War.

HIST 282 - Introduction to American History II
Credits: 3
Class hours: 3 lecture
Description: This course surveys the United States from the reconstruction period to the present.

HIST 284 - History of the Hawaiian Islands
Credits: 3
Class hours: 3 lecture
Comments: Split-level: HIST 30
Description: This survey of the history of Hawai`i from late prehistoric period to the present emphasizes the cross-cultural nature of island society.

HIST 284K – History of Kaua`i
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 100
Description: A history of the island of Kaua`i from the prehistoric period to the present.
**HOTEL OPERATION (HOPE)**

**HOPE 120 - Introduction to the Hospitality Industry**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Description:** Students examine the historical development, organizational structure, career preparation, future trends, human relations and other auxiliary departments of the lodging and food and beverage segments of the hospitality industry at the regional, national, and international levels. The class surveys the travel, tour, retail, and recreational segments to ensure global perspective. Students also explore the implications of culture, service, and the Aloha Spirit in the creation and delivery of hospitality.

**HOPE 124 - Food and Beverage Operations**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Description:** An introduction to the principles of marketing, menu planning, service styles, nutrition, sanitation and safety, purchasing and control systems as they apply to food and beverage management in an operational setting. The class includes the study and practical application of food and beverage management techniques to effectively manage resources: money, personnel, food and beverage products, and time.

**HOPE 125 - Exceptional Guest Service**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Description:** Students examine the origin, relevance, and application of emerging service concepts as they relate to Hawai`i’s travel industry. The class constructs representative profiles of the Hawai`i visitor based on life status and inclinations. Students also explore and experiment with conditioning exercises in the formation of an outstanding service attitude.

**HOPE 140 - Front Office Operations**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Prereq:** "C" or higher in HOPE 120
- **Comments:** Credit by exam is not an available option.
- **Description:** The study of the philosophy, theory, equipment, and current operating procedures of a hotel front office, concentrating on the human relations skills necessary for effective guest and employee relations and the technical skills necessary to operate a manual, mechanical, or computerized front office operation.

**HOPE 150 - Housekeeping Operations**
- **Credits:** 3
- **Class hours:** 3 lecture
- **Prereq:** "C" or higher in HOPE 120
- **Description:** The study of the cleaning techniques, equipment, and procedures used in housekeeping operations. Emphasis is on practical applications, the supervision and management functions, interdepartmental relationships, and preventive maintenance practices.

**HOPE 193V - Cooperative Education**
- **Credits:** 1-3 (A maximum of 6 credits may be earned.)
- **Prereq:** Approval of instructor and "C" or higher in HOPE 120
- **Comments:** Credit by exam is not an available option.
- **Description:** This course provides theory-oriented information as well as practicum-oriented exercises relating to the various aspects of plant propagation. Propagation of tropical and subtropical plants is emphasized.

**HORTICULTURE (HORT)**

**HORT 193V - Cooperative Education**
- **Credits:** 1-3
- **See explanation under the heading of Cooperative Education.**

**HORT 264 - Plant Propagation**
- **Credits:** 3
- **Class hours:** 2 lecture and 3 lab
- **Prereq:** "C" or higher in BOT 101
- **Comments:** The laboratory is part of the class. Credit by exam is not an available option.
- **Description:** This course provides theory-oriented information as well as practicum-oriented exercises relating to the various aspects of plant propagation. Propagation of tropical and subtropical plants is emphasized.
HEALTH, PHYSICAL EDUCATION, AND RECREATION (HPER)

HPER 101 - Physical Fitness
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: In this course, students develop an understanding of the modern concepts of physical fitness as they explore the progression of conditioning exercises and activities that develop and maintain physical efficiency.

HPER 103 - Beginning Swimming
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: This course provides basic swimming instruction, including adjusting to and immersing in water, correct arm stroke, leg kicks, breathing techniques, and water safety procedures.

HPER 110 - Beginning Golf
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: Students explore the basic skills, etiquette, and rules of golf, gaining a general understanding of the game.

HPER 115 - Bowling
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: Students explore the fundamentals of bowling, including rules, etiquette, approach, execution, and spare pick-ups.

HPER 120 - First Aid and CPR
Credits: 1
Grading: Credit/no credit
Class hours: 1.5 hours (semester) or 3 hours (7.5 weeks)
Description: This course will introduce students to standard first aid procedures and describe immediate care given in case of accident, sudden illness, or other medical emergency. The course will explain procedures to stop bleeding, treat poisoning, restore breathing, immobilize broken bones, and administer CPR.

HPER 130 - Beginning Tennis
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: This course provides instruction in the fundamentals of tennis, including rules, scoring, etiquette, grip, forehand and backhand strokes, serving, volleying, and singles and doubles play.

HPER 131 - Intermediate Tennis
Credits: 1
Class hours: 2 lecture/lab
Prereq: "C" or higher in HPER 130
Comments: May be repeated any number of times for credit.
Description: Students in this class concentrate on corrective work in three basic strokes: forehand, backhand, and the volley. They also apply spin in the basic strokes and develop advanced strategies in singles and doubles play.

HPER 132 - Advanced Tennis
Credits: 1
Class hours: 2 lecture/lab
Prereq: "C" or higher in HPER 130
Comments: May be repeated any number of times for credit.
Description: This course provides advanced instruction in the various strokes of tennis: forehand, backhand, volley, and serve. They also explore advanced court strategies in singles and doubles play.

HPER 135 - Volleyball
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: In this course, students develop an understanding of the basic skills, knowledge, and rules of volleyball. They practice the fundamentals of offensive and defensive team play.

HPER 137 - Basketball
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: Fundamentals of basketball, including dribbling, passing, shooting, and rebounding, are covered in this class. Individual defensive and offensive maneuvers, two- and three-person plays, and team offense and defense are also developed.

HPER 139 - Modern Health: Personal and Community
Credits: 2
Class hours: 2 lecture
Description: Students explore the concepts and analysis of mental/emotional health, family living, and scientific health information relating to personal and community health.

HPER 152 - Weight Training
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: This course trains students in the kinesiology of weight lifting and training. Students explore various techniques and methods of training with resistance as well as muscular stretching and warming-up techniques.

HPER 164 - Beginning Karate
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: Through a brief introduction to the history and philosophy of karate, students develop an understanding and appreciation of this martial art. They are also introduced to the art of karate.

HPER 190 - Beginning Racquetball
Credits: 1
Class hours: 2 lecture/lab
Comments: May be repeated any number of times for credit.
Description: In this course, racquetball history, theory, terminology, play, rules and regulations, etiquette, equipment, basic shot-making, and single and doubles play are introduced. Emphasis is placed on the fundamentals of racquetball, involving mechanics, consistency, control, and power.
HAWAIIAN STUDIES (HWST)

HWST 107 - Hawai‘i: Center of the Pacific
Credits: 3
Class hours: 3 lecture
Description: This class introduces the unique aspects of Hawai‘i and Hawaiian culture in relation to the larger Pacific, including origins, language, religion, land, art, and history.

HWST 111 - The Hawaiian Ohana
Credits: 3
Class hours: 3 lecture
Description: This course presents Hawaiian values through the traditional family system. Ancestral family practices are investigated and compared with current Hawaiian lifestyles and values.

HWST 128 – Hula and Chant
Credits: 3
Class hours: 2 lecture and 3 lab
Comments: The laboratory is part of the class.
Description: An introduction to Hula and Chant covering the fundamentals of traditional dance and traditions, chant, protocol, and language.

HWST 199V - Special Studies
See explanation under the heading of Special Studies.

HWST 231K - Topics in Hawaiian Culture: Kaua‘i and Ni‘ihau
Credits: 3
Class hours: 3 lecture
Description: This class introduces students to particular aspects of Hawaiian society, traditional literature, Hawaiian place names and their proper meaning and pronunciation, and Hawaiian material culture as works of art.

HWST 232 - Oral Arts and Traditions
Credits: 3
Class hours: 3 lecture
Description: This class surveys the relationship of Hawaiians to their language arts. Students examine cultural concepts that lead to the creation of myths, chants, songs, and dance. The art of Hawaiian storytelling and the composition of Hawaiian poetry are also studied. The course is conducted in English.

HWST 251 - Mahʻai Kalo (Taro Cultivation)
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 100 and "C" or higher in HWST 107
Description: For the past 2,000 years taro, or kalo, has been the main staple and most important food of the Hawaiian people. It has also played a very important role in the beliefs and daily lives of Hawaiians. This course will study the cultural link between the Hawaiians and kalo through the study of traditional cultivation, maintenance, and processing methods used by the Hawaiians. This will occur in conjunction with hands-on experience.

HWST 281 - Hawaiian Astronomy and Weather Relating to Polynesian Voyaging
Credits: 3
Class hours: 3 lecture
Recommended: Acceptable placement test score or placement in ENG 100 and MATH 24
Description: A survey of the Hawaiian and Polynesian environment in relationship to migrations, voyaging, and folklore. The course will provide the student with the basics of noninstrument navigation and voyaging as utilized in the voyages of Hokuleʻa, Hawai‘i Loa, and Makali‘i. In addition, the student will understand and appreciate the cultural impact of long distance voyaging.

HWST 285 – Hawaiian Medicinal Herbs I: La‘au Lapa‘au
Credits: 4
Class hours: 3 lecture and 2 lecture/lab
Prereq: “C” or higher in HWST 285
Description: Advanced study and preparation of Hawaiian and “hanai” herb combinations to address health and wellness.

HWST 290 – Rediscovering Polynesian Connections
Credits: 3
Class hours: 3 lecture/week plus a two-week visitation of the host country
Recommended: HWST 107, HWST 111, Hawaiian Language courses, HAW 261, HIST 284, Spanish or French if acceptable to the country being visited.
Description: Investigating Polynesian connections through life experiences. This is a study abroad course in which the student will experience the interconnectedness of the peoples and cultures of Polynesia through cultural immersion. Studies will begin on the home campus and culminate with a visit to the host country.

HWST 295 – Hawaiian Medicinal Herbs II: Laʻau Lapaʻau
Credits: 3
Class hours: 4
Prereq: “C” or higher in HWST 285
Description: Advanced study and preparation of Hawaiian and “hanai” herb combinations to address health and wellness.

HWST 299V - Special Studies
See explanation under the heading of Special Studies.
ICS 100 - Computing Literacy and Applications
Credits: 3
Class hours: 3 lecture
Comments: Credit by exam is not an available option.
Description: This non-technical introduction to computers and their uses in today's society provides students with an understanding of basic computer concepts, terminology, and current events. Students are involved in “hands-on” experience with word processing, spreadsheets, database software, electronic-mail, and telecommunications.

ICS 101 - Tools for the Information Age
Credits: 4
Class hours: 3 lecture and 3 lab
Prereq: "C" or higher in ENG 22 and MATH 25, or "C" or higher in ICS 100, or acceptable writing and math placement test scores.
Comments: The laboratory is part of the class. Credit by exam is not an available option.
Description: This course presents fundamental concepts and terms of computer technology, basic hardware components, systems software, application software, computer technology trends, and impact of computers on individuals and society. Application software is used for problem solving. The laboratory is part of the class.

ICS 111 - Introduction to Computer Science
Credits: 4
Class hours: 3 lecture and 3 lab
Prereq: "C" or higher in ICS 101
Comments: The laboratory is part of the class. Credit by exam is not an available option.
Description: This is an introductory course in computer programming. Emphasis is on structured programming, problem solving, algorithm development, computer language coding, implementation, and testing/debugging. The programs are implemented in a structured language. The course meets the Association for Computing Machinery-Computer Science (ACM-CS I) course standards.

ICS 120V - Projects in Computer Science and Programming
Credits: 1-2
Class hours: 3-6 lab
Prereq: "C" or higher in ICS 101
Comments: Credit by exam is not an available option. May be repeated once for credit.
Description: This course is primarily for students with a strong interest in computers and computer programming. The class involves materials and techniques beyond those used in the regular computer science courses. Students work individually problem solving by computer.

IS 97 – Success Strategies
Credits: 3
Class hours: 3 lecture
Recommended: Concurrent enrollment in Adult Basic Education English and/or math classes.
Description: A one-semester course designed to help students develop attitudes, knowledge, and competencies to make their college experience successful, meaningful, and significant. Four major components are interwoven throughout the course: 1) Self-Development Activities, 2) Career Exploration, 3) Learning Skills, 4) Computer Training.

IS 105 - Career Exploration and Planning
Credits: 3
Class hours: 2 lecture and 3 lab
Description: Individual assessment and planning for educational and career options. Students will develop their own academic plan of action based on their skills, knowledge, interests, and research on a career they would like to pursue. A service learning activity will help students clarify career goals. This course is primarily for students needing direction with career-decision making.
JOURNALISM
(JOUR)

JOUR 205 - News Writing
Credits: 3
Class hours: 3 lecture
Prereq: “B” or higher in ENGL 22
Description: This introduction to the theoretical and practical aspects of news writing includes technical, legal, and procedural considerations. It provides practical experience in news reporting and news writing.

JOUR 285V - Newspaper Laboratory
Credits: 1-3
Class hours: 3-9 lab
Prereq: “C” or higher in JOUR 205
Comments: May be repeated any number of times for credit.
Description: Students in this course produce a campus newspaper. Production steps include interviewing, writing copy, editing, and layout.

JAPANESE
(JPNS)

JPNS 101 - Elementary Japanese I
Credits: 4
Class hours: 3 lecture and 2 lecture/ lab
Prereq: “C” or higher in JPNS 101 or placement test score demonstrating equivalent knowledge and skills
Comments: The laboratory is part of the class.
Description: This class provides an introduction to listening, speaking, reading, and writing Japanese. Basic grammatical patterns are introduced. The course is designed for beginning students.

JPNS 102 - Elementary Japanese II
Credits: 4
Class hours: 3 lecture and 2 lecture/ lab
Prereq: “C” or higher in JPNS 101 or placement test score demonstrating equivalent knowledge and skills
Comments: The laboratory is part of the class.
Description: This is the second semester of an elementary course in spoken and written Japanese. As a first-year course, it emphasizes the spoken language, but increasing attention is given to reading and writing. Students are expected to have an active knowledge of both Hiragana and Katakana.

JPNS 201 - Intermediate Japanese I
Credits: 4
Class hours: 3 lecture and 2 lecture/ lab
Prereq: “C” or higher in JPNS 102 or placement test score demonstrating equivalent knowledge and skills
Comments: The laboratory is part of the class.
Description: This is the first half of an intermediate course in spoken and written Japanese. As a second year course, it emphasizes reading and writing. Students are expected to have an active knowledge of both Hiragana and Katakana and approximately 50 to 80 Kanji.

JPNS 202 - Intermediate Japanese II
Credits: 4
Class hours: 3 lecture and 2 lecture/ lab
Prereq: “C” or higher in JPNS 201 or placement test score demonstrating equivalent knowledge and skills
Comments: The laboratory is part of the class.
Description: This is the second semester of an intermediate course in spoken and written Japanese.

JPNS 299V – Special Studies
See explanation under the heading of Special Studies.
**LAW (LAW)**

**LAW 100 - Introduction to Law**

*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* This course provides an introduction to basic areas of law which affect society on a day-to-day basis. Trespass, negligence, liability, slander and libel, labor, family and criminal law procedure, constitutional law, the philosophy of law, and other legal areas of everyday concern are included.

**LINGUISTICS (LING)**

**LING 102 - Introduction to the Study of Language**

*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* This course explores the characteristics and processes of language. Concepts include language structure, processing, acquisition, variation, and history, as well as brain functioning and nonverbal forms of communication.

**LEARNING SKILLS (LSK)**

**LSK 101 - Learning to Learn**

*Credits:* 3  
*Class hours:* 3 lecture  
*Prereq:* Transfer-level student  
*Coreq:* Concurrent enrollment in two other courses requiring application of course principles.  
*Description:* This course provides students with a set of analytical thinking skills and study skills, which are immediately applied to other course work. These strategies and their application take the mystery out of how to learn successfully as students become more actively involved in their own learning. Skills include: reading, writing, listening, inner dialogue, information mapping, key word diagrams, task management, learning new vocabulary, stress management, and preparing for and taking exams.
MACHINE SHOP
(MACH)

MACH 19 - Introduction to Machine Shop
Credits: 3
Class hours: 5 lecture/lab
Comments: Credit by exam is not an available option. May be repeated any number of times for credit.
Description: This is an introduction to basic machine tools, precision measurements, bench layout techniques, and industrial safety. Students are involved in theory and practice in the operation of the drill press, machine lathe, and milling and boring machines. This course emphasizes automotive engine machine work.

MACH 22 - Machine Processes
Credits: 3
Class hours: 5 lecture/lab
Prereq: "C" or higher in MACH 19 and WELD 17
Comments: Credit by exam is not an available option. May be repeated any number of times for credit.
Description: This combination course is designed to provide additional experience in a general machine/welding shop. Students gain basic technical information and develop skills in the operation of hand and power tools, layout techniques, lathe operation, vertical and horizontal milling machine, and drill press operations. Basic manipulative skills in oxyacetylene, gas, shielded metal arc welding, and gas tungsten are also stressed.

MATH 22 - Pre Algebra
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable math placement test score
Description: A review of arithmetic, introduction to basic geometry and statistics, the concept of variables, signed numbers, order of operations, absolute values, algebraic expressions, solving equations with one variable, exponents, ratios and proportions, measurements, square roots, and solving word problems. The language of mathematics and experiential activities will be incorporated into the curriculum.

MATH 24 - Elementary Algebra I
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 22 or acceptable math placement test score
Comments: Credit by exam is not an available option.
Description: This course is an introduction to basic algebra topics. It is the first course in a two-semester sequence of elementary algebra courses. Instruction includes units on operations with signed numbers, linear equations and inequalities in one variable, the coordinate plane, and linear systems in two variables.

MATH 25 - Elementary Algebra II
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 24 or MATH 25
Description: In this course, students explore basic numerical trigonometry and further applications of algebra and geometry related to problems encountered in electricity.

MATH 50 - Technical Mathematics I
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable math placement test score
Description: This class offers the basic principles of algebra, geometry, and trigonometry as related to the solution of practical problems encountered in the various trade technical areas.

MATH 50H - Technical Mathematics I: Food Service
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable math placement test score
Description: This course applies and relates mathematical skills to the solution of food service problems: adjusting and costing recipes, calculating yields, markups, business forms and reports, financial statements, interest, taxes, and scheduling.

MATH 55 - Technical Mathematics II
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 24 or MATH 25
Description: In this course, students explore basic numerical trigonometry and further applications of algebra and geometry related to problems encountered in electricity.

MATH 58 - Technical Mathematics III
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 25
Description: This course is an introduction to the mathematical theories of functions and graphs, trigonometry, systems of equations, logarithms and exponentials, computer number systems, and Boolean algebra as applied to electronics.
MATH 100 - Survey of Math
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in MATH 25 or acceptable math placement test score
Comments: Not recommended for science and engineering majors.
Description: This course offers a non-technical survey of mathematical concepts and techniques enjoying applications in the daily life of our society. Topics chosen are from the areas of arithmetic, algebra, computers and computing, geometry, logic, probability, and statistics.

MATH 103 – College Algebra
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in MATH 25 or acceptable math placement test score (Algebra 62-100).
Description: This course is a continuation from elementary algebra. Topics of study include exponents; algebraic equations and inequalities; absolute value; polynomial, rational, exponential and logarithmic functions; conic sections; systems of equations and inequalities; matrices and determinants.

MATH 115 - Statistics
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in MATH 25 or acceptable math placement test score
Description: This course offers study of methods of presenting or describing data, methods of making decisions or predictions in the face of uncertainty, rules of probability, drawing inferences and making generalizations from samples, and testing hypotheses.

MATH 135 - Pre-Calculus: Elementary Functions
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in MATH 103
Description: This course is the first part of the pre-calculus sequence. It offers the study of elementary functions, including linear, quadratic, polynomial, rational, exponential, and logarithmic functions.

MATH 140 - Pre-Calculus: Trigonometry and Analytic Geometry
Credits: 3
Class hours: 3 lecture
Prereq: “C” or higher in MATH 135
Description: This course is the second part of the pre-calculus sequence. Study includes trigonometry, analytic geometry, and applications.

MATH 205 - Calculus I
Credits: 4
Class hours: 4 lecture
Prereq: Four years of high school mathematics including trigonometry; or college algebra and trigonometry; or “C” or higher in MATH 135 and MATH 140
Comments: Credit by exam is not an available option.
Description: This course offers an opportunity to study the intuitive treatment of limit, continuity, derivative, differentiation of polynomial, and trigonometric and exponential functions, and their inverse applications.

MATH 206 - Calculus II
Credits: 4
Class hours: 4 lecture
Prereq: “C” or higher in MATH 205
Comments: Credit by exam is not an available option.
Description: This course offers an opportunity to study the intuitive treatment of the integral; integration of polynomial, trigonometric, and exponential functions and their inverses; techniques of integration; series; and applications.
### MANAGEMENT (MGT)

**MGT 120 - Principles of Management**
- **Credits**: 3
- **Class hours**: 3 lecture
- **Comments**: Credit by exam is not an available option.
- **Description**: This course provides an introduction to management organizing and structural design, human factors in organizing and planning elements of decision making, measuring and controlling, and supervising.

**MGT 122 - Human Relations in Business**
- **Credits**: 3
- **Class hours**: 3 lecture
- **Comments**: Credit by exam is not an available option.
- **Description**: This course gives students an opportunity to understand and utilize human relations concepts as they apply to the business environment. Areas included are morale, personal efficiency, leadership, personality, motivation, and communication.

### MICROBIOLOGY (MICR)

**MICR 130 - General Microbiology**
- **Credits**: 3
- **Class hours**: 3 lecture
- **Prereq**: Qualified for ENG 100; "C" or higher in MATH 24
- **Coreq**: MICR 140
- **Description**: This introductory course is oriented toward medical microbiology and the study of microorganisms with emphasis on bacteria. It includes microbial metabolism, genetics, immunology, selected topics in applied microbiology, viruses, antibiotics, and microbial diseases.

**MICR 140 - Microbiology Laboratory**
- **Credits**: 2
- **Class hours**: 4 lecture/lab
- **Prereq**: "C" or higher in MICR 130 or concurrent enrollment in MICR 130
- **Comments**: Credit by exam is not an available option.
- **Description**: This course provides laboratory exercises that illustrate fundamental principles of microbiology. The class is primarily for students in health sciences.
MUS 103B - Music Reading: Church Hymns
Credits: 2
Class hours: 1 lecture and 2 lab
Description: Students are introduced to reading from church hymnals and singing in four-part harmony (soprano, alto, tenor, bass). The course includes instruction in reading music notation, pitch, rhythm, scales, and keys. No previous musical training is necessary.

MUS 106 - Introduction to Music Listening
Credits: 3
Class hours: 3 lecture
Description: In this class, students learn how to listen to music with understanding. Students survey the elements, styles, and forms of music from Renaissance through Contemporary periods. The course is geared to the listener with no previous music background.

MUS 121B - Elementary Voice Class I
Credits: 2
Class hours: 1 lecture and 2 direct method
Description: Beginning voice instruction assists students in steps of voice production, breathing, correct voice placement, diction, and stage presence. Students perform songs of various styles.

MUS 121C - Elementary Piano Class
Credits: 2
Class hours: 1 lecture and 2 direct method
Description: This course provides beginning piano instruction teaching students basic keyboard skills and concepts of melody, rhythm, harmony, and form. Study of popular music and classical music of the 18th through 20th centuries is included.

MUS 121D - Elementary Guitar Class
Credits: 2
Class hours: 1 lecture and 2 direct method
Description: Fundamental guitar-playing techniques. Emphasis on classical principles including chording, strumming, finger-picking, note-reading. Folk guitar, Hawaiian slack-key, and jazz accompanying will also be introduced.

MUS 121F - Elementary Slack Key Guitar
Credits: 2
Class hours: 1 lecture and 2 direct method
Comments: Students must provide their own acoustic guitars.
Description: Students learn the fundamentals of slack key guitar playing. This course for beginners emphasizes slack key techniques: standard G and double slack key tunings; the reading of tablature; and the counting of basic rhythms. No prior training in any style of guitar playing is required.

MUS 122B - Elementary Voice Class II
Credits: 2
Class hours: 1 lecture and 2 direct method
Prereq: "C" or higher in MUS 121B
Description: This continuation of MUS 121B develops principles of voice production, correct voice placement, breath control, vocal range, diction, dynamics, phrasing, interpretation, and stage presence. Students perform songs of various styles.

MUS 122C - Elementary Piano Class II
Credits: 2
Class hours: 1 lecture and 2 direct method
Prereq: "C" or higher in MUS 121C
Description: This continuation of MUS 121C further develops keyboard skills, including both reading and playing by ear. Expansion of repertoire explores a variety of styles, including classical, pop, jazz, and rock.

MUS 166 - Survey of Folk, Pop, and Rock Music
Credits: 3
Class hours: 3 lecture
Comments: No music background is required.
Description: This course features folk, pop, and rock music of the 20th century. Students look at important styles, composers, and performers in an historical framework.

MUS 177 - Music in Hawai’i
Credits: 3
Class hours: 3 lecture
Comments: No music background is necessary.
Description: Students examine the musical traditions in Hawai’i from pre-Captain Cook to the present. The course includes indigenous Hawaiian music, its acculturated forms and contemporary trends, and non-Hawaiian music in Hawai’i. Aspects of musical style, instruments used, composition, teaching and performance practice, the role of music in society, and repertoire are considered.

MUS 188 - Songwriting and Transcription
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MUS 108
Description: This course explores songwriting techniques and notation as well as transcription of popular songs using current lead-sheet format. There is an emphasis on developing aural perception and correct notational skills.

MUS 201 - Vocal Ensemble
Credits: 2
Class hours: 1 lecture and 2 lab
Prereq: Audition or approval of instructor
Comments: May be repeated any number of times for credit.
Description: This course offers an opportunity to study and perform choral literature from the Renaissance to the present. A cappella and choral/instrumental repertoire are included.

MUS 202 - Community College Band
Credits: 2
Class hours: 1 lecture and 2 lab
Prereq: Experience with instrumental performance and approval of instructor
Comments: May be repeated any number of times for credit.
Description: This course involves the performance of band literature. Emphasis is placed on excellence in musical performance and development of professional musicianship. Class members participate in class activities, sectional rehearsals, and concerts.
MUSIC (MUS) continued

MUS 203G - Instrumental Ensemble: String
Credits: 1
Class hours: 2 lecture/lab
Prereq: Minimum of one year's study on instrument and ability to read music
Comments: May be repeated any number of times for credit.
Description: This course provides opportunity for string instrumentalists in a performance group. Repertoire ranges from Renaissance and Baroque to contemporary popular music.

MUS 203N - Mixed Instrument Ensemble
Credits: 1
Class hours: 2 lecture/lab
Prereq: Minimum of one year’s study on instrument and ability to read music
Comments: May be repeated any number of times for credit.
Description: This course provides opportunity for instrumentalists to work in a performance group. Repertoire ranges from Renaissance and Baroque to contemporary music.

MUS 203R - Instrumental Ensemble: Brass
Credits: 1
Class hours: 2 lecture/lab
Prereq: Minimum of one year’s study on instrument and ability to read music
Comments: May be repeated any number of times for credit.
Description: This course provides opportunity for brass instrumentalists to work in a performance group. Repertoire ranges from Renaissance and Baroque to contemporary popular music.

MUS 204 - Stage Band
Credits: 2
Class hours: 1 lecture and 2 direct method
Prereq: Audition and approval of instructor
Comments: May be repeated any number of times for credit.
Description: This course involves the performance of stage band literature from swing to contemporary periods. Study of jazz concepts includes improvisation. Public performances are required.

MUS 220 – Musical Theatre
Credits: 3
Class hours: 3 lecture
Description: This class provides training in the fundamentals of vocal and theatrical performing for musical theatre.

MUS 253 - Basic Experiences of Music
Credits: 3
Class hours: 3 lecture
Description: Music fundamentals for classroom teachers is an engagement in the practice of the components of music, specifically time, pitch, media, musical expression and form, and how these interact with each other to comprise a musical experience. The means through which these components will be explored are: singing; using rhythm instruments; playing recorder, ukulele, bells, piano, and other classroom instruments; listening as a primary means of engaging the musical mind; movement as a primary means of engaging the kinesthetic and body senses; performing from notation; notating music, and analyzing music aurally and from score. Additionally, the creative use of the components as a means of understanding music will be utilized.
### NURSING (NURS)

#### NURS 11 - CHO: Basic Care Module

**Credits: 4**
- **Class hours:** 8 lecture and 12 lab (5 weeks)
- **Prereq:** Acceptable placement test score and current First Aid and CPR certification
- **Comments:** Credit by exam is not an available option.

**Description:** This course prepares adult residential care home operators to provide basic personal care and hygiene and a safe and comfortable environment for their ill, elderly, and disabled residents.

#### NURS 12 - CHO: Diseases, Special Diets, and Medicine

**Credits: 1**
- **Class hours:** 6.4 lecture/lab (2.5 weeks)
- **Prereq:** Acceptable placement test score
- **Comments:** Credit by exam is not an available option.

**Description:** This course prepares adult residential care home operators to observe the resident for signs and symptoms of common diseases, to make medications available, and to prepare special diets.

#### NURS 13 - CHO: Helping Therapies and Behavior Management

**Credits: 1**
- **Class hours:** 6.4 lecture/lab (2.5 weeks)
- **Prereq:** Acceptable placement test score
- **Comments:** Credit by exam is not an available option.

**Description:** This course prepares adult residential care home operators to assist in the provision of occupational, physical, recreational, and diversional therapy and to identify the operator’s role in fostering mental health and the care of the mentally ill and mentally retarded.

#### NURS 14 - CHO: Regulations, Accounts, and Community Resources

**Credits: 1**
- **Class hours:** 6.4 lecture/lab (2.5 weeks)
- **Prereq:** Acceptable placement test score
- **Comments:** Credit by exam is not an available option.

**Description:** This course prepares adult residential care home operators to implement specified regulations of Chapter 196, “Title II,” to implement simple accounting records, and to identify community resources available to residents and operators.

#### NURS 16 - Nurses’ Aide

**Credits: 8**
- **Class hours:** 40 lecture/lab (8 weeks)
- **Comments:** Satisfactory completion leads to a Certificate of Completion. Credit by exam is not an available option.

**Description:** This course provides training in basic nursing procedure for employment in hospitals, nursing homes, private homes, and clinics. Student activities take place in formal classes, supervised laboratory practice, and clinical experience in a hospital setting.

#### NURS 102 – Strategies for Success in Nursing I

**Credits: 2**
- **Class hours:** 2 lecture
- **Prereq:** Placement in ENG 21 or higher and approval of instructor

**Description:** This course provides an introduction to strategies for success in the nursing curriculum. Students explore topics related to healthcare and nursing while integrating concepts from math, science, and English. The formation of successful learning habits, the development of critical thinking and written communication skills, and the use of technology to support learning are emphasized.

#### NURS 103 – Strategies for Success in Nursing II

**Credits: 2**
- **Class hours:** 2 lecture
- **Prereq:** Completion of ENG 21 or higher. Completion of MATH 24. Instructor approval.

**Description:** This course continues to explore strategies for success in the nursing curriculum. Students investigate topics related to healthcare and nursing while integrating concepts from math, science, and English. Oral communication skills, using technology to support learning, and continued development of successful learning habits and critical thinking skills are stressed.

#### NURS 104 – Strategies for Success in Nursing III

**Credits: 2**
- **Class hours:** 2 lecture
- **Prereq:** “C” or higher in ENG 22 or placement into ENG 100. “C” or higher in MATH 24. Instructor approval.

**Description:** This course continues to explore strategies for success in the nursing curriculum. Students investigate topics related to healthcare and nursing while integrating concepts from math, science, and English. Using technology to support learning and communication, students will develop teamwork skills while planning and implementing a video production project. Continued development of successful learning habits and critical thinking skills are stressed.

#### NURS 105 – Strategies for Success in Nursing IV

**Credits: 1**
- **Class hours:** 2 lecture
- **Prereq:** “C” or higher in NURS 104

**Description:** This course continues to explore strategies for success in the nursing curriculum. Students investigate topics related to healthcare and nursing while integrating concepts from math, science, and English. Using technology to support learning and communication, students will develop teamwork skills while designing, carrying out and communicating a health research project. Continued development of successful learning habits and critical thinking skills are stressed.
NURS 121 - Introduction to Human Structure, Function and Related Terminology
Credits: 2
Class hours: 2 lecture
Prereq: "C" or higher in ENG 21 or ENG 22
Description: The course is designed to assist the student at an introductory level to relate human structures, processes, pathologies and common medical tests/procedures to acceptable terminology.

NURS 150 – Introduction to Health Careers
Credits: 3
Class hours: 2 lecture and 3 lab
Prereq: Placement in ENG 21 or higher and approval of instructor
Description: This course provides an introduction to basic knowledge and skills necessary for entering a health care occupation. Through a service learning component, students will be introduced to community health care agencies and providers, legal and ethical issues, cultural competency, communication, medical terminology, infection control, and safety. An overview of a variety of health care occupations is provided.

NURS 151 – Introduction to Technology and Health Care
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 21 or higher and approval of instructor
Description: This course is an introduction to current technological advances related to health care. The use of basic computer skills will act as the vehicle for promotion of critical thinking relating to health care and computer utilization. The impact of information technology of health care will be explored.

NURS 153 - Nursing Concepts and Skills
Credits: 9
Class hours: 5 lecture and 12 lab
Prereq: Acceptance into Nursing program
Comments: Credit by exam is not an available option.
Description: This first-level course emphasizes the nursing process, universal self-care needs, and beginning therapeutic care nursing skills. Nursing skills are integrated into laboratory and clinical experiences. Community health agencies are utilized for clinical applications.

NURS 154 - Family Health Nursing I
Credits: 2
Class hours: 2 lecture and 6 lab (8 weeks)
Prereq: Satisfactory completion of the first-semester courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This is the first-level offering in a two-course sequence in family health nursing. The nursing process serves as the framework for the study of the family during the childbearing period. Focus is on the normal physiological, psychosocial, cultural, and spiritual needs of the childbearing family (prenatal through puerperium) and general women’s health care issues. Consideration is given to common, uncomplicated health deviations. Emphases are on the application of principles of growth and development, self-care, communication, health education, ethical issues, and professional growth as related to family health nursing.

NURS 155 - Child Health Nursing I
Credits: 2
Class hours: 2 lecture and 6 lab (8 weeks)
Prereq: Satisfactory completion of NURS 154 and the first-semester courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This is the first-level offering in a two-course sequence in the nursing of children. The nursing process serves as the framework for the study of the family during the child rearing period. The focus is on the normal physiological, psychosocial, cultural, and spiritual needs of the childrearing family (infancy through adolescence). Consideration is given to common, uncomplicated health deviations in the infant, child, and adolescent. Emphases are on the application of principles of growth and development, self-care, communication, health education, ethical issues, and professional growth as related to the nursing of children.

NURS 156 - Adult Health Nursing I
Credits: 5
Class hours: 3 lecture and 6 lab
Prereq: Satisfactory completion of first-semester courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This integrated, first-level course in medical-surgical nursing includes concepts in mental health and psychiatric nursing. The primary focus is on the understanding of common physiological and psychosocial needs. Performance of nursing care skills and therapeutic techniques to meet self-care needs (universal, developmental and health deviations) are included. Nursing skills are integrated into laboratory and clinical experiences.
NURSING (NURS) •continued

NURS 157 - Adult Health Nursing II
Credits: 6
Class hours: 5.5 lecture and 32 lab (6 weeks summer session)
Prereq: Satisfactory completion of fall and spring courses; see counselor for specific grade and program requirements
Comments: This course is offered only in the summer. Credit by exam is not an available option.
Description: A first-level course which is a continuation of NURS 156, Adult Health Nursing I. The primary focus is on the common, physiological conditions, performance of nursing care skills, and therapeutic techniques to meet self-care needs (universal, developmental, and health deviation). Emphases are on the student’s role as a member of the nursing team, participation in the total nursing process, and proficiency in nursing skills. Nursing skills are integrated into laboratory and clinical experiences.

NURS 158 - Issues and Trends in Nursing I
Credits: 1
Class hours: 1 lecture/lab
Prereq: Satisfactory completion of first-semester courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This first-level course focuses on the history of nursing practice and education. Ethical and legal aspects as well as vocational responsibilities in the practice of nursing are emphasized.

NURS 166 - Nursing Transition
Credits: 2
Class hours: 1 lecture and 3 lab
Prereq: Hawai‘i LPN license; meets general requirements for entry into the nursing program
Comments: Credit by exam is not an available option.
Description: This course exposes the LPN to the theoretical framework of the KCC Career Ladder Nursing Program. Emphasis is placed on the development of learning skills, knowledge of Orem’s theory, and application of the nursing process in order to higher prepare the student for the second level of the nursing program.

NURS 199V – Special Studies
See explanation under the heading of Special Studies

NURS 253 - Mental Health/Psychiatric Nursing
Credits: 4
Class hours: 2 lecture and 6 lab
Prereq: Satisfactory completion of the first-year and summer courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This is a second-level course focusing on the study of fundamental theory and practice of psychiatric-mental health nursing. The practice is concerned with the dynamics of human behavior and the therapeutic, interpersonal relationship of the nurse and the patient, both individually and in groups. Nursing skills are integrated into laboratory and clinical experiences.

NURS 254 - Family Health Nursing II
Credits: 2
Class hours: 2 lecture and 6 lab (8 weeks)
Prereq: Satisfactory completion of the first-year and summer courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This is the second-level offering in a two-course sequence in family health nursing. The nursing process serves as the framework for the study of the family during the childbearing period. Focus is on increasingly complex physiological, psychosocial, cultural, and spiritual health deviations of the childbearing family (infancy through adolescence) and on associated nursing interventions. Consideration is given to increasingly complex application of principles of growth and development, self-care, communication, health education, ethical issues, and professional growth related to the nursing of children.

NURS 255 - Child Health Nursing II
Credits: 2
Class hours: 2 lecture and 6 lab (8 weeks)
Prereq: Satisfactory completion of NURS 254 and the first-year and summer courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This is the second-level offering in a two-course sequence in the nursing of children. The nursing process serves as the framework for the study of the family during the childbearing period. Focus is on increasingly complex physiological, psychosocial, cultural, and spiritual health deviations of the child rearing family (infancy through adolescence) and on associated nursing interventions. Consideration is given to increasingly complex application of principles of growth and development, self-care, communication, health education, ethical issues, and professional growth as related to the nursing of children.

NURS 257 - Advanced Adult Health Nursing
Credits: 8
Class hours: 3 lecture and 15 lab
Prereq: Satisfactory completion of the first-, second-, summer-, and third-semester courses; see counselor for specific grade and program requirements
Comments: Credit by exam is not an available option.
Description: This second-level course focuses on the nursing care process for meeting the self-care needs of patients experiencing common, complex medical/surgical conditions. Management skills in the care of a group of patients are developed. Clinical experiences are provided in a variety of settings. Course objectives are explored and met through a variety of writing assignments.
NURSING (NURS) • continued

**NURS 257B - Advanced Adult Health Nursing**

*Credits:* 10  
*Class hours:* 3 lecture and 21 lab  
*Prereq:* Satisfactory completion of the first-, second-, summer-, and third-semester courses; see counselor for specific grade and program requirements  
*Comments:* Credit by exam is not an available option.  
*Description:* This second-level course focuses on the nursing care process for meeting the self-care needs of patients experiencing common, complex medical-surgical conditions. Management skills in the care of a group of patients are developed. Clinical experiences are in a variety of settings. Students have additional opportunity to work with an experienced hospital staff nurse who serves as a preceptor to ease the transition from student to beginning professional nurse. Course objectives are explored and met through a variety of writing assignments.

**NURS 258 - Issues and Trends in Nursing II**

*Credits:* 1  
*Class hours:* 1 lecture  
*Prereq:* Satisfactory completion of the first-, second-, summer-, and third-semester courses; see counselor for specific grade and program requirements  
*Comments:* Credit by exam is not an available option.  
*Description:* This second-level course is a continuation of NURS 158, Issues and Trends in Nursing I. Current issues in nursing and health care are explored. Management theory and skills and the nurse’s role as a contributing member to the profession and the community are emphasized. Course objectives are explored and met through a variety of writing assignments.

**NURS 259 - Electrocardiogram Interpretation for Health Care Professionals**

*Credits:* 2  
*Class hours:* 2 lecture  
*Prereq:* “C” or higher or concurrent enrollment in NURS 257 or Registered Nurse or Emergency Medical Technician or Respiratory Therapist  
*Comments:* Credit by exam is not an available option.  
*Description:* This course develops nursing theory related to the accurate interpretation of cardiac arrhythmias and the 12 lead electrocardiogram (EKG). Focus is on the cardiac conduction system, electrophysiology and a systematic approach to the interpretation and treatment of arrhythmias, acute myocardial infarction, and their complications.

**NURS 299V – Special Studies**

See explanation under the heading of Special Studies
OFFICE ADMINISTRATION AND TECHNOLOGY (OAT)

OAT 20 – Basic Keyboarding
Credits: 1
Class hours: 3 lecture and 2 lab (5 weeks)
Description: This basic course in touch-typing teaches students to use a computer keyboard for inputting alphabetic, numeric, and symbolic information to the computer. The class includes coverage of the keyboard, correct fingering, and building speed and accuracy.

OAT 34 – Word Processing
Credits: 2
Class hours: 1 lecture and 2 lecture/lab
Prereq: “C” or higher in OAT 20
Description: An introduction to computer skills using contemporary word processing software. For non-OAT majors.

OAT 121 - Keyboarding
Credits: 3
Class hours: 3 lecture and independent open lab hours required
Description: The course covers: touch operation of alphabetic, numeric, symbol keys, and 10-key numeric keypad; layout characteristics including tabs, indents, horizontal and vertical centering, margins, text enhancements, line spacing, pagination, headers, and footnotes; useful formats including letters, memos, tables, manuscripts, reports, outlines, and templates; basic file management activities of creating, saving, deleting, printing, opening, and closing; composing at the keyboard; and continued skill development. Basic send and receive e-mail features will be introduced. Uses Microsoft Word.

OAT 123 - Document Formatting
Credits: 3
Class hours: 3 lecture and independent open lab hours required
Prereq: “C” or higher in OAT 121 or ability to type 35 wpm or acceptable placement test score.
Description: Development of production typing skills emphasizing memoranda, business letters, reports, tables, employment application forms; composing at the keyboard; and continued development of keyboarding speed and accuracy. Uses Microsoft Word.

OAT 130 - Information Processing
Credits: 3
Class hours: 3 lecture and independent open lab hours required
Prereq: “C” or higher in OAT 123
Comments: Credit by exam is not an available option.
Description: Course expands students’ concepts of word/information processing and further develops skills. Emphasis on more advanced applications such as outlines; fill-in forms; sorts; macros; styles; and graphics, columns, and other desktop publishing features. Students will prepare documents that are representative of business applications. Uses Microsoft Word.

OAT 131 - Information Processing Applications
Credits: 3
Class hours: 3 lecture and independent open lab hours required
Prereq: “C” or higher in OAT 130
Comments: Credit by exam is not an available option.
Description: Students use basic typewriter oriented design techniques to create and enhance the readability of documents such as letterheads, business cards, flyers, brochures, promotional documents, presentation materials, newsletters, reports, and manuals. Introduces basic web page development. Uses Microsoft Word and PowerPoint.

OAT 138 - Spreadsheet and Database
Credits: 3
Class hours: 3 lecture
Recommended: BUS 55 and OAT 121
Description: Introduces the basic functions of spreadsheet and database programs. Includes the input, retrieval, and processing of alphanumeric data on computerized spreadsheet and database programs. Develops proficiency in designing worksheets and databases.

OAT 140 - Filing
Credits: 3
Class hours: 3 lecture
Comments: Credit by exam is not an available option.
Description: This course involves alphabetic, numeric, geographic, and subject card and correspondence filing systems. Students also learn the management aspects of information control, classification systems, control of information and records, and micrographies and automation. Includes introduction to database file applications. Uses Microsoft Access.

OAT 143B – Telephone Techniques and Communications
Credits: 1
Class hours: 1 lecture
Recommended: ENG 21 or higher
Description: Develop positive telephone communication skills (professional relationships, a positive image, and reliable customer service). Study how current technology facilitates information processing. Emphasis will be on answering and using the telephone efficiently and courteously and taking messages effectively.

OAT 143B – Telephone Techniques and Communications
Credits: 1
Class hours: 1 lecture
Recommended: ENG 21 or higher
Description: Develop positive telephone communication skills (professional relationships, a positive image, and reliable customer service). Study how current technology facilitates information processing. Emphasis will be on answering and using the telephone efficiently and courteously and taking messages effectively.

OAT 160B – Beginning Shorthand (Symbolic) I
Credits: 2
Class hours: 4 lecture/lab
Recommended: Minimum typing speed of 35 words per minute
Description: Theory, basic principles, brief forms, phrasing, and simple transcription of Gregg shorthand. Development of reading and writing fluency; writing at a minimum speed of 30 words a minute.
OAT 160C – Beginning Shorthand (Symbolic) II
Credits: 2
Class hours: 4 hours lecture/lab
Prereq: "C" or higher in OAT 160B
Description: Theory, basic principles, brief forms, phrasing, and simple transcription of Gregg shorthand. Development of reading and writing fluency; writing at a minimum speed of 50 words a minute; transcription rate of 17 words per minute with 95 percent accuracy for mailable copy.

OAT 180 - Business English and Transcription I
Credits: 2
Class hours: 2 lecture
Prereq: Completion or concurrent enrollment in OAT 123 and placement in ENG 22
Description: Study of grammar, punctuation, and word usage, which provide the basic tools for effective business communication. Use of a transcribing machine is also covered.

OAT 181 - Business English and Transcription II
Credits: 2
Class hours: 2 lecture
Prereq: "C" or higher in OAT 180
Description: English mechanics and punctuation. Application, through machine transcription, of business communications.

OAT 190 – Office Computer Troubleshooting
Credits: 3
Class hours: 2 lecture and 2 lecture/lab
Prereq: "C" or higher in ICS 100 or OAT 121, and "C" or higher in ENG 21
Description: An introductory course in microcomputer system maintenance, hardware components and software. The student will learn hardware troubleshooting, diagnostic procedures and compatibility issues in regard to hardware and software upgrades. This course is intended to familiarize the student with the basic hardware and software configurations of the microcomputer.

OAT 199V - Special Studies
See explanation under the heading of Special Studies.
Oceanography

(OCN)

OCN 101 - Introduction to Marine Option Program
Credits: 1
Class hours: 1 lecture
Recommended: "C" or higher in ENG 21 or ENG 22 and MATH 24
Description: The course provides statewide information to students interested in learning more about the ocean and freshwater systems by becoming involved in the Marine Option Program (MOP). It is presented via Hawai‘i Interactive Television System (HITS). The course will review the requirements of the MOP Certificate and explore opportunities for internships, research projects, and careers dealing with water environments. The course will also present the guidelines in proposal writing, project implementation, data collection and interpretation, report preparation and formal project presentation.

OCN 199V - Marine Research and Directed Reading
Credits: 1-6
Class hours: 3 hours (1 credit), 5 hours (2 credits), 7 hours (3 credits), 9 hours (4 credits), 11 hours (5 credits), 13 hours (6 credits)
Prereq: "C" or higher in OCN 101
Comments: May be repeated any number of times for credit
Description: This course provides an opportunity for students to design and carry out marine and water-related internships, practica, research projects, or field experience on or off campus under the supervision of a faculty member and the guidance of a science mentor. It includes a project proposal, research, data collection and analysis, a final report, and an oral presentation. A project worth a minimum of three credits is required for a Marine Option Program (MOP) Certificate.

OCN 201 - Science of the Sea
Credits: 3
Class hours: 3 lecture
Recommended: ENG 100
Description: A survey of the ocean involving the study of the geological, physical, chemical, and biological properties of the ocean. This study includes a number of subjects to include the ocean basin, seawater properties, currents, waves, tides, marine organisms, and the ecological principles of man and the sea.

Philosophy

(PHIL)

PHIL 100 - Introduction to Philosophy
Credits: 3
Class hours: 3 lecture
Recommended: "C" or higher in ENG 100
Description: This course surveys the methods, fields, and problems of philosophy with an emphasis on the student's own relationships to philosophical issues.

PHIL 101 - Morals and Society
Credits: 3
Class hours: 3 lecture
Recommended: "C" or higher in ENG 100
Description: This class examines social and individual values, obligations, rights, and responsibilities. Students apply classical ethical theories to contemporary moral issues.

PHIL 102 - Introduction to Philosophy: Asian Traditions
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ENG 21 or ENG 22; or placement in ENG 100
Description: Issues and problems from Asian perspectives. Focus will be Indian, Chinese, and Japanese traditions.

PHIL 110 - Introduction to Logic
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 100
Description: This course provides an introduction to the methods of logic, the use of language, informal mistakes (fallacies) found in argumentation, types of definitions, deduction (including simple symbolic logic), and induction.

Pharmacology

(PHRM)

PHRM 203 - General Pharmacology
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L; and ZOOL 142 and ZOOL 142L
Description: In this course, drugs are discussed with an emphasis on sites and mechanisms of action, toxicity, fate, and uses of major therapeutic agents. The class is intended for students in health sciences and related fields.

PHIL 250 – Ethics in Health Care
Credits: 3
Class hours: 3 lecture
Prereq: Placement in ENG 100
Description: Exploration of basic ethical theories and their application to ethical issues relating to health care.
PHYSICS
(PHYS)

PHYS 50 - Technical Physics
Credits: 3
Class hours: 2 lecture and 3 lab
Comments: Credit by exam is not an available option.
Description: This course investigates mechanics, problems of matter, heat, sound, and electricity. Emphasis is placed on the practical applications of physics in industry.

PHYS 100 - Survey of Physics
Credits: 3
Class hours: 3 lecture
Prereq: Acceptable math placement test score (high school algebra)
Coreq: PHYS 100L
Description: This course introduces students to the basic concepts of physics with a minimum use of mathematics.

PHYS 100L - Survey of Physics Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher or concurrent enrollment in PHYS 100
Coreq: PHYS 100L
Description: This class provides elementary experiments in physics correlated with PHYS 100.

PHYS 150 - College Physics
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in MATH 103 concurrent enrollment in MATH 135
Coreq: PHYS 150L
Description: This course is an introduction to the physical concepts of mechanics, heat, and sound. It also explores the solution of such problems using algebra and trigonometry.

PHYS 150L - College Physics Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher or concurrent enrollment in PHYS 150
Coreq: PHYS 150L
Description: Credit by exam is not an available option.
Description: This course offers elementary experiments in physics correlated with PHYS 150.

PHYS 170 - General Physics I
Credits: 4
Class hours: 4 lecture
Prereq: "C" or higher or concurrent enrollment in MATH 205
Coreq: PHYS 170L
Description: An introduction to the physical concepts of classical mechanics, wave theory, and thermodynamics, using calculus as a tool to solve related problems.

PHYS 170L - General Physics I Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher or concurrent enrollment in PHYS 170
Coreq: PHYS 170L
Description: Credit by exam is not an available option.
Description: An introduction to the analysis of experiments in classical mechanics, wave theory, and thermodynamics.

<th>Class Hours</th>
<th>Prereq</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS 110</td>
<td>Introduction to Political Science</td>
<td>3</td>
<td>3 lecture</td>
<td>Qualified for ENG 100</td>
<td>This course covers the basic concepts associated with political systems, ideologies, institutions, and decision making. It also surveys the various subfields within the discipline of political science. The methodology of political analysis is included.</td>
</tr>
<tr>
<td>PSY 21</td>
<td>Introduction to Psychology</td>
<td>3</td>
<td>3 lecture</td>
<td>Split-level: PSY 100</td>
<td>This is a course in the concepts and ideas in psychology. Among the areas studied are the development of individual differences; measurement of capacities and abilities; and psychological bases of behavior, including emotions, learning, memory, thinking, and motivation.</td>
</tr>
<tr>
<td>PSY 22</td>
<td>Introduction to Psychology of Adjustment</td>
<td>3</td>
<td>3 lecture</td>
<td>Split-level: PSY 110</td>
<td>Students explore understanding and improvement of adjustment: needs, frustrations, conflicts, anxiety, and patterns of adjustment. Concepts of mental health are included.</td>
</tr>
<tr>
<td>PSY 100</td>
<td>Survey of Psychology</td>
<td>3</td>
<td>3 lecture</td>
<td>Split-level: PSY 21</td>
<td>This is a course in the concepts and ideas in psychology. Among the areas studied are the development of individual differences; measurement of capacities and abilities; and psychological bases of behavior, including emotions, learning, memory, thinking, and motivation.</td>
</tr>
<tr>
<td>PSY 105</td>
<td>Human Behavior</td>
<td>3</td>
<td>3 lecture</td>
<td>&quot;C&quot; or higher in PSY 21 or PSY 100</td>
<td>This course is an introduction to the theories of behavior, including theoretical as well as practical aids to working in groups. The course is designed primarily for students in the health sciences and related fields.</td>
</tr>
<tr>
<td>PSY 110</td>
<td>Psychology of Adjustment</td>
<td>3</td>
<td>3 lecture</td>
<td>Split-level: PSY 22</td>
<td>This course provides two approaches to criminal behavior. The factual approach includes demographic variables and their relationship to crime. The theoretical approach includes causal theories of crime or deviant behavior.</td>
</tr>
<tr>
<td>PSY 120</td>
<td>Criminal Behavior</td>
<td>3</td>
<td>3 lecture</td>
<td>&quot;C&quot; or higher in PSY 21 or PSY 100 and &quot;C&quot; or higher or concurrent enrollment in MATH 115</td>
<td>This course offers principles of development from conception to death. The focus is on the interrelationship of physical, cognitive, and social-emotional aspects of the individual.</td>
</tr>
<tr>
<td>PSY 212</td>
<td>Introduction to Methods of Psychology</td>
<td>3</td>
<td>3 lecture</td>
<td>&quot;C&quot; or higher in PSY 21 or PSY 100</td>
<td>This introduction to the fundamentals of sound experimental research covers the use of statistics in evaluating experimental results and actual experience as subjects and experimenters.</td>
</tr>
<tr>
<td>PSY 220</td>
<td>Developmental Psychology</td>
<td>3</td>
<td>3 lecture</td>
<td>Split-level: PSY 21</td>
<td>This course offers principles of development from conception to death. The focus is on the interrelationship of physical, cognitive, and social-emotional aspects of the individual.</td>
</tr>
<tr>
<td>PSY 224</td>
<td>Psycho-Social Problems and Their Treatment</td>
<td>3</td>
<td>3 lecture</td>
<td>&quot;C&quot; or higher in PSY 21 or PSY 100</td>
<td>Students explore understanding and improving interpersonal relations. The course surveys the common contributing factors to chronic unhappiness, anxiety, obsessive compulsive behavior, and different manifestations of psychopathology.</td>
</tr>
</tbody>
</table>
### REAL ESTATE (RE)

**RE 100 - Principles of Real Estate**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Comments:* Does not satisfy Hawai‘i salesperson licensure education requirements.  
*Description:* This survey of real estate law, finance, appraising, brokerage, and investments includes ownership interest contracts and open housing laws.

### RELIGION (REL)

**REL 150 - Introduction to the World’s Major Religions**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* This course surveys the development and major features of the world’s major religions: Hinduism, Buddhism, Confucianism and Taoism, Islam, Christianity, and Judaism. Buddhism and Christianity are emphasized because they are the dominant religions of Hawai‘i.

**REL 205 – Understanding Hawaiian Religion**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Prereq:* “C” or higher in ENG 22 or placement in ENG 100  
*Description:* This course is an introductory survey of Hawaiian religious beliefs and practices, from migration to the early contact era.

### SCIENCE (SCI)

**SCI 097 – Pre-Science**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* An introduction to the mathematical and scientific background that students need to succeed in transfer-level science courses.

**SCI 121 - Introduction to Science: Biological Science**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Coreq:* SCI 121L  
*Description:* This general introduction to the basic concepts of biology is intended to provide the non-science majors with a basic understanding of their own bodies and the environment in which they live.

**SCI 121L - Introduction to Science Laboratory: Biological Science**  
*Credits:* 1  
*Class hours:* 3 lab  
*Coreq:* SCI 121  
*Comments:* Credit by exam is not an available option.  
*Description:* This laboratory science course is designed to accompany SCI 121.

**SCI 122 - Introduction to Science: Physical Science**  
*Credits:* 3  
*Class hours:* 3 lecture  
*Description:* This course provides an introduction to the characteristics of the physical sciences and the interaction of science with society. Emphasis is placed on physics and chemistry with interdisciplinary applications to astronomy, geology, meteorology, and oceanography.

**SCI 122L - Introduction to Physical Science Laboratory**  
*Credits:* 1  
*Class hours:* 3 lab  
*Coreq:* SCI 122  
*Comments:* Credit by exam is not an available option.  
*Description:* This class offers an introduction to laboratory techniques using experiments in the physical sciences.
SALES AND MARKETING (SMKT)

SMKT 150 - Principles of Personal Selling
Credits: 3
Class hours: 3 lecture
Comments: Credit by exam is not an available option.
Description: Students learn the fundamental principles of selling, with an emphasis on the techniques of selling: the approach, sales presentation, handling of objections, and the close. Sales demonstrations are required.

SOCIOLOGY (SOC)

SOC 20 - Introduction to Sociology
Credits: 3
Class hours: 3 lecture
Comments: Split-level: SOC 100
Description: This course analyzes human relationships through the study of organization of society and culture, personality development, and the workings of human groups. Recent changes in society and community life as related to general principles are explored.

SOC 100 - Survey of General Sociology
Credits: 3
Class hours: 3 lecture
Prereq: Qualified for ENG 100
Comments: Split-level: SOC 20
Description: This course analyzes human relationships through the study of organization of society and culture, personality development, and the workings of human groups. Recent changes in society and community life as related to general principles are explored.

SOC 210 - Social Problems
Credits: 3
Class hours: 3 lecture
Description: This course explores representative major problems of society and their relationship to social deviation, cultural patterns, and social change.

SOC 220 - Marriage and Family
Credits: 3
Class hours: 3 lecture
Description: This course explores the family as a social institution: family structure and function in various cultures; the family and social change; the cultural context; other social institutions; and individual social experience. A survey of factors leading to success or failure in marriage is included.

SOC 230 - Race Relations
Credits: 3
Class hours: 3 lecture
Description: This course involves study of race relations in world perspective; typical situations; conflict and accommodations; caste; prejudice; interracial marriage; and effects upon personality.

SOCIAL SCIENCE (SSCI)

SSCI 25 - Issues in Ecology
Credits: 3
Class hours: 3 lecture
Comments: Split-level: SSCI 250
Description: This interdisciplinary course is concerned with developing a basic understanding and awareness of environmental issues and problems, their cause, and management alternatives. Students explore social, economic, and political aspects of issues such as pollution, population, and resources.

SSCI 101 - Self-Development
Credits: 3
Class hours: 3 lecture
Description: This exploration of values, needs, feelings, and other non-intellectual aspects of one’s personality helps students gain a higher self-understanding leading to the development of a positive self-image and acceptance of one’s individuality and uniqueness.

SSCI 113 - Group Leadership
Credits: 3
Class hours: 3 lecture
Description: The course provides an opportunity to study leadership and administrative principles and practices in order to develop human dynamics and different types of leadership abilities. Leadership applications involve knowledge in group situations and the principles necessary for effective leadership.

SSCI 199V - Special Studies
See explanation under the heading of Special Studies.

SSCI 250 - Ecology and Society
Credits: 3
Class hours: 3 lecture
Comments: Split-level: SSCI 25
Description: This interdisciplinary course is concerned with developing a basic understanding and awareness of environmental issues and problems, their cause, and management alternatives. Students explore social, economic, and political aspects of issues such as pollution, population, and resources.
**SPEECH**

**SP 20 - Speech Communication**

*Credits*: 3  
*Class hours*: 3 lecture  
*Comments*: Split-level: SP 151  
*Description*: In this course, students develop competence in oral communication. Emphasis is placed on speechmaking, rather than on fundamentals of speech. Students gain skill in managing ideas from conception to development, organization, and oral presentation.

**SP 151 - Personal and Public Speech**

*Credits*: 3  
*Class hours*: 3 lecture  
*Prereq*: Qualified for ENG 22  
*Comments*: Split-level: SP 20  
*Description*: In this course, students develop competence in oral communication. Emphasis is placed on speechmaking, rather than on fundamentals of speech. Students gain skill in managing ideas from conception to development, organization, and oral presentation.

**SP 231 - Performance of Literature**

*Credits*: 3  
*Class hours*: 3 lecture  
*Prereq*: Qualified for SP 151  
*Description*: Course introduces the student to the study of literature through performance. The student participates in individual and group presentations of poetry, prose, and drama. The process involved in preparation of a literary piece of performance leads to exploration and discoveries of multiple aesthetic dimensions of literature. Development of speech performance skills, written analysis of literature to be performed, and experience in critiquing presentations are areas stressed in the course.

**SP 233 - Folklore**

*Credits*: 3  
*Class hours*: 3 lecture  
*Prereq*: “C” or higher in SP 20 or SP 151  
*Description*: Students are introduced to the art of communication through storytelling for entertainment and education. The course includes oral traditions, analysis of story types, techniques of preparation and presentation, and performance.

**SP 251 - Principles of Effective Public Speaking**

*Credits*: 3  
*Class hours*: 3 lecture  
*Prereq*: Qualified for ENG 100  
*Description*: The course provides extensive practice in effective speech composition, support, delivery and critique with a focus on critical thinking, clear reasoning and adaptation to particular speakers, audiences and occasions. Writing will be used as a method of instruction and communication with students.

**SPANISH**

**SPAN 101 – Elementary Spanish I**

*Credits*: 4  
*Class hours*: 3 lecture and 2 lecture/lab  
*Recommended*: Placement in ENG 22 or higher  
*Comments*: The laboratory is part of the class.  
*Description*: Introduction to the Spanish language emphasizing conversation, listening, grammar, reading, and writing.

**SPAN 102 – Elementary Spanish II**

*Credits*: 4  
*Class hours*: 3 lecture and 2 lecture/lab  
*Prereq*: “C” or higher in SPAN 101  
*Comments*: The laboratory is part of the class.  
*Description*: Continuation of SPAN 101: Conversation, listening, grammar, reading, and writing.

**SPAN 201 – Intermediate Spanish I**

*Credits*: 3  
*Class hours*: 3 lecture  
*Prereq*: “C” or higher in SPAN 102  
*Description*: Continuation of SPAN 102. Students will refine basic language skills through conversation, listening, and instruction in grammar, reading, and writing.

**SPAN 202 – Intermediate Spanish II**

*Credits*: 3  
*Class hours*: 3 lecture  
*Prereq*: “C” or higher in SPAN 201  
*Description*: Continuation of SPAN 201: Conversation, listening, and instruction in grammar, reading, and writing.
SPECIAL STUDIES

Special Studies 99V, 199V, 299V

Credits: 1-4
Class hours: 3 hours (1 credit), 5 hours (2 credits), 7 hours (3 credits), 9 hours (4 credits)
Prereq: Approval of instructor
Comments: May be repeated any number of times for credit
Description: This course provides an opportunity for the student with special interests and abilities in subject areas to meet with a faculty member to discuss and investigate advanced studies, topics, and/or projects beyond those offered in regular courses. The problem and unit credit will be delineated in a proposal submitted by the student working with and at the discretion of the instructor. (Note: Special Studies sections will be offered as needed by each discipline and identified by that program’s alpha.)

THEATRE

THEA 101 - Introduction to Drama and Theatre

Credits: 3
Class hours: 2 lecture and 3 lab
Comments: Credit by exam is not an available option.
Description: This course surveys major forms of western and Asian theatrical performances. The lab emphasizes viewing performance videos.
WELDING
(WELD)

WELD 17 - General Welding
Credits: 2
Class hours: 3 lecture/lab
Comments: Credit by exam is not an available option. May be repeated any number of times for credit.
Description: In this course, students explore elementary oxyacetylene and arc welding, including the safe and proper use of equipment and materials. The class is designed to supplement instruction in related trades.

WELD 20 - Introduction to Welding
Credits: 10
Class hours: 25 lecture/lab
Comments: Credit by exam is not an available option.
Description: In addition to the proper use and care of oxyacetylene welding equipment, students learn methods of welding on horizontal and vertical surfaces to ferrous and non-ferrous metals. The course includes instruction in the proper use and care of hand and power tools, identification of metals, basic welding terminology and welding symbols, and the forging and heat treatment of carbon steel. Students learn the operation and use of various types of arc welding machines, electrode identification, and selection of rods. Safety precautions are stressed.

WELD 41 - Advanced Welding
Credits: 10
Class hours: 3 lecture and 21 lab
Prereq: "C" or higher in WELD 20
Comments: Credit by exam is not an available option.
Description: This course offers the student theory and basic manipulative skills of shield-metal arc welding in flat, overhead, and horizontal positions. Students learn the preparation of common types of weldment joints; basic techniques in stainless steel, pipe, and cast iron welding; and fabrication and the use of fabricating tools and equipment. Students also learn the theory, practice, and application of TIG and MIG welding, including processes, safety, quality control, manipulative skills, and welding of stainless steel and aluminum.

ZOOTOLOGY
(ZOOL)

ZOOL 141L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in CHEM 151 and CHEM 151L or higher
Coreq: ZOOL 141
Description: This course is intended to complement the material presented in the ZOOL 141 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: integumentary, skeletal, muscular, cardiovascular, lymphatic and immune, and respiratory.

ZOOL 142L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L
Coreq: ZOOL 142
Description: This course is intended to complement the material presented in the ZOOL 142 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: nervous, endocrine, digestive, urinary, reproductive systems.) and use of anatomy and physiology terminology and concepts to develop thinking, reading, and writing skills, and problem solving abilities for students entering health or medically-related fields.

ZOOL 20 - Beginning Zoology I
Credits: 4
Class hours: 3 lecture and 3 lab
Comments: Split-level: ZOOL 101. Credit by exam is not an available option. The laboratory is part of the class.
Description: This course is a basic introduction to the principles of animal and plant life with an emphasis on biological inquiry, energy flow, evolutionary trends, comparative biology of organ systems, and environmental ecology. The laboratory is part of the class.

ZOOL 101L – Principles of Zoology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: ZOOL 101, Principles of Zoology lecture
Coreq: ZOOL 101, Principles of Zoology lecture
Description: A general survey lab of the basic principles of animal biology to include a study of animal classification, structure, development, physiology, reproduction, evolution, behavior, and ecology. (1 credit and cross-listed at other UH colleges as BIOL 103L)

ZOOL 141 - Human Anatomy and Physiology
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in CHEM 151 and CHEM 151L or higher
Coreq: ZOOL 141L
Recommended: ENG 100
Description: This course is a comprehensive introduction to the structure and function of the human body (nervous, endocrine, digestive, urinary, reproductive systems) and use of anatomy and physiology terminology and concepts to develop thinking, reading, and writing skills, and problem solving abilities for students entering health or medically-related fields.

ZOOL 142 - Human Anatomy and Physiology
Credits: 3
Class hours: 3 lecture
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L
Coreq: ZOOL 142L
Description: This course is intended to complement the material presented in the ZOOL 142 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: nervous, endocrine, digestive, urinary, and reproductive.

ZOOL 141L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in CHEM 151 and CHEM 151L or higher
Coreq: ZOOL 141
Description: This course is intended to complement the material presented in the ZOOL 141 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: integumentary, skeletal, muscular, cardiovascular, lymphatic and immune, and respiratory.

ZOOL 142L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L
Coreq: ZOOL 142
Description: This course is intended to complement the material presented in the ZOOL 142 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: nervous, endocrine, digestive, urinary, and reproductive.

ZOOLOGY

ZOO 141L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in CHEM 151 and CHEM 151L or higher
Coreq: ZOOL 141
Description: This course is intended to complement the material presented in the ZOOL 141 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: integumentary, skeletal, muscular, cardiovascular, lymphatic and immune, and respiratory.

ZOO 142L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L
Coreq: ZOOL 142
Description: This course is intended to complement the material presented in the ZOOL 142 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: nervous, endocrine, digestive, urinary, and reproductive.

ZOOL 141L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in CHEM 151 and CHEM 151L or higher
Coreq: ZOOL 141
Description: This course is intended to complement the material presented in the ZOOL 141 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: integumentary, skeletal, muscular, cardiovascular, lymphatic and immune, and respiratory.

ZOOL 142L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L
Coreq: ZOOL 142
Description: This course is intended to complement the material presented in the ZOOL 142 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: nervous, endocrine, digestive, urinary, and reproductive.

ZOOL 141L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in CHEM 151 and CHEM 151L or higher
Coreq: ZOOL 141
Description: This course is intended to complement the material presented in the ZOOL 141 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: integumentary, skeletal, muscular, cardiovascular, lymphatic and immune, and respiratory.

ZOOL 142L - Human Anatomy and Physiology Laboratory
Credits: 1
Class hours: 3 lab
Prereq: "C" or higher in ZOOL 141 and ZOOL 141L
Coreq: ZOOL 142
Description: This course is intended to complement the material presented in the ZOOL 142 lectures by giving hands-on experience with anatomical models, organ and whole-animal dissections, physiological and biochemical experiments, and microscopic slides dealing with the following systems: nervous, endocrine, digestive, urinary, and reproductive.
WHO WE ARE . . . KAUA`I COMMUNITY COLLEGE FACULTY & STAFF

GLENN M. ALQUIZA .................................. Auto Body Repair & Painting
C.A., Kaua`i Community College

CONSTANTE AZARES .................. Auto Mechanics Technology
A.S., Kaua`i Community College

MELANIE BACIO ................. Culinary Arts
A.A., Kaua`i Community College

JORAE W. BAPTISTE ............... Personnel Officer
B.S., University of San Francisco

DANA BEKEART ................ Philosophy/Religion
B.A., Hobart College
M.A., University of Hawai`i

JEAN ILEI BENIAMINA .......... Counselor
B.A., University of Hawai`i

WILLIAM K. BLACKBURN ........ Interim Director, OCET
B.A., Brigham Young University
M.S., California State University, Northridge

TERRENCE A. BRUNS ............ Biological Science
B.S., M.A., Northern Arizona University

ANDREW F. BUSHNELL ........ History
B.A., University of Hawai`i
M.A., University of Wisconsin

NANCY BUSHNELL ............... Natural Science
B.S., University of Wisconsin
M.S., University of Hawai`i

JANICE M. CARMICHAEL .. EPSCOR
B.S., Washington State University
M.S.N., University of Hawai`i

RICHARD W. CARMICHAEL ... Nursing
B.A., M.S., University of Hawai`i

KRISTEN A. CATES ............ Nursing
B.A., University of California Santa Cruz
M.S.N., University of California San Francisco

PEGGY T. CHA .................. Chancellor
B.A., Stanford University
M.A., University of Hawai`i

SHARON N. CHIBA ............... Counselor
B.S., Kansas State Teachers College
M.S., Emporia Kansas State University

MALIA K. CHOCK ............... Na Pua No`eau Program Coordinator
B.A., University of Hawai`i

ERIC CHU .................. IT Specialist
B.A., Pacific University
M.Ed., University of Hawai`i

DENNIS CHUN .................. Hawaiian Studies
B.A., M.Ed, University of Hawai`i

KIMO K. CHUN .................. Counselor
B.A., University of Hawai`i

EDWARD COLL .................. Software Coordinator
B.S., Austin Peay State University
M.Ed., University of Hawai`i

JOHN D. CONSTANTINO ........ Counselor
A.A., Kaua`i Community College
B.A., University of Hawai`i
M.A., Gonzaga University

BRIAN E. CRONWALL .......... English
B.A., Macalester College
M.A., University of Minnesota – Duluth

KENNETH CURTIS .............. Case Management Coordinator
B.S., Montana State University
M.Ed., University of Montana

FRANCES DINNAN ............... Financial Aid Officer
B.A., M.Ed., University of Hawai`i

GIGI T. DRENT .................. Mathematics
B.A., M.A., California State University Fullerton

GREGORY ENOS .................. Fiscal Officer
B.S., BYU-Hawai`i

MARIA M. FABRO ............... Nursing
A.S., Kaua`i Community College
B.S.N., M.S.N., University of Hawai`i

CREIGHTON S. FUJII ............ Counselor
B.A., Creighton University
M.Ed., Central State University

WILLIAM GIBSON ............... Culinary Arts
B.B.A., University of Denver

MICHAEL GMELIN ............... Librarian
B.A., Our Lady of the Lake University
M.L.S., University of New York Albany

RUSSELL GRADY ............... Physical Education
B.Ed., M.Ed., University of Hawai`i

MARTINA C. HILLDORFER .... Culinary Arts

GERALD M. HIRATA ............ Math/ComputerScience
B.A., Arizona State University
M.A., University of California, Los Angeles

BONNIE L. HONMA ............... Counselor
B.S., M.P.H., University of Hawai`i

GLENN HONTZ .................. USDA Grant Coordinator
M.A., Ed.D., Teachers College, Columbia University

RUPERT S. HUNT ............... Business Education
B.A., University of Hawai`i
M.B.A., Chaminade University

DIANE M. JOHNSON .......... Librarian
A.S., Becker Junior College
B.A., Augsburg College
M.S.L.S., Simmons College

TOM M. KAJIWARA ............. Head Librarian
B.A., M.A., M.S., University of Hawai`i

ANTHONY C. KILBERT .......... Theater Manager
B.S., M.S., Southern Illinois University

RAMONA KINCAID .......... Acting Assistant Dean of Instruction for Academic Support & University Center Director
B.A., University of Missouri, Columbia
M.L.S., University of Hawai`i

SHELLEY KONISHI .......... Business Education
B.Ed., University of Hawai`i

RAY G. KOSHI ............... Auxiliary Service Officer
B.S., University of Hawai`i

RALPH S. KOUCHI ............. Welding/Machine Shop
A.S., Honolulu Community College
B.F.A., University of Hawai`i

KIPUKAIKULI`I ................ ACAMP Coordinator
B.S., University of the Pacific

EVE KURASAKI .......... Early Childhood Education
B.A., Eastern Washington State College

JOAN M. LANGAN ............... Nursing
B.S.N., Boston College
M.S.N., University of Pennsylvania
BRADEN G. LINDSTROM .................................................... English
B.S., M.S., Utah State University
Ph.D., University of Hawai‘i

SANDRA MAGNUSSEN ........................................... Counselor
M.A., University of San Francisco

Cammie C. Matsumoto .................................. Staff Development
B.A., B.F.A., M.Ed., University of Hawai‘i

RICHARD C. MATSUMURA .................................. Electronics
A.S., Honolulu Community College
A.A., Kaua‘i Community College

JAMES L. McFARLAND ........................................ Psychology
B.A., M.A., University of Hawai‘i

PATRICIA M. MCGRAITH ......................................... English
B.Ed., M.A., University of Alberta - Canada

ANNE MCKENNA ................................................... Librarian
B.A., M.L.I.S., University of Hawai‘i

HIROKO MERRITT ................................................... Japanese
B.A., M.A., University of Texas, Arlington
M.A.R.E., Southwestern Baptist Theological Seminary

WAYNE A. MIYATA .................................................. Art
B.F.A., M.F.A., University of Hawai‘i

MARSHALL MOCK .................................................. Physics
B.A., M.S., University of Hawai‘i
Ph.D., University of Miami

CHERIE A. MOONY ............................................... Nursing
A.S.N., Cabrillo College
B.S.N., University of the State of New York Albany
M.S.N., San Jose State University

JOYCE NAKAHARA ........................................ Social Science
B.A., University of Hawai‘i
M.S., Ph.D., Cornell University
