++ Highly recommended and required for BSN. Taking Micro 140 qualifies for extra points for admission.

+++ Nurse Aide strongly recommended, not required.

Incomplete applications will not be considered for admission

Please see the next page for Healthcare Experience Point Rubric

*****HEALTHCARE EXPERIENCE POINT ASSIGNMENT RUBRIC
(RANGE 0-5 POINTS)**

PURPOSE: The Kauai CC Nursing Program faculty sees the **benefit** of **direct patient care** experience which is founded on candidates' providing Activities of Daily living (ADL) care and practicing therapeutic communication skills; what (certified) nurse aides are trained to do and practice on a daily basis. The **aim** of this recommendation is to have incoming students more comfortable and familiar in the clinical setting because they already have **PRACTICE experience** with interacting and engaging with patients in a formal clinical setting. Nursing faculty have found that this gives practiced students an advantage over students with little or no experience, in RELATING to patients/residents and what direct care is, means, and how it is evaluated through performance measures (time management, organizational skills, and prioritizing).

For determination of point assignments concerning healthcare experience, if any, please refer to the following rubric:

0 Points	0.5 Points	1- 5 Points
<ul style="list-style-type: none"> ● No healthcare experience ● Only clinical practicum associated with Home Health Aide or Certified Nurse Assistant coursework ● Front desk at health care facility ● Patient Care Coordinator ● Patient Relations & Compliance Manager ● Care provided for farm animals (e.g. Veterinary Tech) ● Care provided for a loved one or acquaintance without certified documentation 	<p>Some experience in working with the public or a member of your 'ohana by taking health histories, writing event reports (scribe), emergency/safety services (EMT, police officer, firefighter), public health (vaccinations, etc.), providing complementary therapies (massage therapist, doctor of chiropractic), surgical aide, patient safety attendant, registered behavior technician, optometric assistant, dental assistant, lab assistant, phlebotomist, medical assistant, and home care (caregiver, direct support professional).*</p> <ol style="list-style-type: none"> 1) Minimum length of time required is six months. The service does not have to be consecutive but must have occurred within the last two years (prior to applying). The length of time can be accrued via multiple employers over a specific period of time over a two-year period of time. 2) If the applicant has provided direct care for a loved one or acquaintance, the student must provide certified documentation (via the patient's PCP, Case Worker, etc.) that direct patient care has been or is being provided. 	<p style="text-align: center;">Nurse Aide/Assistant</p> <p>A broad definition of Nurse Assistant:</p> <p><i>*Nurse Aide/Assistant: Individuals who work in hospitals, extended care facilities, private nursing agencies, and home health agencies under the direct supervision of an LPN or RN.</i></p> <p><i>Nurse Assistant role and responsibilities include, but are not limited to:</i></p> <p>Providing basic care to patients and residents, as well as assisting them in daily activities they might have trouble with on their own, such as bathing. Because of the personal nature of the job, nursing assistants should be compassionate and enjoy helping others.</p> <p><i>(either certified or not) with at least 6 mos. of experience is required with an employer who:</i></p> <ul style="list-style-type: none"> ● Actively monitors and evaluates the employee's performance ● Requires that the nurse assistant work with an assigned patient load (groups of patients/residents).** <p>Job titles may include hospital aide, nurse aide, certified nurse aide, nursing assistant, patient care technician- dialysis, clinical assistant to nurse midwife, and home health aide (HHA)***</p>

KAUAI COMMUNITY COLLEGE CAREER LADDER NURSING PROGRAM ADMISSIONS RUBRIC FALL 2025

	<p>*Eligible for 0.5 points because the candidate does NOT meet the criteria (definition, role, or responsibilities) for Nurse Aide/Assistant.</p>	<p>** This experience and exposure to multiple patients/significant others and facility policies definitely prepares them for the rigor of the nursing program and what is expected of each student in the provision of safe care in our program's mandated clinical practicum.</p> <p>There is no requirement that the aide be certified -- because all employers do not require so. Faculty also understand that certification is very costly. However, the assistant must be able to provide safe ADL care in accordance with their job description.</p> <p>Employment is verified with an agency during the application process in order to confirm the candidate is/was indeed employed as a Nurse Assistant and performing the associated responsibilities of a Nurse Assistant.</p> <p>*** an HHA who takes patients grocery shopping, cooks for them, or tidies the patient's house without direct patient care does not count.</p> <p>Work experience as a CNA will be considered also</p> <p>CNA experience < 6 months 6 months - 1 year > than one year</p>
